ABOUT THEMIS RM

THEMIS RM is a federated records management program that helps your organization manage records in-place wherever they reside.

- ▶ THEMIS RM allows your organization to create custom file plans with retention rules and triggers that match your internal policies or industry standards as required.
- ▶ THEMIS RM allows users to automate record declaration and file classification rules using machine learning and artificial intelligence.
- ▶ THEMIS RM allows users to easily add legal holds to records and cases in the case of legal action or an audit.
- ▶ THEMIS RM allows users to create custom disposition workflows to properly dispose records when their retention period ends.

THE PERFECT BALANCE

THEMIS RM uses AI to ensure organizational standards for information and records management are met.
