

LOKAD

Quantitative Supply Chain

Your Supply Chain Decisions

Every day, thousands of **inventory decisions** need to be made at several stages of your supply chain.
Even doing nothing is a decision. **Which ones make sense?**

Lokad Optimizations

We deliver your next decisions for:

Commerce Activities

Purchases
Dispatches
Dynamic Price Engineering

Manufacturing & Industry

Raw Material Purchases
Manufacturing Scheduling
Multi-echelon Dispatches

Maintenance Activities

Parts Investments
Parts Divestments
Inventory allocations

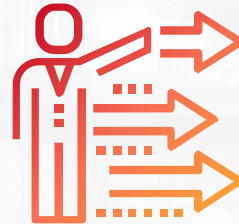

Quantitative Supply Chain - a new approach

**All possible futures
must be considered.
A probability for
each possibility**

**All feasible decisions
must be considered.
Possibilities vs
Probabilities**

**Economic drivers must
be used to prioritize
feasible decisions**

**Being in control
requires automation
of every mundane
task**

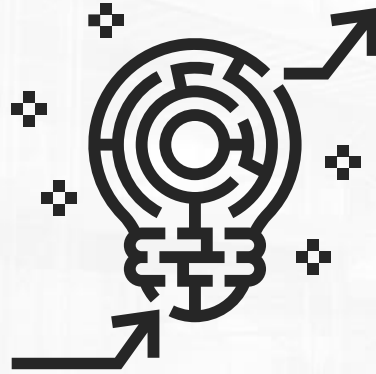

**A Supply Chain
Scientist must
take ownership of
the numerical
results**

Software as a Service

A software

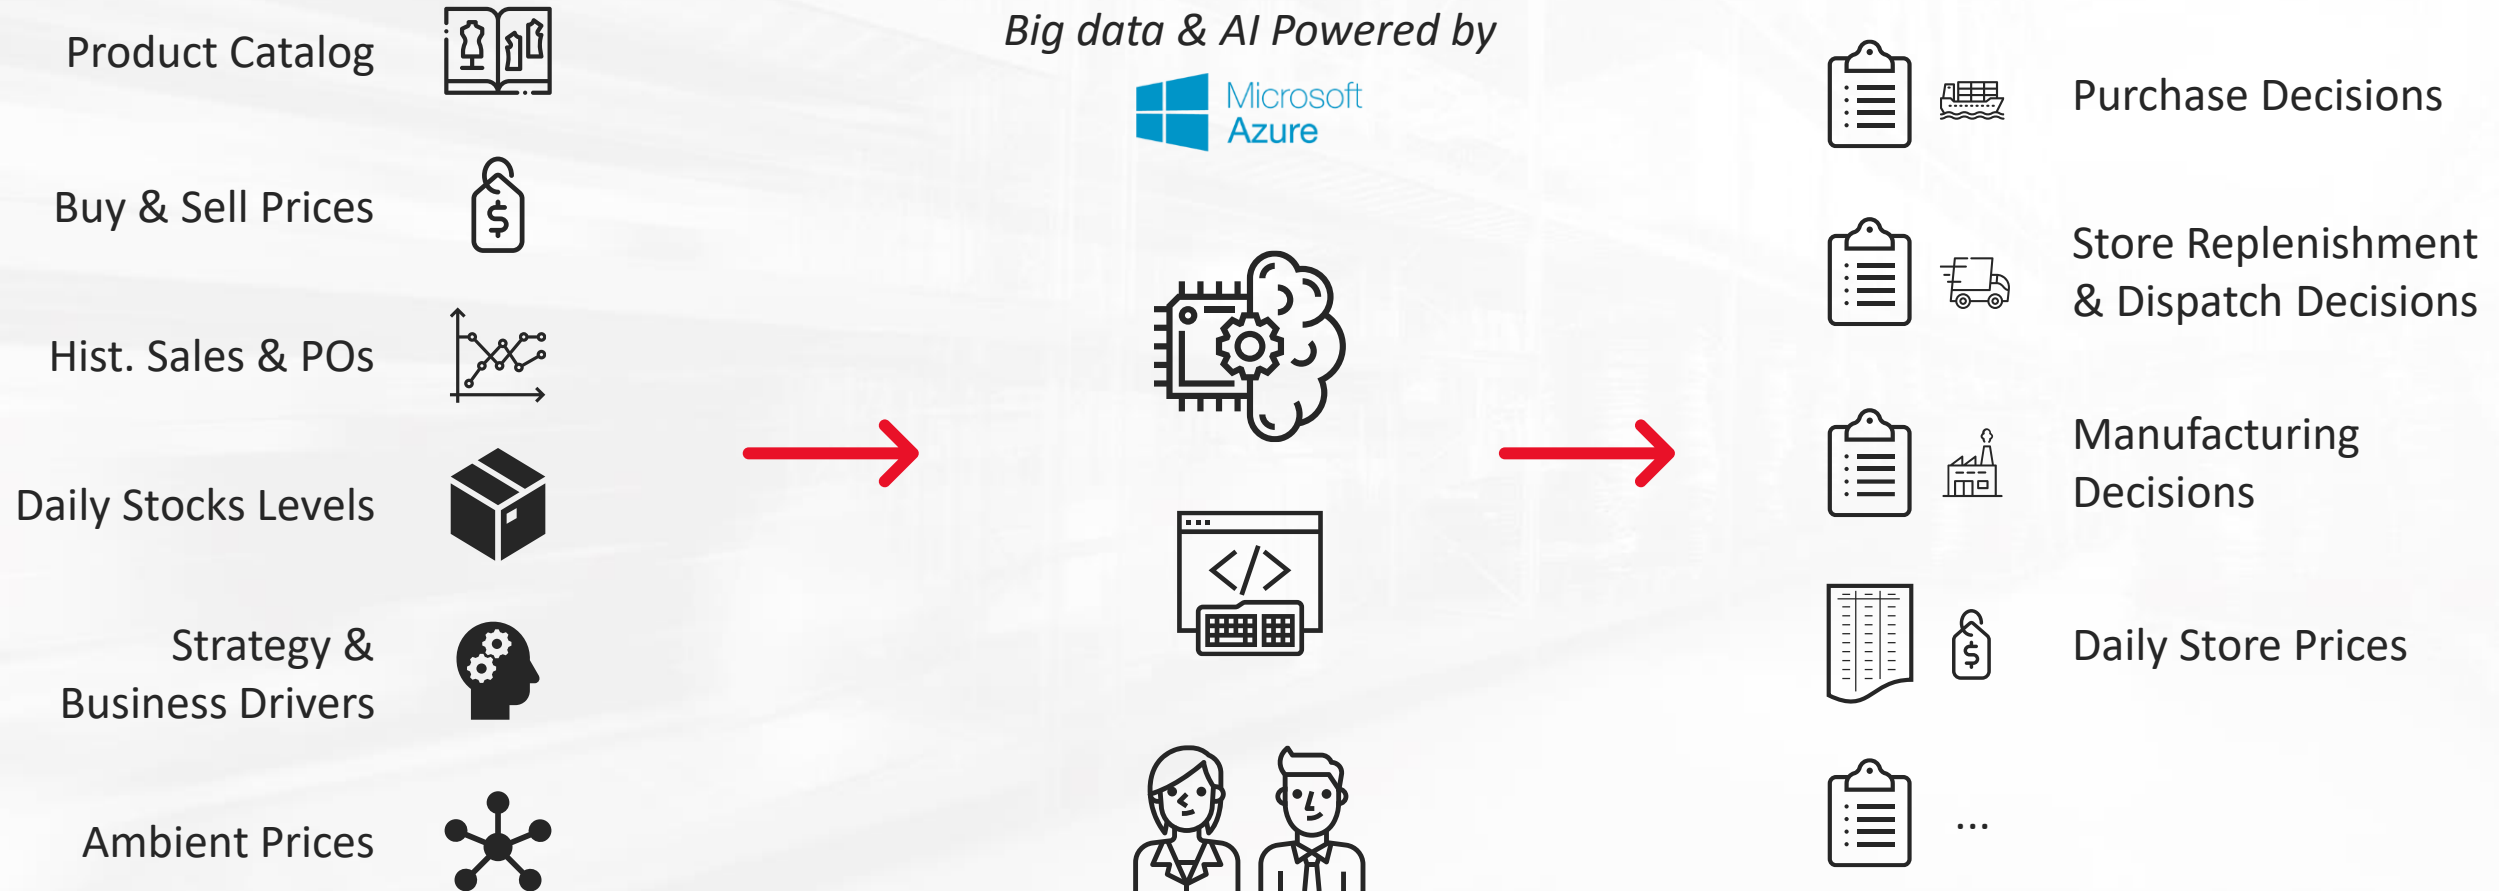

A vision

A service

The Ingredients

Dedicated Lokad Supply Chain Scientists
Agile setup through simplified programmatic UI
Support & modification included

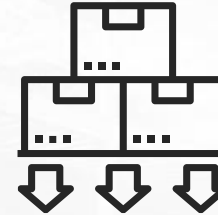

Your ROI
