Discover a new way to work with Office 365. It's simple.

POWELL MANAGER

POWELL 365

Powell Manager

Powell Manager enables IT departments to design and deploy SharePoint templates and structures without coding. Use Powell Manager to build any kind of communication and collaborative workplace solution.

Powell Manager enables to manage, maintain and update your SharePoint and Groups environments in a streamlined and automated way.

Powell 365

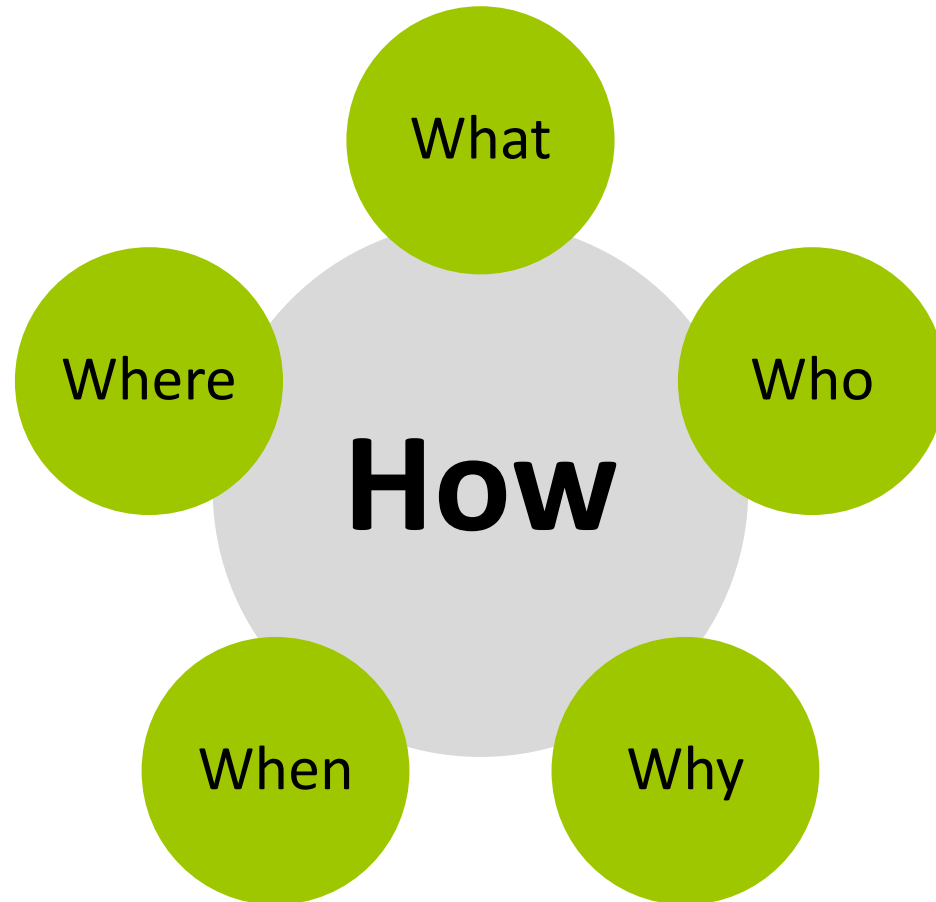

Powell 365 is a ready-made and configurable digital workplace that is built on top of the Microsoft Office 365 collaborative suite. Powell 365 delivers all the information and features users need to work more efficiently.

Powell 365 offers a compelling and personalized user experience along with a full set of features that increases user engagement and Office 365 adoption.

MORE THAN
AN INTRANET-IN-A-BOX
THIS IS ALSO THE TOOL
TO BUILD YOUR
DIGITAL
WORKPLACE
WITH YOUR SPECIFICITIES
& THE CAPACITY
TO EVOLVE IT
OVER TIME

Implementation Approach

Without Powell

With Powell

Powell 365 features

Design, Deploy, Collaborate
It's simple

Branding

Implement your brand by configuring styles

- Implement your own themes
- Apply global styles and logos
- Customize the page structure and the presentation of content
- Implement unique headers and footers
- Keep it simple and configure with NO CODE configurations
- Advanced look and feel options for those unique requirements

