# SUNLIGHT ENTERPRISE

The Insurance Solution That Simply Works

SUNLIGHT
SOLUTIONS

Having spent their careers working in insurance technology, our founders sought to create a modern, full suite solution that meets the complex business needs of insurers while requiring minimum customization and offering maximum configuration. Today, Sunlight Enterprise, the flagship offering of Sunlight Solutions, is delivering on that vision with tier one clients in both the US and Europe.

Sunlight can accommodate all commercial and personal lines for both the admitted and surplus markets. With a unique blend of industry experience and technology expertise we are able to support aggressive timelines while iterating with our agile approach.

Eliminate reliance on multiple vendors and cobbled together legacy systems. Our end-to-end platform allows producers, underwriters, and claims professionals to conduct business seamlessly through a single integrated application. With Sunlight's configuration capabilities your firm can own its roadmap and adapt to changing business requirements without the cost or time associated with new development

Modern Technology

Sunlight is built on the latest Microsoft .NET technologies and hosted on the Azure cloud. Our best in industry delivery model keeps your system current and your resources free.

Full Suite Capabilities

Our end to end solution offers functionality across policy administration, billing, claims, CRM, producer management, forms, reporting, agent and consumer portals, and more.

Extensive Configuration

Get to market quickly and own your own roadmap. From our powerful ratings and rules engine to UI forms and fields, Sunlight was built to be configured by business analysts without the need for IT resources.

Global Presence

Carriers in the US and Europe are in production with Sunlight today. We have clients writing in all 50 states and our application can support the business requirements of international firms.

"We had an aggressive timeline with a goal of being in production in under six months, and I'm pleased to see that Sunlight Solutions has been able to deliver with its Sunlight Enterprise. Sunlight's high degree of configuration, coupled with holistic and robust policy issuance, rating, billing, claims, and producer management functions, make for an attractive offering when speed to market is critical."
