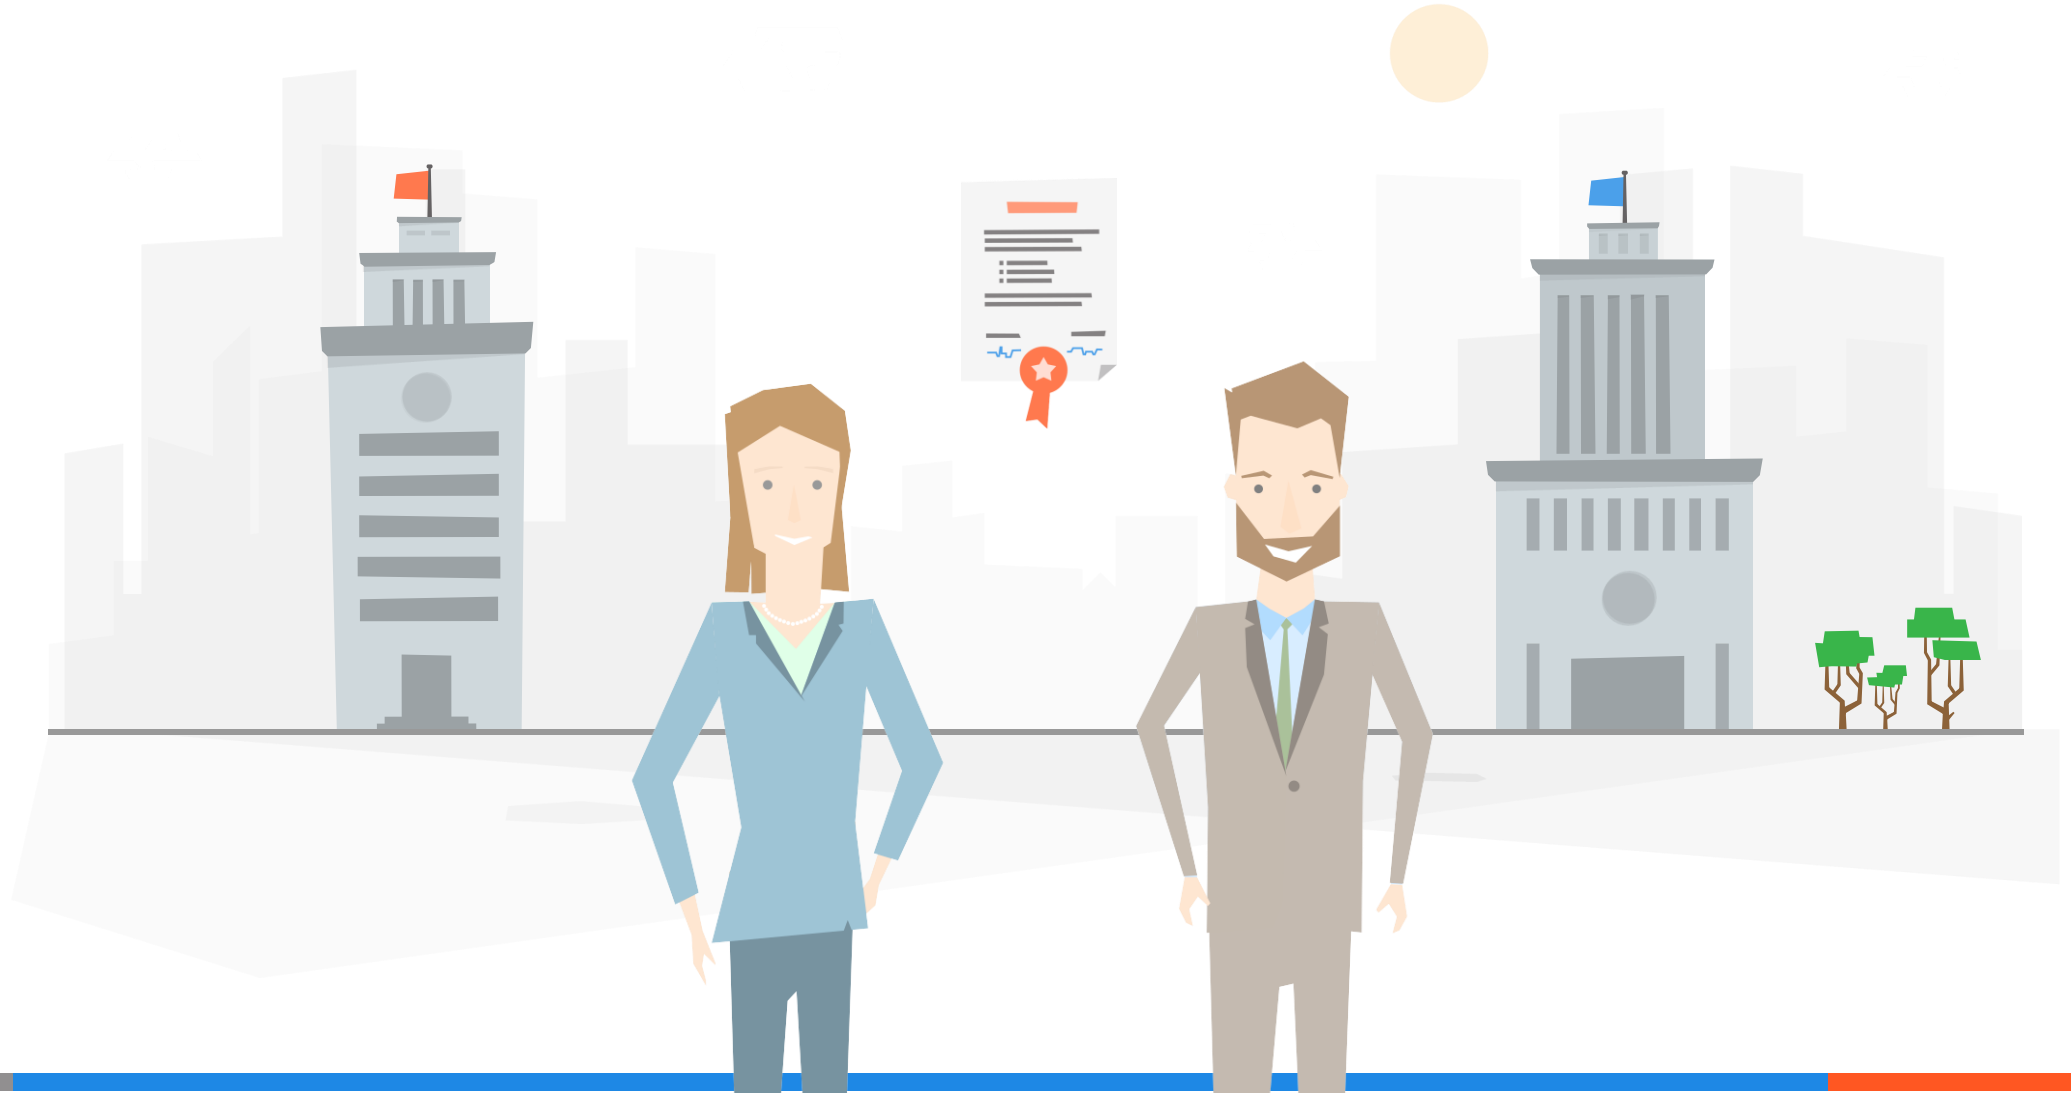