Personalization

Personalize the Digital Experience

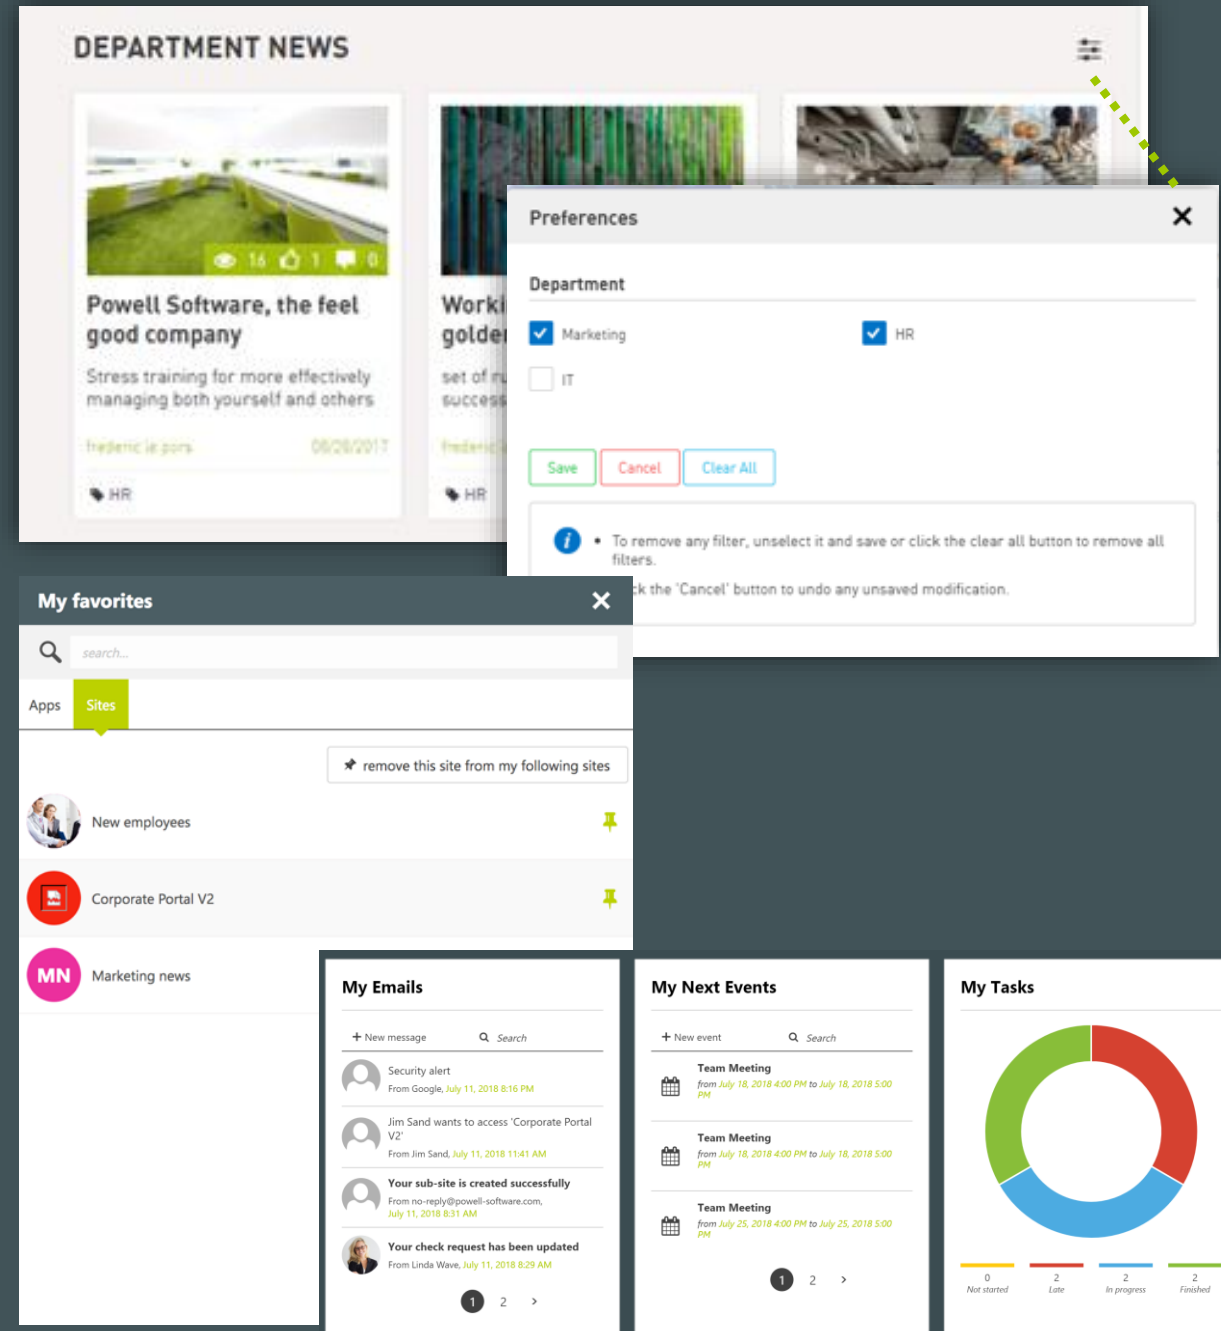

- Based on personas and authorization rights

Enable each employee to define:

- Their personal links,
- Search preferences,
- Favorite apps
- Etc...

Bring Employee's personal data upfront

- Employee profile
- My projects/teams
- My Outlook emails
- My social posts
- Etc...

Notifications & Favorites

Activity Notification

Stay up to date and view recent activity

Email Notifications

Subscribe to email notifications when content is created or changed

Push Notification

Push notifications to mobile phones

Follow & Favorite

Track, bookmark and favorite content, users and sites

The screenshot displays the Powell 365 mobile application interface. At the top, there's a navigation bar with 'HOME', 'MY BOARD', 'DEPARTMENTS', 'COMMUNITIES', and 'TOOLS'. Below this, the main content area shows a 'Media Kit' section with a video player and a 'My favorites' overlay. A 'Recent Activities' list is visible on the right, showing various updates and messages. The interface is clean and modern, with a focus on user engagement and content discovery.

Navigation

Implement the best of SharePoint Online and Powell 365 to provide an intuitive and powerful Navigation story

- Configure our enhanced Global Mega Menu
- Manage Left/Current Navigation
- Use SharePoint Breadcrumbs
- Manage custom footer navigation

