

ClicData Enterprise

Manage multiple clients and departments in one place.

ClicData Enterprise is ideal if you want to centralize all your data in one system and distribute it securely to different clients, departments or partners.

It is made for companies with lots of data or many dashboard viewers that want to achieve economies of scale.

What do I get ?

A centralized large capacity data warehouse with the ability to quickly generate dashboards per viewer.
Lots of viewer licenses and editors so that you don't have to worry about the "per license" cost.

■ FAST IMPLEMENTATION

From signup to full sets of dashboards in less than 2 days.

■ IMMEDIATE SAVINGS

Reduce your IT and maintenance costs by at least 35%.

■ LOW RISK

If you decide to move on your data is available as a SQL Server database.

Get it done fast at a reduced cost.

Enterprise Benefits

CENTRALIZED DATA

Connect data only once for all viewers/dashboards.

Configure data processing centrally per client.
