

A background image showing a close-up of server racks in a data center, with various components and cables visible.

ClicData Enterprise

The power of cloud. The flexibility of on-premise.

We get it. Your company's data is valuable and you want it close to you for speed. For safety. ClicData Enterprise is a hybrid model of our cloud based subscription.

What do I get ?

Performance. Control. A database just for your company. Processing cores just for your tasks. And still the same great web application, complete with free updates.

- Your own set of data processing workers that are waiting just for your – and only yours - data refreshes. **Unlimited** data refreshes is just the start.
- With 250GB in size, upgradable to **4 Terabyte** capable of high speed analytics using the latest Microsoft SQL Server DB engine.
- Connect directly to your data using a VPN, IP Address whitelisting and more. Create more **robust interfaces** and direct connections.
- It includes **100 User Licenses** (Viewers or Editors) up to 25,000 users.
- We include all monitoring services to make sure that everything is working **24 hours a day, 7 days a week**.
- Faster database, faster job completion, faster dashboard publications, faster... well, you get the idea. **It's fast.**

A private data warehouse and reporting platform.

Do the math. It just makes sense.

■ FAST IMPLEMENTATION

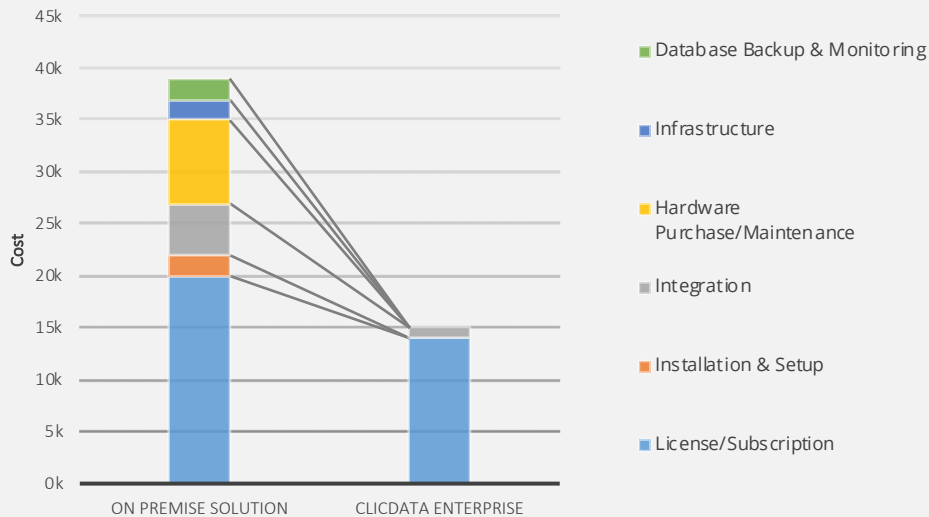

From signup to full sets of dashboards in less than 2 days.

■ IMMEDIATE SAVINGS

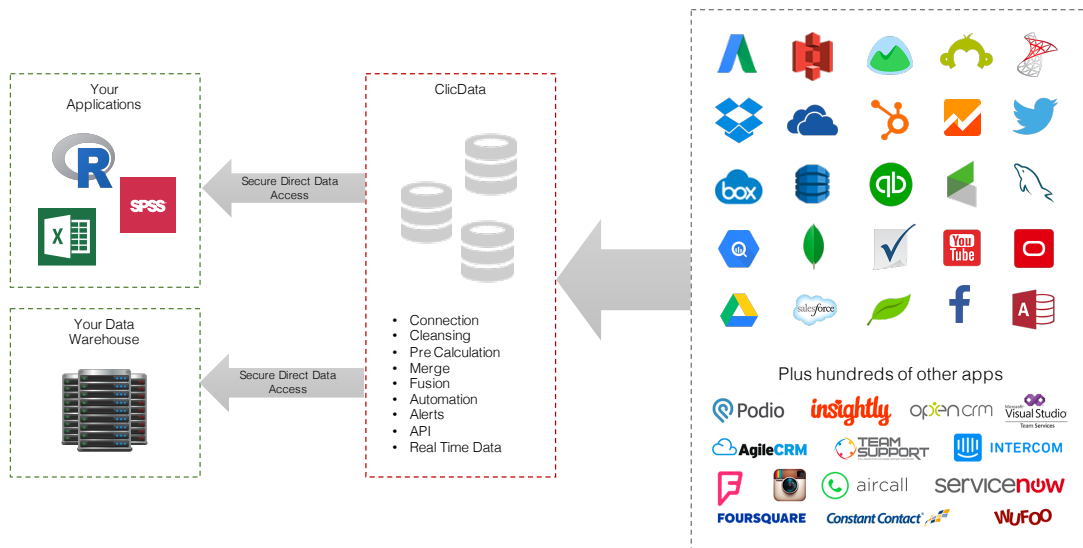

Reduce your IT and maintenance costs by at least 35%.

■ LOW RISK

If you decide to move on your data is available as a SQL Server database.

Secure Direct Data Access