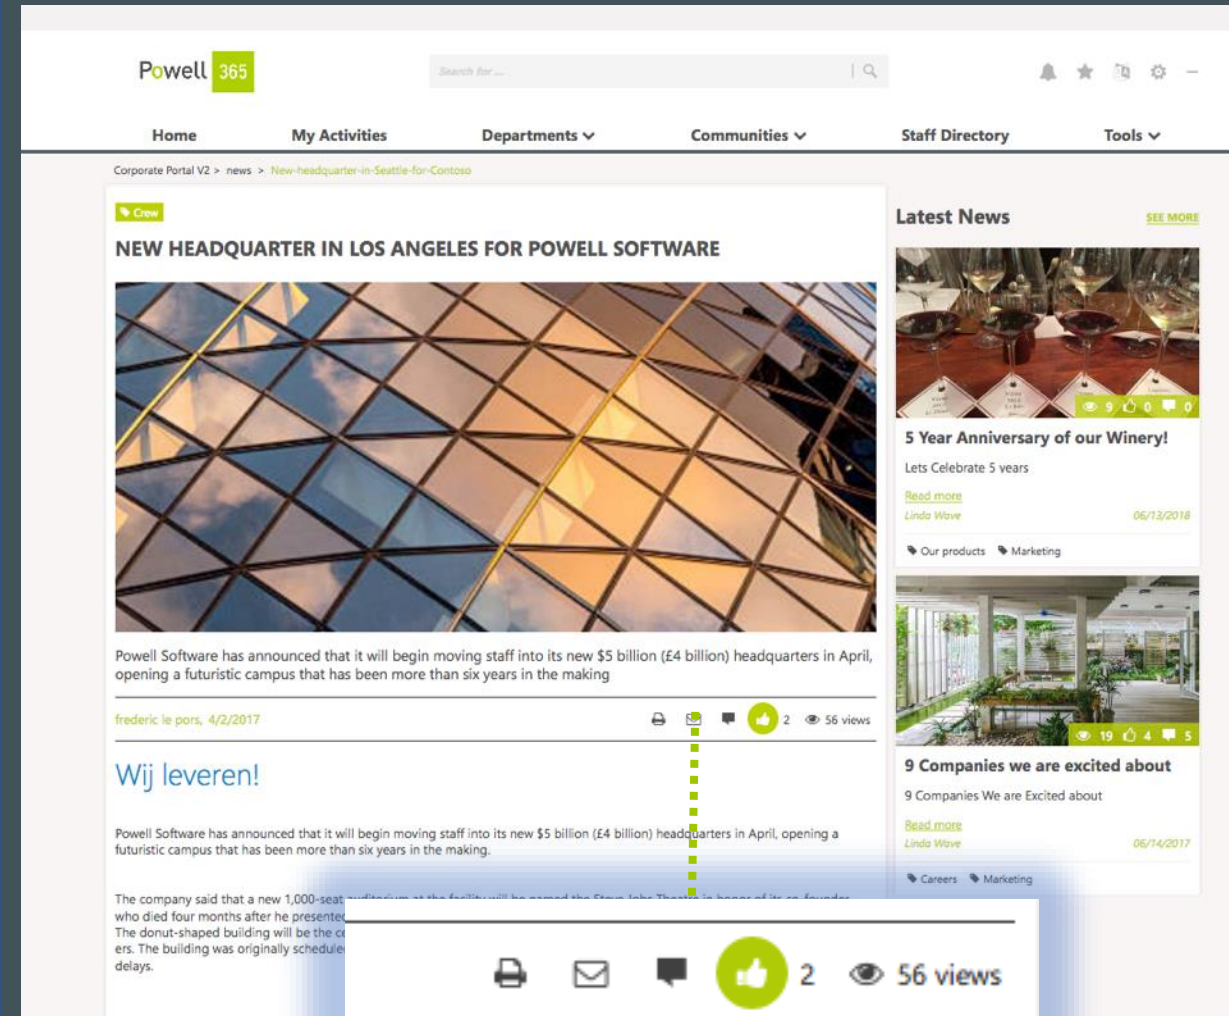

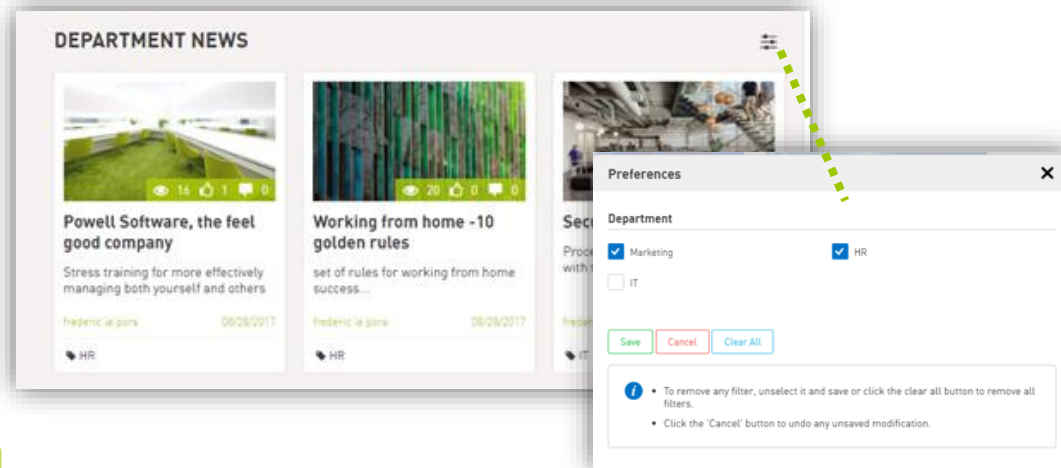

Company News

Comprehensive set of functionalities to communicate company news

Create articles to communicate news within the organization.

- Use tags to categorize news
- Feature news on targeted areas
- Easily share your news
- Implement rich content styles, images, and videos
- Personalize by setting preferences

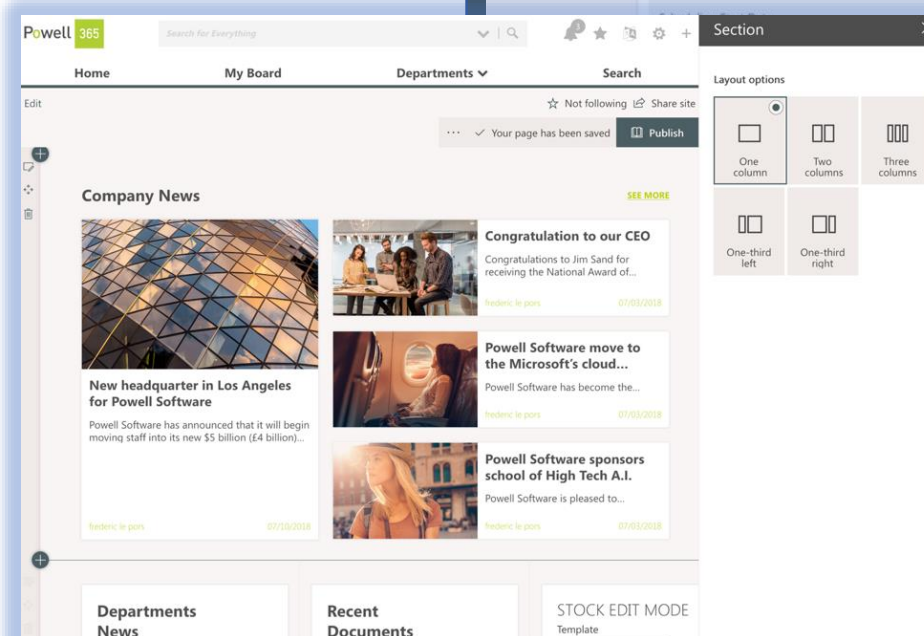

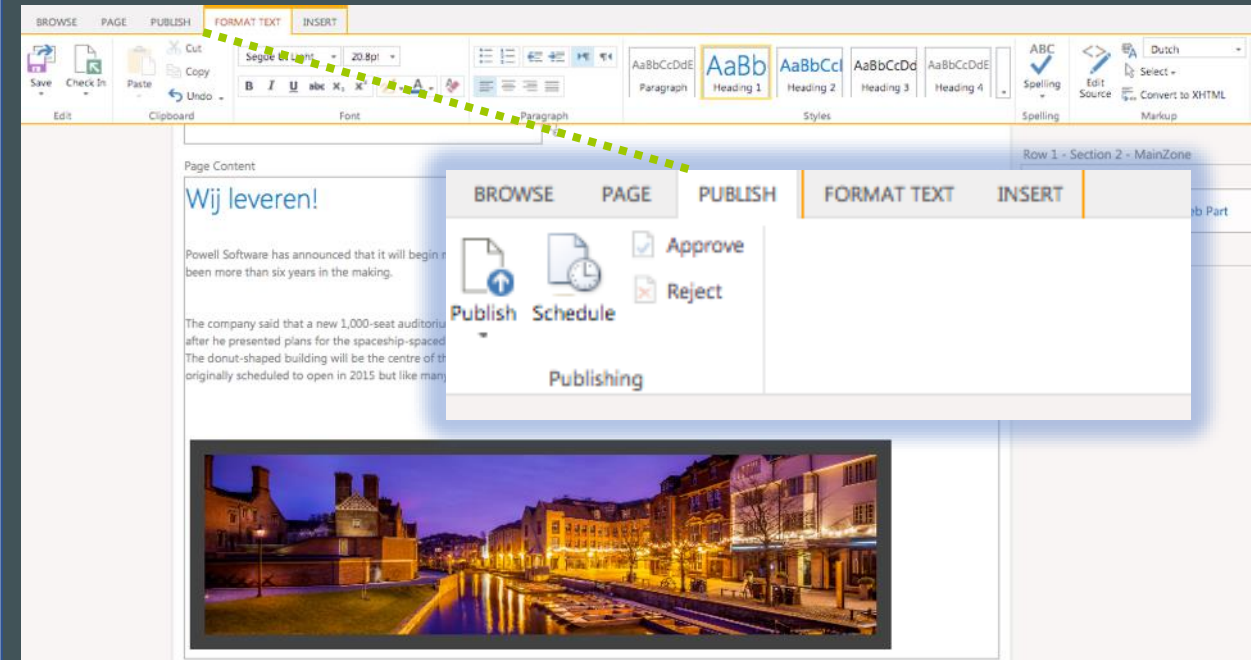

Company News

Leverage the best of SharePoint Online or SharePoint On-Premise to collaborate, manage and govern.

Activate SharePoint features to:

- Check in/out, create drafts to preview content
- Office Ribbon for advanced styles
- Track Versions and history
- Publish & Content Approval
- Content Scheduling
- Modern Experience Editing

Company News

Simplify the creation and management of content by using the Powell365 Gear.

- Govern content creation by enabling what content can be created and where.
- Implement SharePoint Online Modern User Experience !
- Take the guess work out, make it simple for content authors to create content

The screenshot displays the Powell365 Gear interface, a content management system. At the top, there's a search bar and a 'Manage content' button. Below this, a 'Departments' dropdown menu is visible. The main area is divided into two sections: 'News' and 'Documents'. The 'News' section shows a table of news items with columns for title, site, date, status, and version. The 'Documents' section shows a table of documents with columns for title, site, date, status, and version. A 'Create a new page : News' modal is open, allowing users to create new content. The modal includes fields for 'Category', 'Department', and 'Page Content'. It also has sections for 'Scheduling Start Date', 'Scheduling End Date', 'Yammer Group ID', 'Show on main homepage', 'Disable likes', and 'Disable comments'. At the bottom of the modal are 'Publish', 'Save', and 'Cancel' buttons. A sidebar on the right contains a 'Shortcuts' section with links to 'Mobile configuration', 'Edit page', 'Site Content', 'Site Permissions', 'Site Settings', 'Site Usage', 'Site Properties', 'My contributions', and 'Quick page editing'. Below this is an 'Add content' section with a 'News' link. A green dashed line connects the 'Add content' section to the 'News' table in the main area.

