

manual.to

smart work instructions

Company purpose

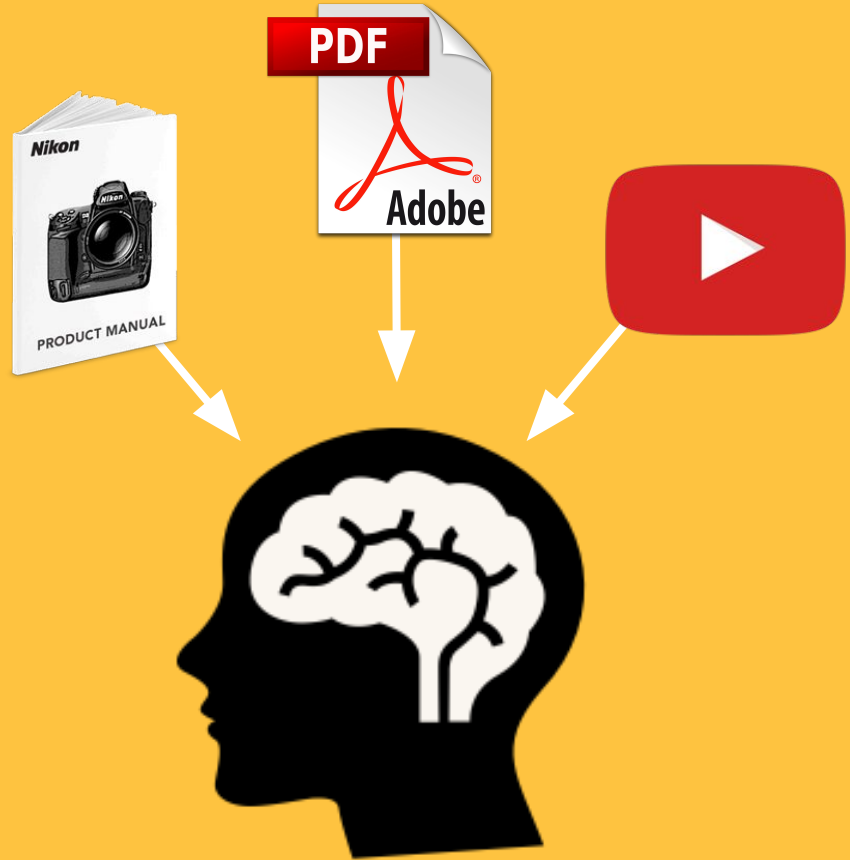

Manual.to helps
employees quickly
create, share & read
visual instructions.

Problem

Companies struggle to have employees **create, share and learn work instructions.**

- Creating them takes time, money and expertise.
- Low accessibility and findability limits sharing
- Traditional documents are not great for learning

Current way of working

PRINTS

Gets outdated fast.
Costly to print.

PDFS

Not for mobile phones.
No reporting/stats.

VIDEOS

Costly to produce.
'Scrubbing' stress.

Solution

An easy to use **web app** allows you to assemble content in minutes.

- without expert knowledge
- automated design
- simplifies translations
- increases understanding

Analogy: **instagram for manuals.**

How it works

Insert media

Use your smartphone to take pictures or video.

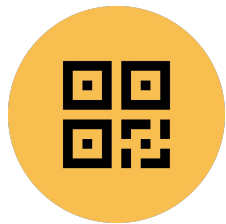

Add texts

Add texts for clarity, explaining what to do.

Ready to read

Share with colleagues or third parties as URL or QR.

Advantages

Anywhere

Access from any device.
Just scan the QR code
or use the URL.

Anytime

Produce manuals in
minutes. Always keep
them up to date.

Any-lingual

Your workforce is
multilingual. Now your
manuals are too.

Why now?

Current solutions
are outdated.

Increased
need for training

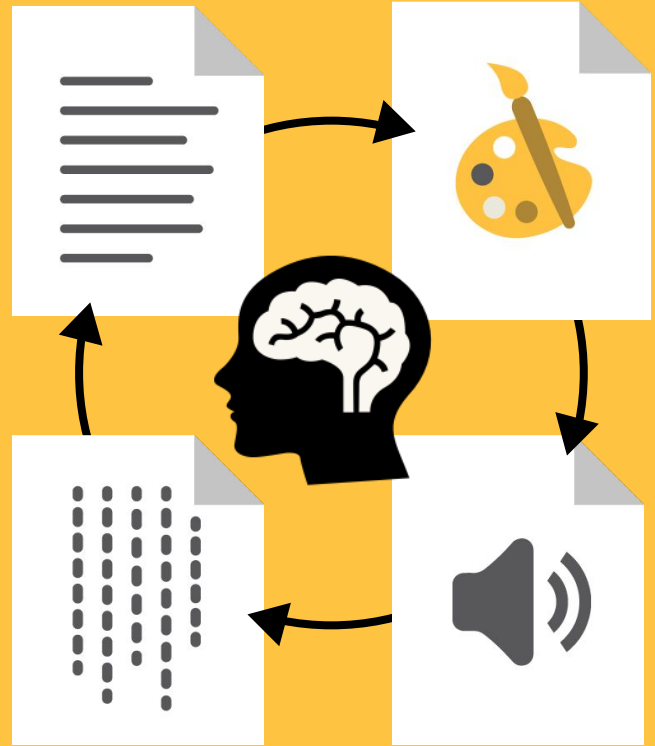

Everybody has
a smartphone

Tools like instagram are changing the way decision makers think about feature-rich vs practical cost savings.

Vision

Manual.to offers
**the easiest way to
scale knowledge**
within companies.