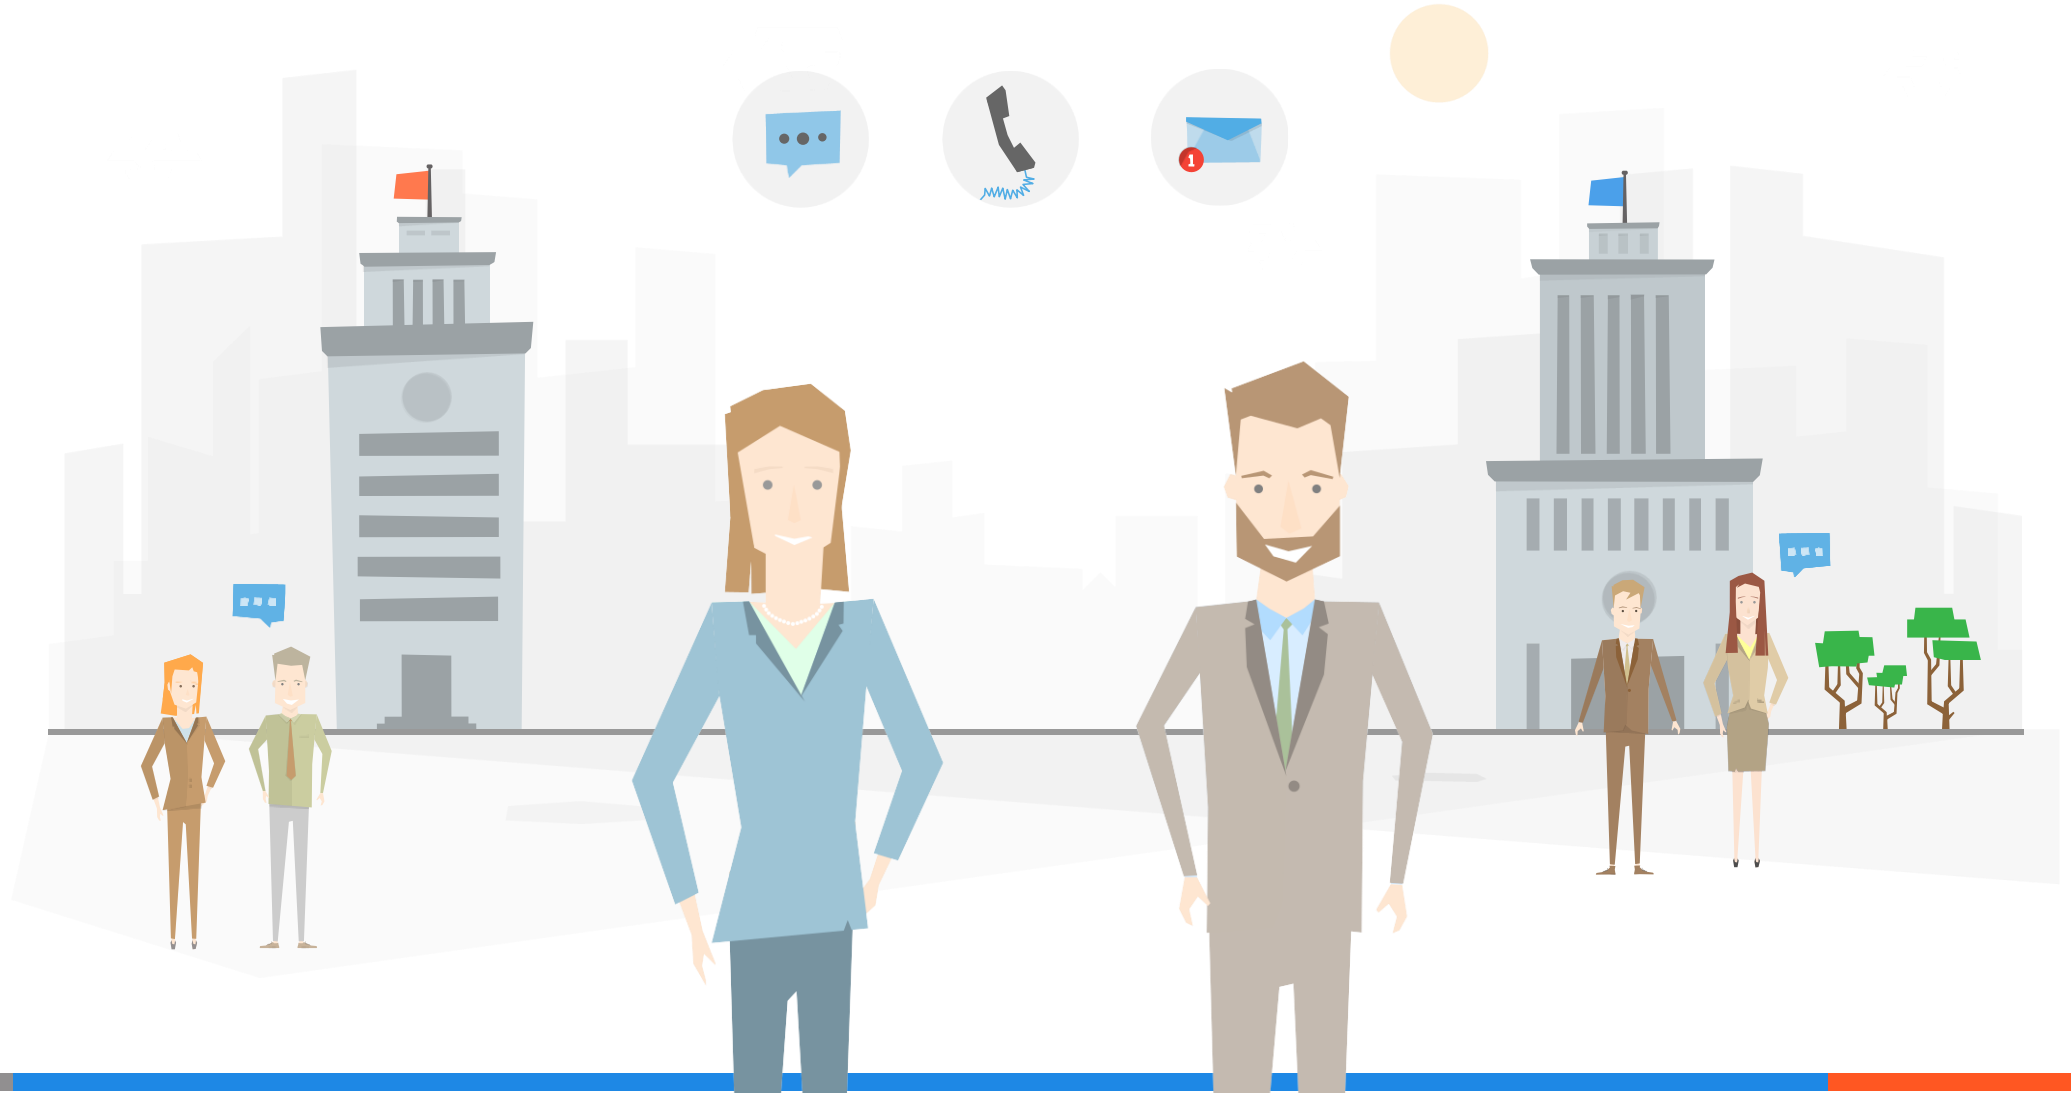
FederatedDirectory
open contacts