Media

Communicate and publicize videos and play them directly from the intranet!

Powell 365 provides powerful connectors to Office 365 Video, Office Stream, YouTube and Vimeo

- Play Videos directly from the intranet
- Comment and share via the power of Yammer!
- Connect to YouTube, Vimeo & Office Stream

Events

Powell 365 enables to share events and visualize them in various formats

Leverage SharePoint calendars to store events

- Create events in SharePoint calendars
- Connect SharePoint calendars to Outlook
- Connect multiple calendars and color code events
- Display and create Outlook events

The screenshot displays the Powell 365 web application interface. At the top, there's a navigation bar with 'Powell 365' logo, a search bar, and links for HOME, MY BOARD, DEPARTMENTS, COMMUNITIES, and TOOLS. Below this, a secondary navigation bar includes Home, My Activities, Departments, Communities, Staff Directory, and Tools. The main content area is divided into sections. On the left, under 'My portal', there's a 'Corporate Portal V2' widget showing a monthly calendar for 2018. To its right, a larger 'Events' widget displays a calendar for July 2018. Below these, there's a 'Classified advertisements' section. In the foreground, two event detail cards are shown. The first card, titled 'Events', lists three events: 'Annual General Meeting' (12/13/2018, 9:00 AM to 10:00 AM, Paris - CNIT), 'Powell Convention' (12/03/2018, 11:00 PM to 1:00 PM, Maracana stadium), and 'Prescient Webinar' (04/10/2018, 11:00 AM to 10:55 PM, Cyberspace). The second card, titled 'My Next Events', lists three 'Team Meeting' events, all occurring on July 18, 2018, from 7:00 PM to 8:00 PM. A pagination bar at the bottom of this card shows '1', '2', and a right arrow.

Search Features

Search Center

- Based on SharePoint Search
- Integrated with Delve
- Advanced search and filter to refine results
- Customizable design

Content Targeting

- Search by User information
- Search only what you have access
- Search by Keywords, Geo, Departments, Content Type

Employee Directory

Powell 365 Employee Directory will help you find expertise or colleague information

Find others by searching by name, refining results by expertise, job title, etc.

- Explore the Employee profile stored in Microsoft Active Directory, SharePoint or Delve
- Refine by Department, Job Title, etc.
- View Org Chart
- Explore latest documents

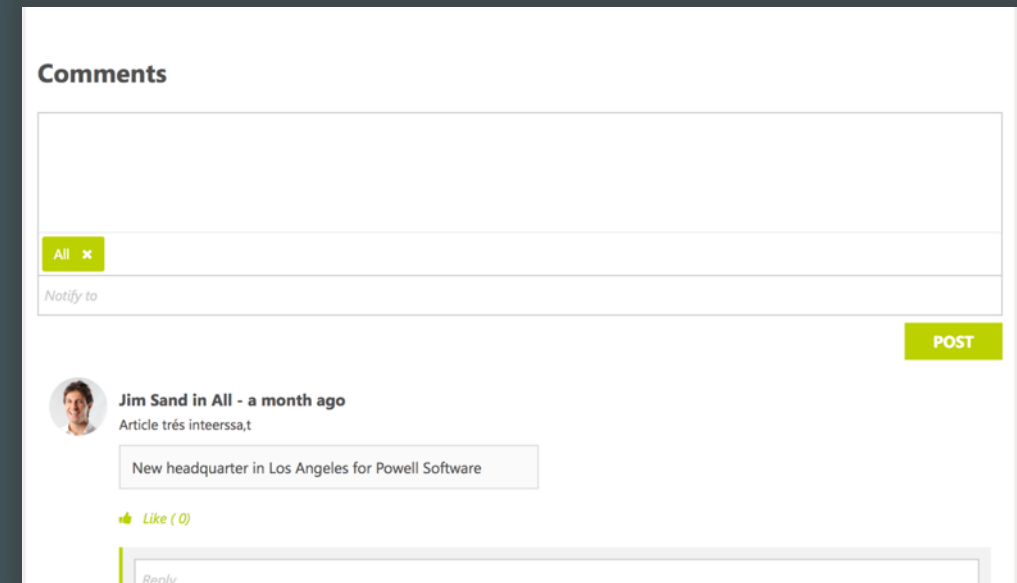

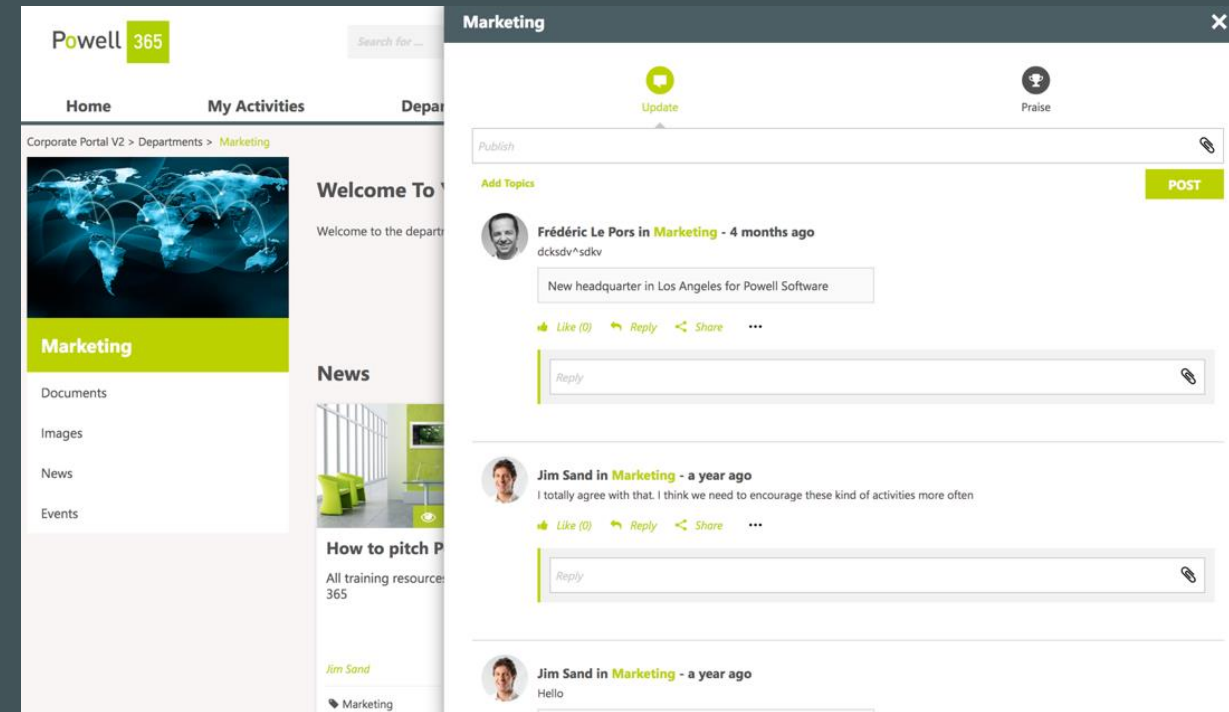

The screenshot displays the Powell 365 Employee Directory interface. On the left, there are filters for DEPARTMENT (IT (5), Marketing (3), Executive management (2)), JOB TITLE (CEO (2), Marketing Manager (2), Product Manager (2), Brand Manager (1), CTO (1), Show More), OFFICE (Tokyo (2), Ushuaia (2), New-York (1), Paris (1)), and KEYWORDS (Private Equity (2), AngulasJS (1)). The main area shows a grid of employee profiles, including JIM SAND (Project Manager) and BAPTISTE CHAMPLAN (Product Manager). A detailed profile for JIM SAND is shown on the right, including contact information (Phone: 443632-343-3445, Mobile: 0987654321, Email: jsand@powell-365.com), location (Ushuaia), skills (.NET, AngulasJS, HTML), and a bio (I love building web parts with SPFx). The interface also shows a list of last documents (IntellectualProperty-Documents, ESSAI BIDON, IntellectualProperty-Table, Business value, Love retail store shift) and an organization chart (Powell Admin CTO, Jim Sand Project Manager).

