

# Meeting notes that drive teamwork

Drive customer success across the business

Connect cross-functional teams

Close the loop between insight and action

“ When Atlassian teams use Hugo, they are more connected to each other and their customers ”

[www.hugo.team](http://www.hugo.team)

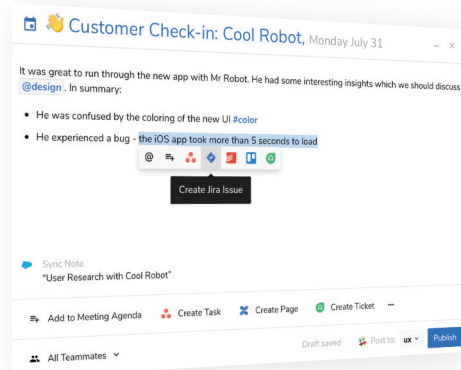

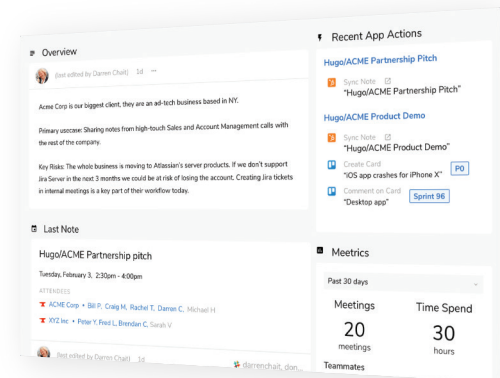

# Meeting note software for modern teams

## Centralize meeting knowledge

One place to store all of your team's meeting knowledge so that nothing falls through the cracks.

Everyone is on the same page and can push meeting insights to the right people, in the tools they need.

- ✓ Notes stored against meeting attendees
- ✓ Automated meeting preparation
- ✓ One place for all meeting notes
- ✓ Data on how your team spends their time

## Turn insight into action

Create Engineering tickets in Jira, Marketing tasks in Asana or Sales updates in Salesforce, directly from your Hugo notes.

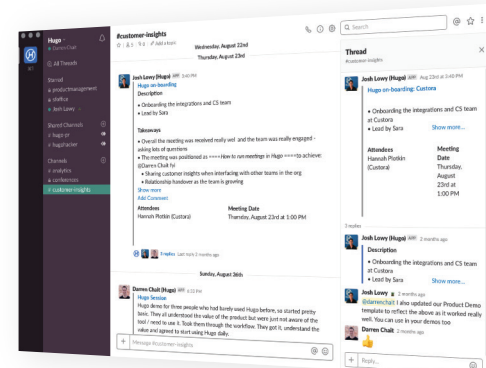

Close the gap between insight and action, and turn your notes into work for other teams.

## Update those who weren't in the room

Keep everyone on the same page, without them having to be in the room.

Post important notes to your team in Slack, or mention someone in a snippet to bring them up to speed. Hugo's connected notes means customer-centricity for the whole business.

# Bring your software stack into every meeting