A cross-company contact directory

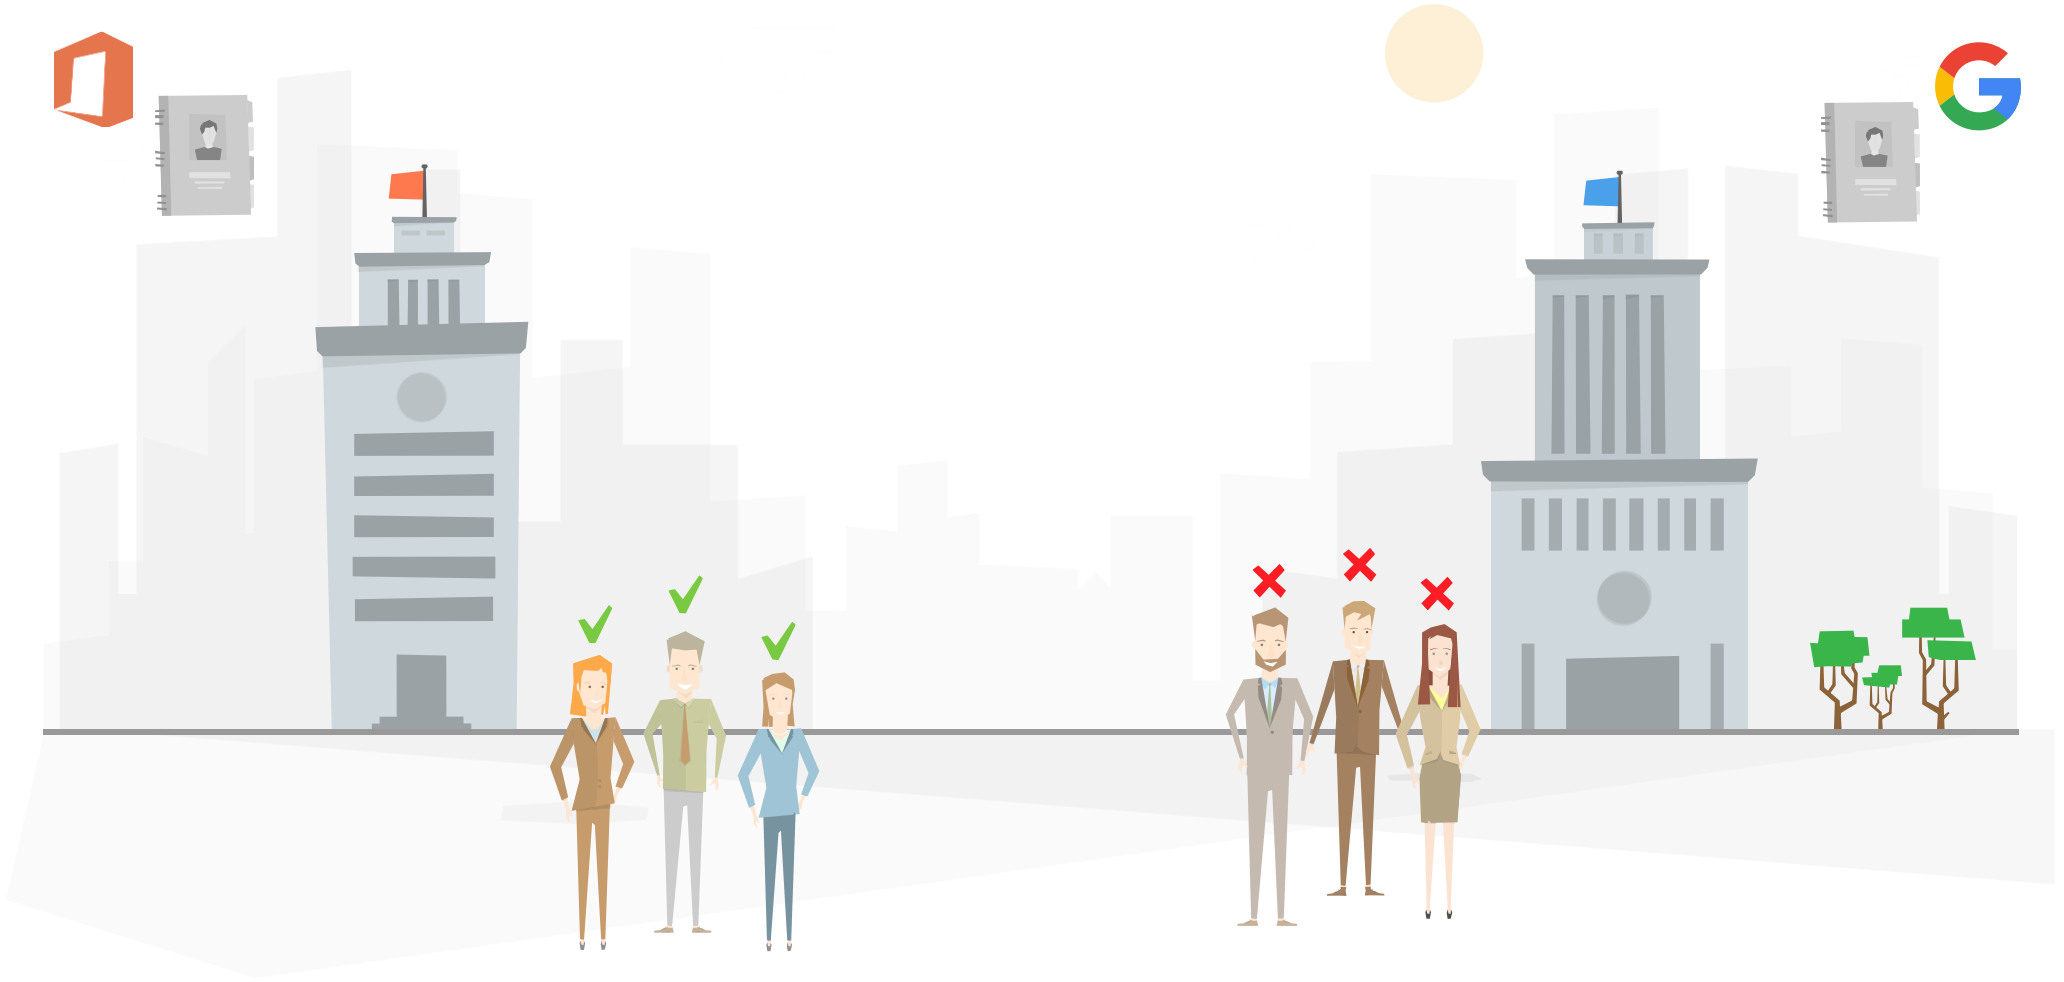
Collaboration between companies is the key to success