Discussion & Social

Powell 365 Integrates Enterprise social Networks like Yammer into a seamless experience.

Comment on news, blogs, communities & support

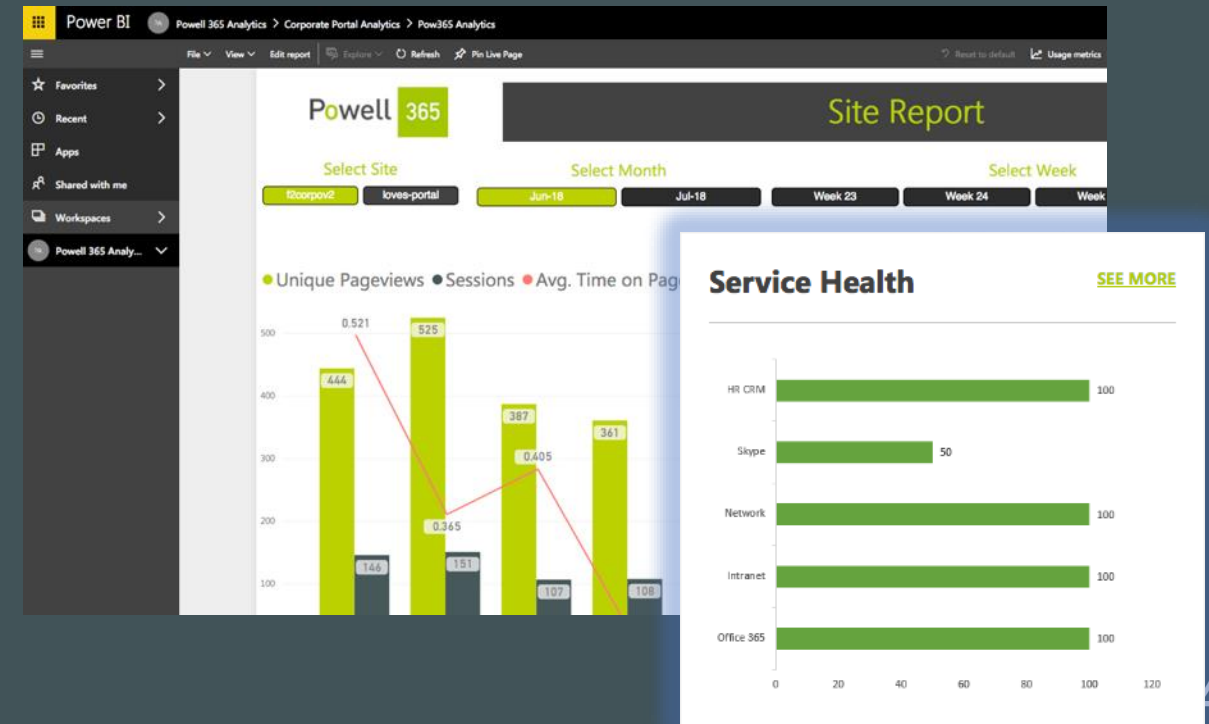

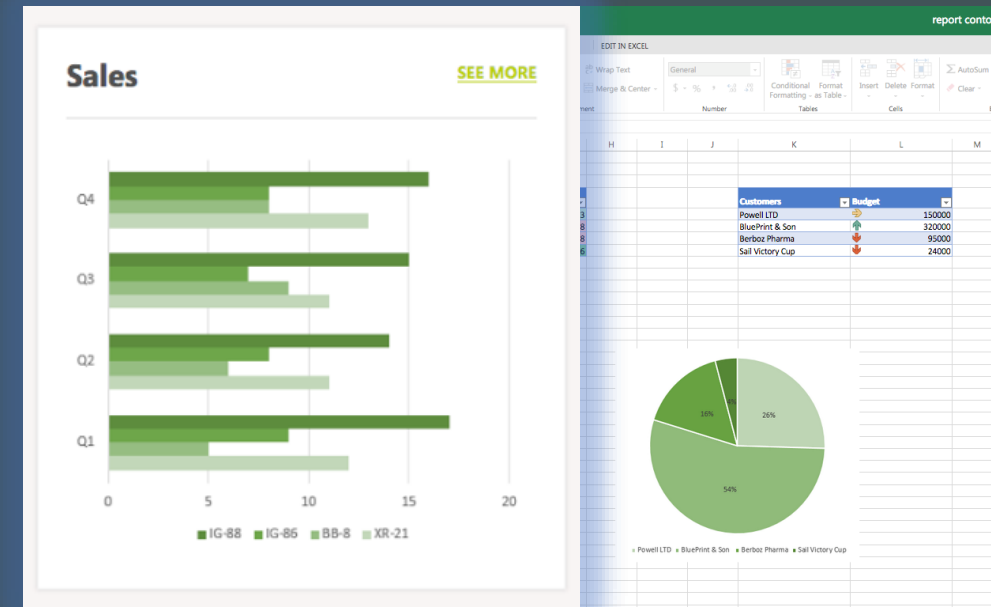

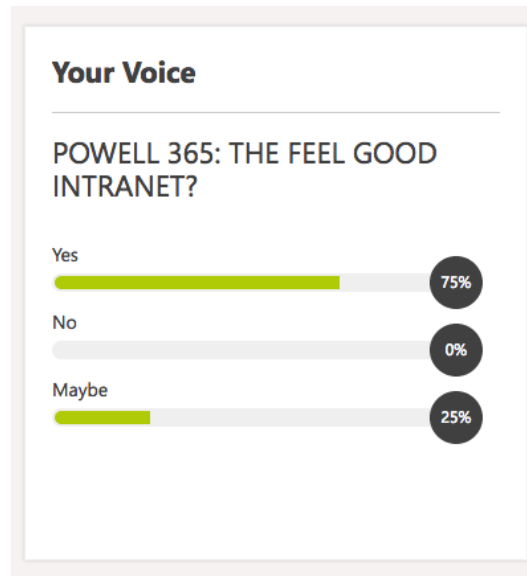

- News, Video Comments
- Department Social Collaboration
- Community Social Collaboration
- IT Support
- Team Discussions

Surveys & Reporting

Powell 365 enables Polling and Dashboard capabilities

- Leverage Excel Services to build reports easily and quickly
- Connect to Power BI to build powerful dashboards
- Use Polling Widget to collect and communicate feedback, ideas, etc.

