

INVENTORY ON-HAND DASHBOARD

Inventory on-hand dashboard provides a detailed insight into the stock on hand data stored in Microsoft Dynamics 365 for Operations. Users can view this dashboard in their workspace in Microsoft Dynamics 365. Users can view insights like ordered quantities, received quantities and physically available stock across legal entities, sites and warehouses. They can also drill down this information per legal entity, site or warehouse. There are other visuals like physical available by product, reserved physical vs. available physical quantities comparison.

Power BI is a suite of business analytics tools that deliver insights throughout your organization. You can connect to hundreds of data sources, simplify data prep, and drive ad hoc analysis.

DataAreaId1	Ordered	Received	PostedQty
us01	778,816.00	4,581,348.89	4,753,344.00