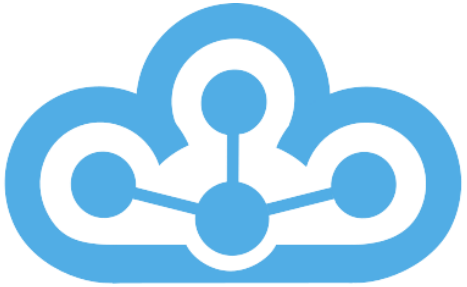
It starts with the ability to easily find and contact each other



This is often harder than it should be



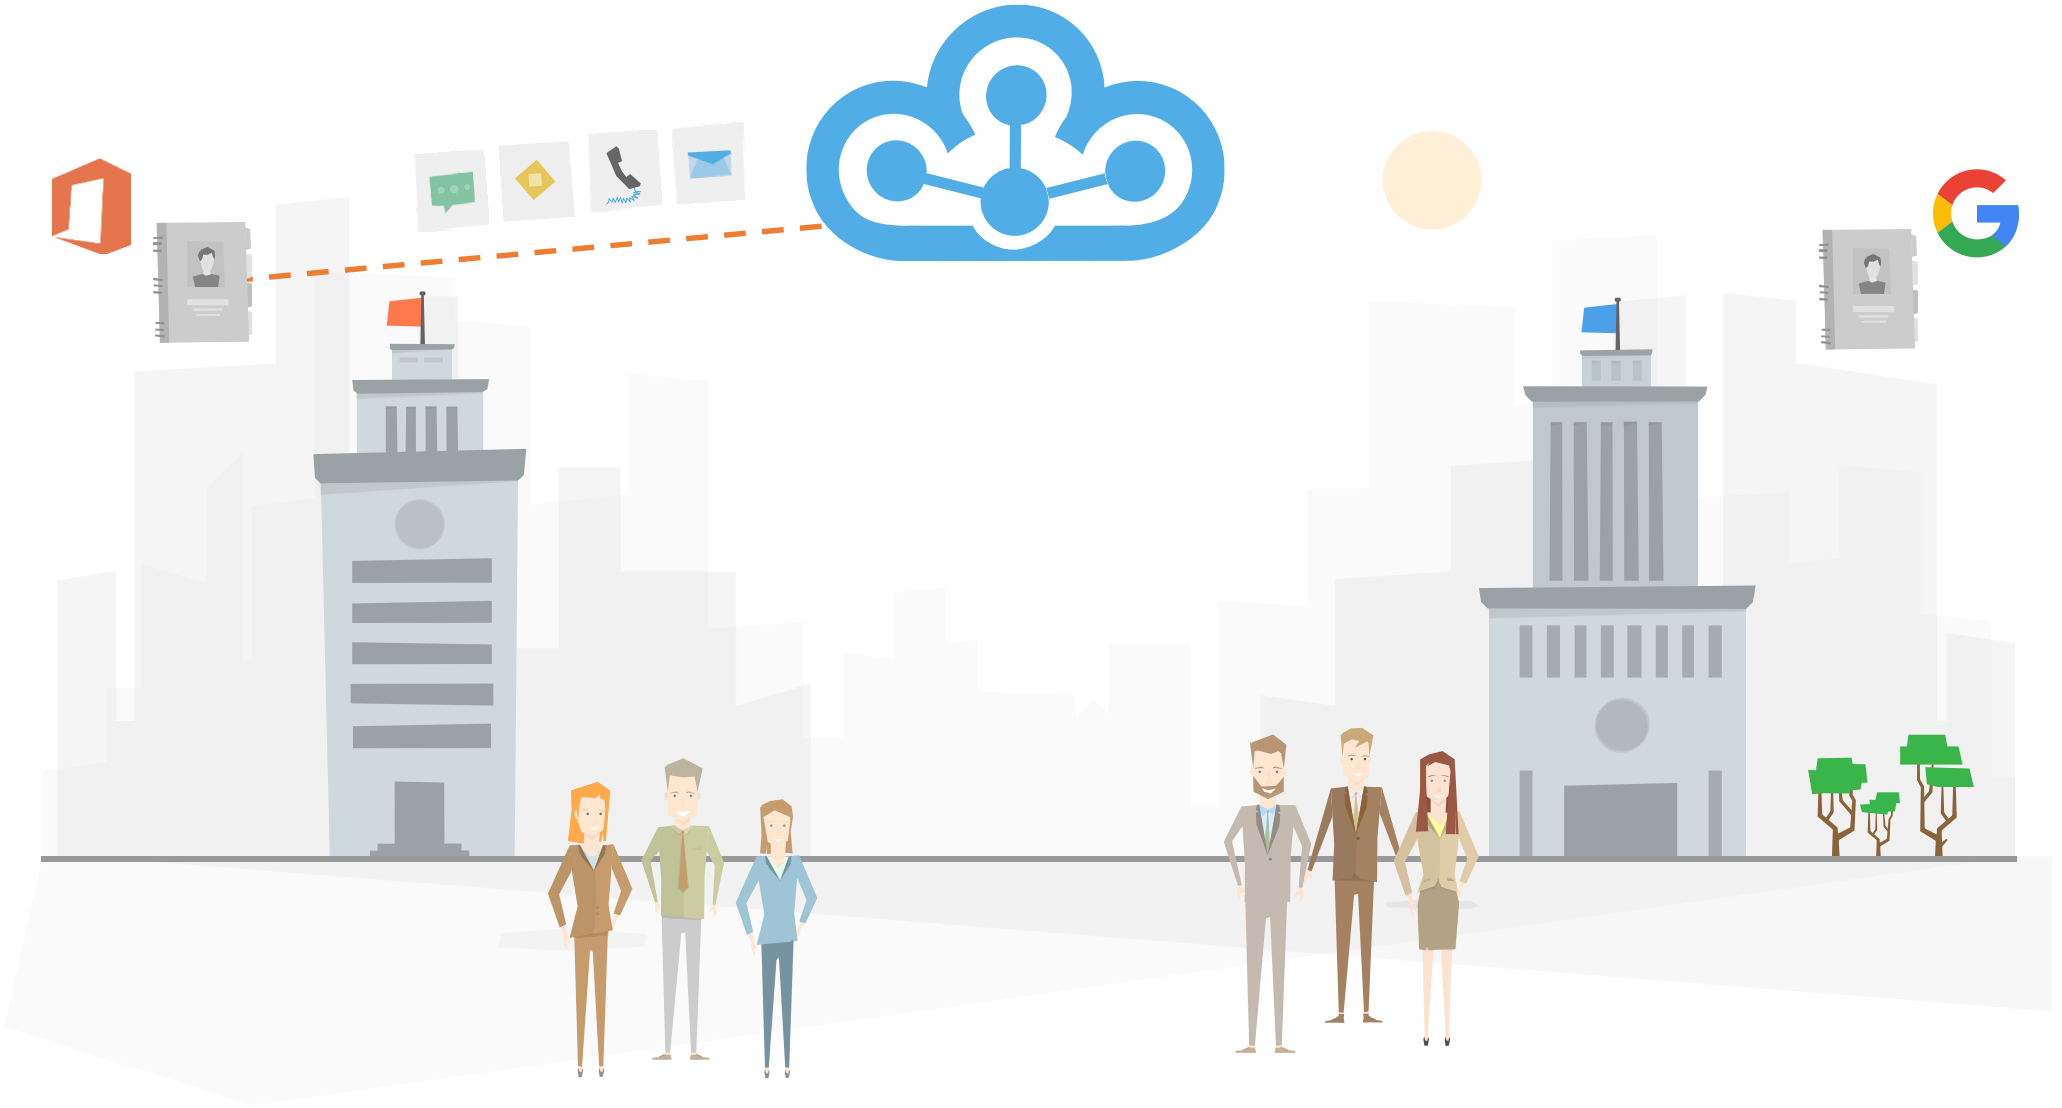
Introducing



FederatedDirectory

open contacts

Step 1: Connect your current corporate address book



Step 2: Federate with other companies

Step 3. Search your Federated Directory

To make this possible, we partnered with the best

Partner

Google Cloud

Microsoft Partner

okta

onelogin

We are always looking for more integration partners