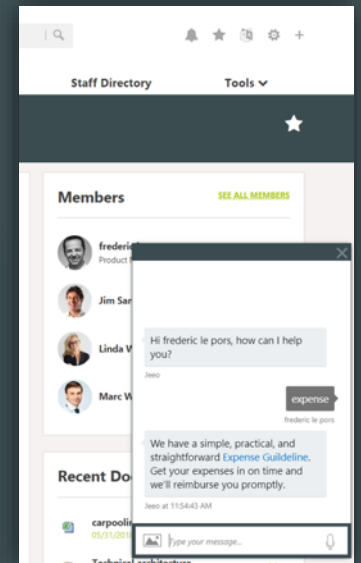

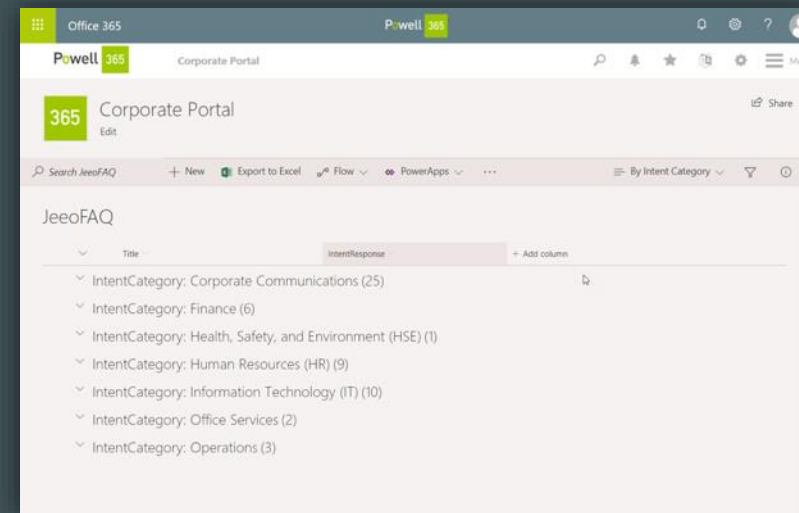

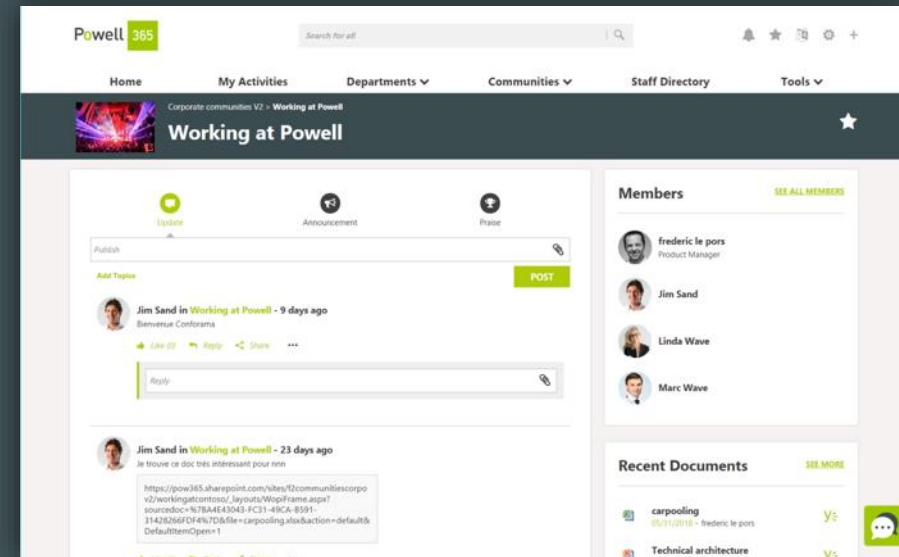

Chat Bots support

Complete integration with any Chat Bot solution compliant with the SharePoint development standard

Close partnership with **Jepeddo** (www.jepeddo.com) and meet Jeeo, the world's finest Corporate Concierge

- Jeeo and Microsoft AI (LUIS) interpret common user requests (intents) of a Corporate Intranet (eg. Where do I find job postings? How many vacation days do I have left?).
- Jeeo quickly guides users to the right content, anywhere across a Powell-365 environment.
- Business users can easily 'train' Jeeo from within Powell-365.

Analytics

Follow the activities of your employees and track the success and usage of your intranet

Google Analytics & Power BI

Complete integration with Google Analytics.

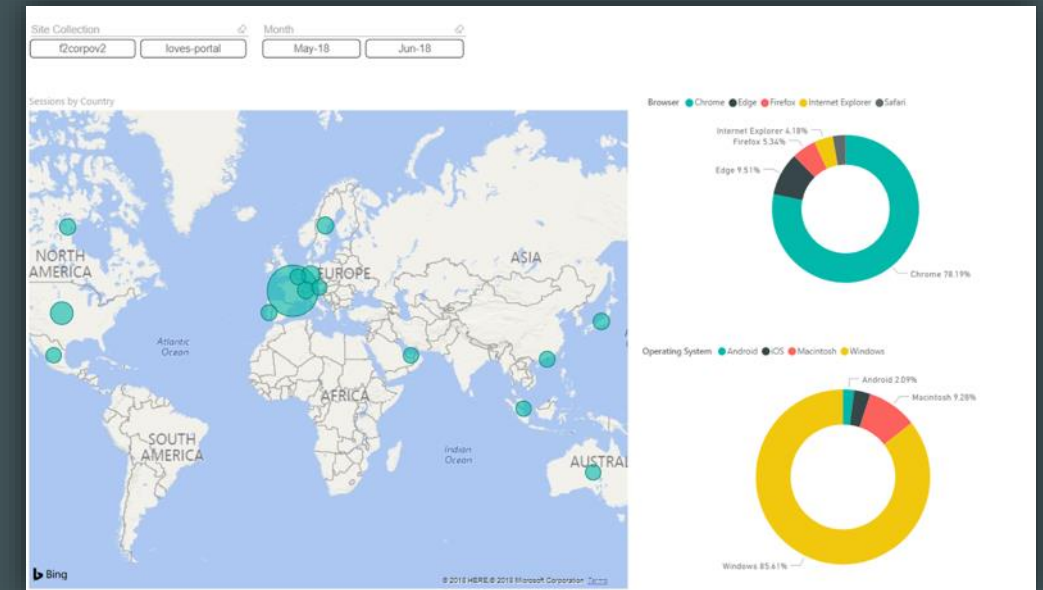

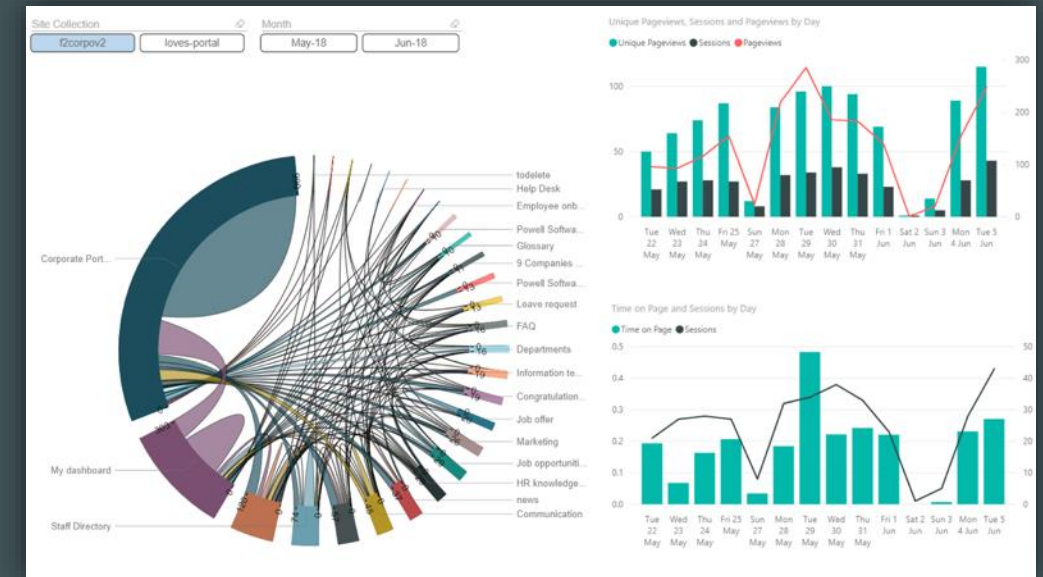

Deliver a complete dashboard into Power BI and leverage the data with additional user profile properties (Office, Job title, unique identifier....)

