Microsoft

comptel

Founded in 1986 in Helsinki, Finland, Comptel is an international software company specializing in telecommunications. The company's mission is to perfect digital moments, which means delivering digital content right the first time to keep customers happy.

"Today with Microsoft Project, the data we get is far more accurate than it was before when we were producing it manually. We always have access to the current project status and don't have to wait until the end of the month to get that information."

Sari Hilden,
Head of Global Quality, Comptel

INNOFACTOR®

SITUATION

Comptel wanted to reduce the time spent on manual project management processes and improve access to data. The company deployed Microsoft Project Online to increase project efficiencies, gain visibility into projects statuses, and better resource employee talents.

BENEFITS

- Centralized resourcing data for resource managers

- Real-time project information and at-a-glance project statuses

- Streamlined scheduling, task assignments, and resourcing planning

- Improved project decision-making due to better data quality