- Page views
- Location
- Departments
- Jobs Title
- Navigation in the portal
- Browsers & Operating system...

Extend the analysis

Compatible with SharePoint and Office 365 adoption pack usage report

You can also use a 3rd part solution available for SharePoint like Cardilog, Web Trends or Tryane...

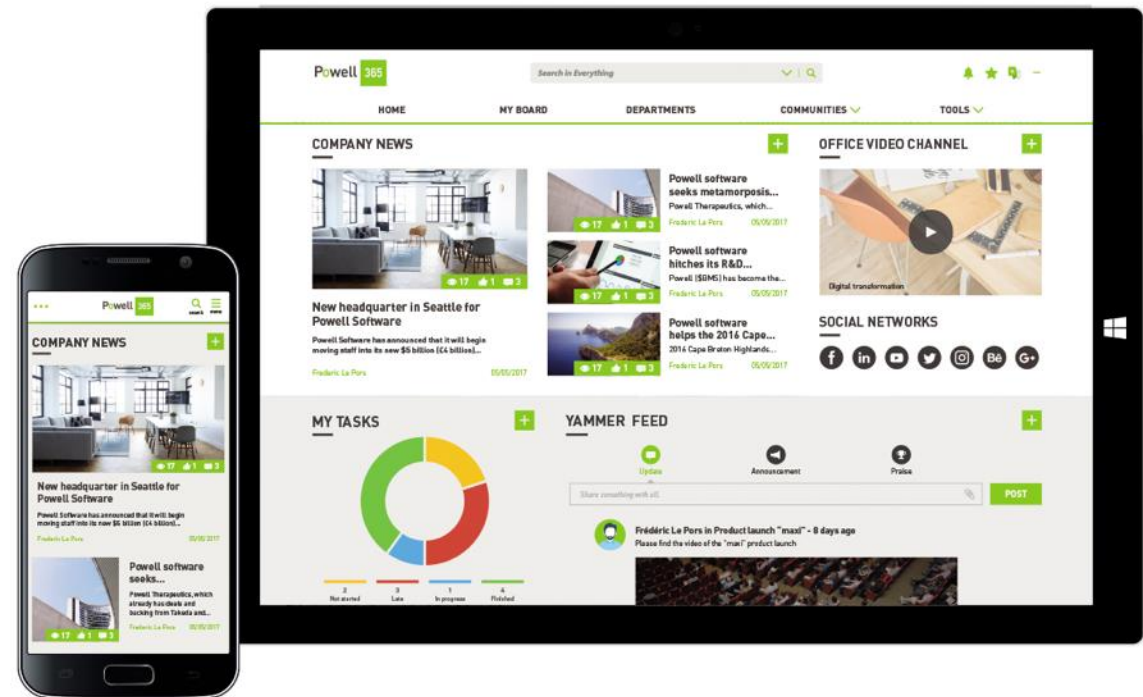

Multi-device

Responsive Design

Natively multi-device and compatible with last generations of browsers: IE11, Edge, Safari, Firefox and Chrome.

Powell 365 App

Native app for Android and iPhone with company specific branding and quick access to main portal functionalities and notifications.

Personal Board

Outlook

Last emails and next events from Outlook Online

Planner

Follow and manage your tasks in Planner

Delve

Access your last documents and discover popular documents based on the Graph API

Groups & Teams

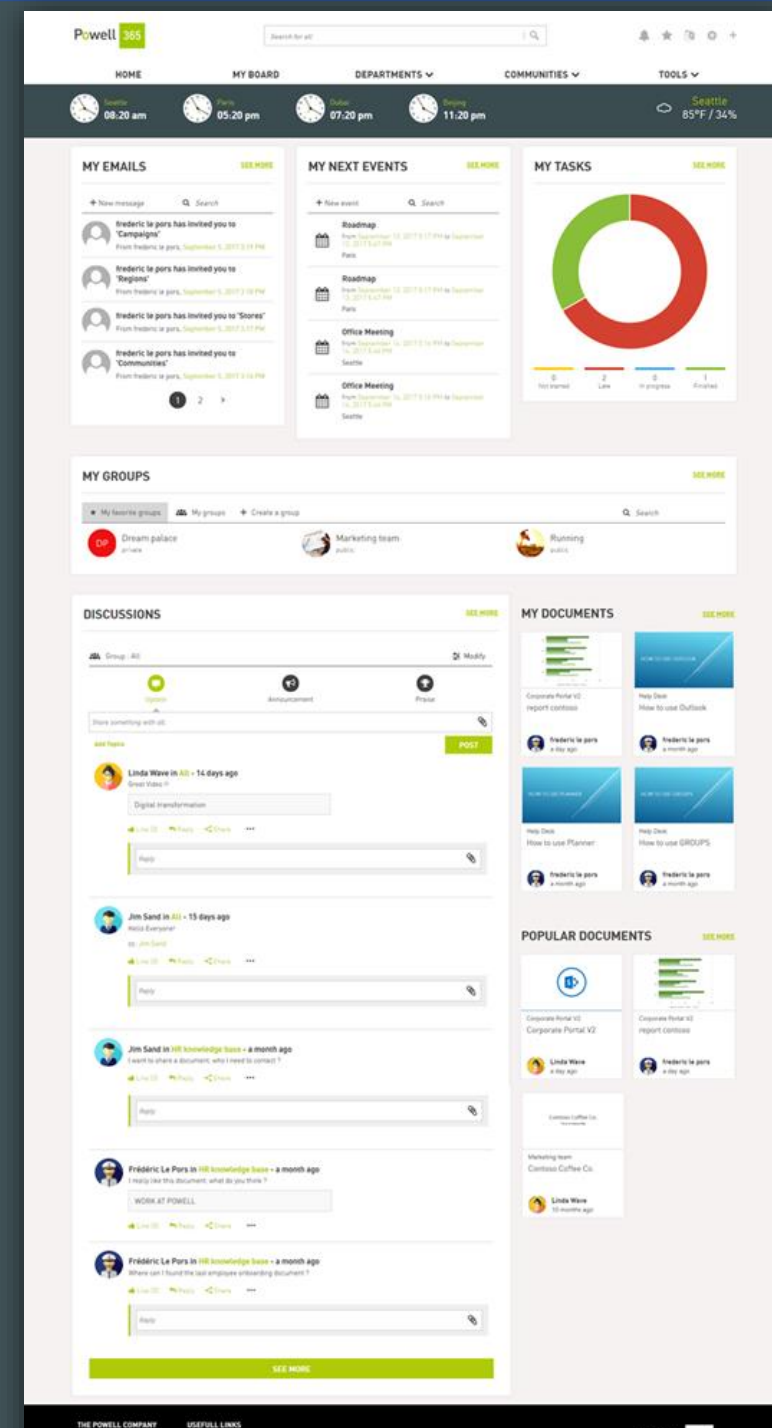

Instant access to the latest content in your Microsoft Groups

Yammer

Follow the latest discussions in the company based in Yammer with a complete experience (add files, praises, announcements...)

Extend the board

You can extend the board with others features like CRMOL, Power BI, Office Video, your own components, etc.

Departments

Capture your business units and Departmental communication using our ready to use Templates

More than 30 site templates and 30 web parts are ready to be configured to best fit your business needs

IT

Communicate technical knowledge

Communications

Publicize company events, news, videos , images and social media

Marketing

Capture media, images, social collaboration and create campaigns

HR

Welcome Employees, manage policies, organize procedures, capture business process

And much more!

Knowledge Centers

Discover all the information you need to thrive in your work!

FAQ

Record and manage Frequently Asked Questions

Policies

Promote and communicate policies

Glossary

Define & Organize your terms and definitions

Employee Onboarding

Communicate onboarding information and capture processes

Reference Documents

Sort and publish all key documents in a single hub

The screenshot displays the Powell 365 Knowledge Centers interface. The top navigation bar includes links for Home, My Activities, Departments, Communities, Staff Directory, and Tools. The main content area is divided into several sections:

- Categories:** A grid of icons representing different knowledge areas: POLICIES, CAREER, EMPLOYEE ONBOARDING, HR GLOSSARY, REFERENCE DOCUMENTS, and FAQ.
- Are You Searching For A Document?:** A search bar and a list of "Most Viewed" documents, including "Annual Meeting", "WORK AT POWELL", "My Career", "TELEWORK POLICIES", and "HR Policies".
- Best Rated:** A section for highly rated documents.
- Glossary:** A section for defining terms, featuring a "Theme" dropdown and a grid of letters (A-Z) for navigation.
- Summary:** A section for summarizing key information, including "FINANCE", "HR", and "SALES".
- Questions:** A section for frequently asked questions, with a "FINANCE" category selected.

The interface is designed to be user-friendly and accessible, with clear navigation and a variety of content types to support different learning and information needs.

Engage & Communicate

Classifieds

In-house marketplace to sell, buy and donate items

Employee Highlight

Highlight & acknowledge employees

Campaigns

Organize, plan and mobilize users to build campaigns

Job Postings

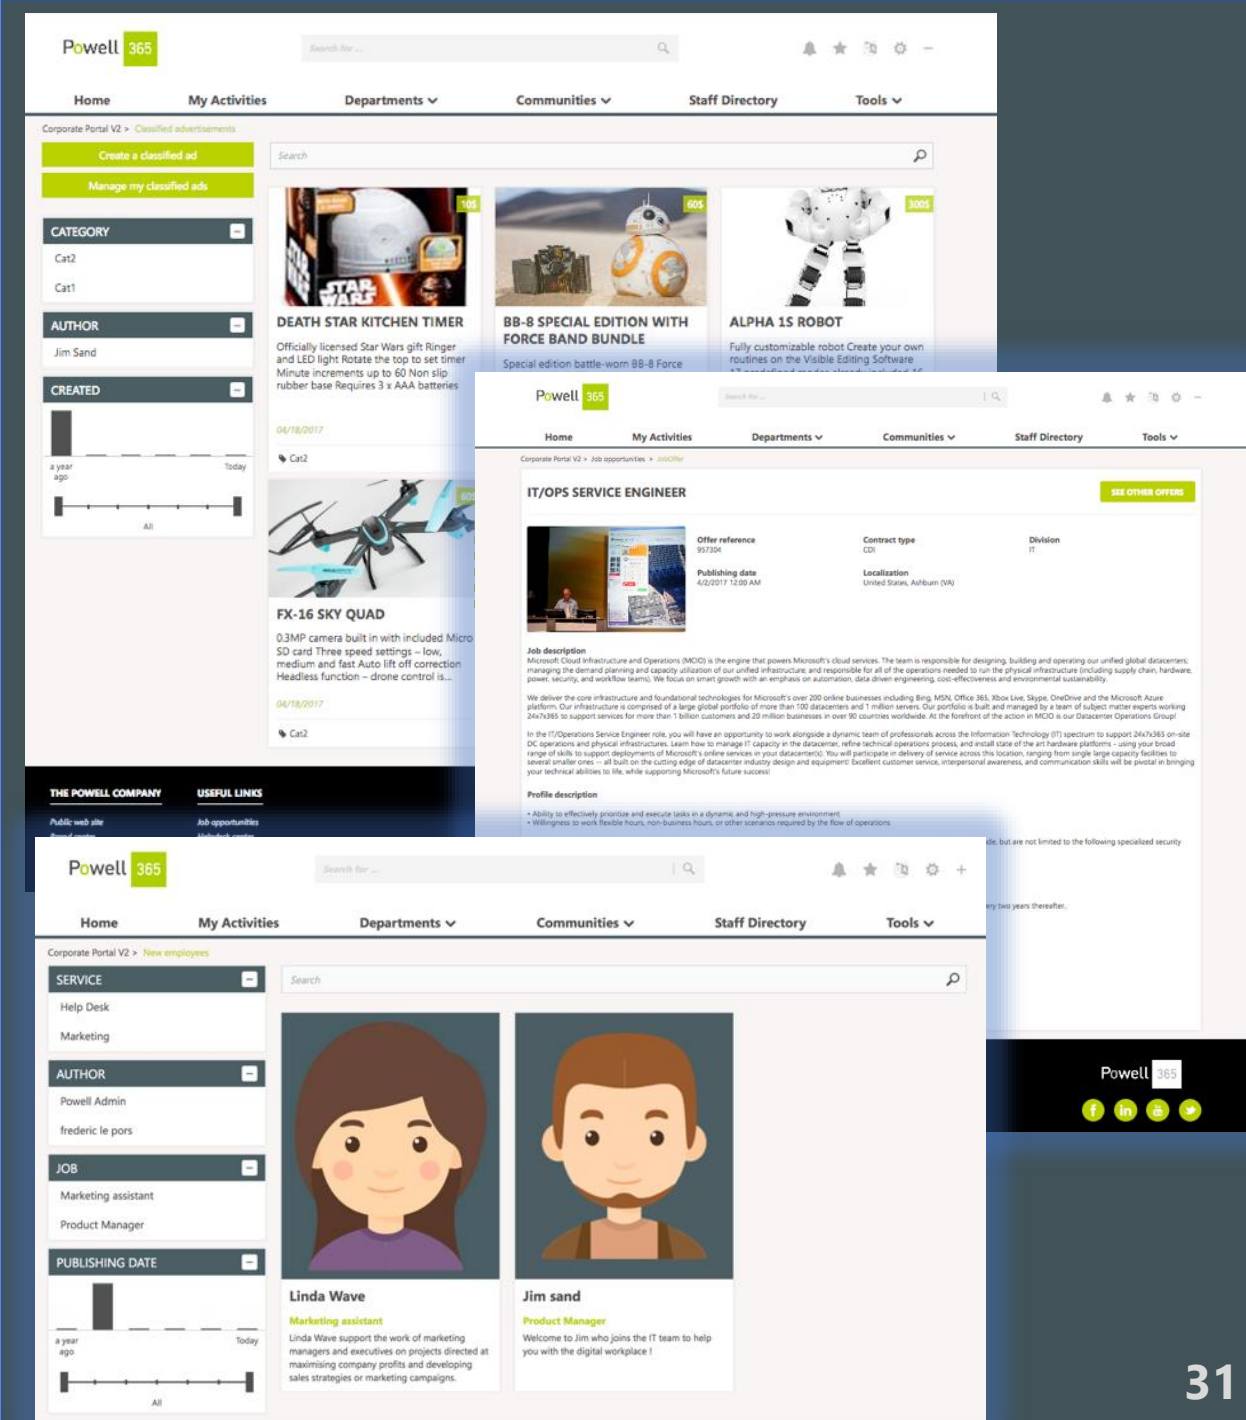

Record and manage
Frequently Asked Questions

Tools

Communicate common and helpful tools

Communities

Connect users with common interests

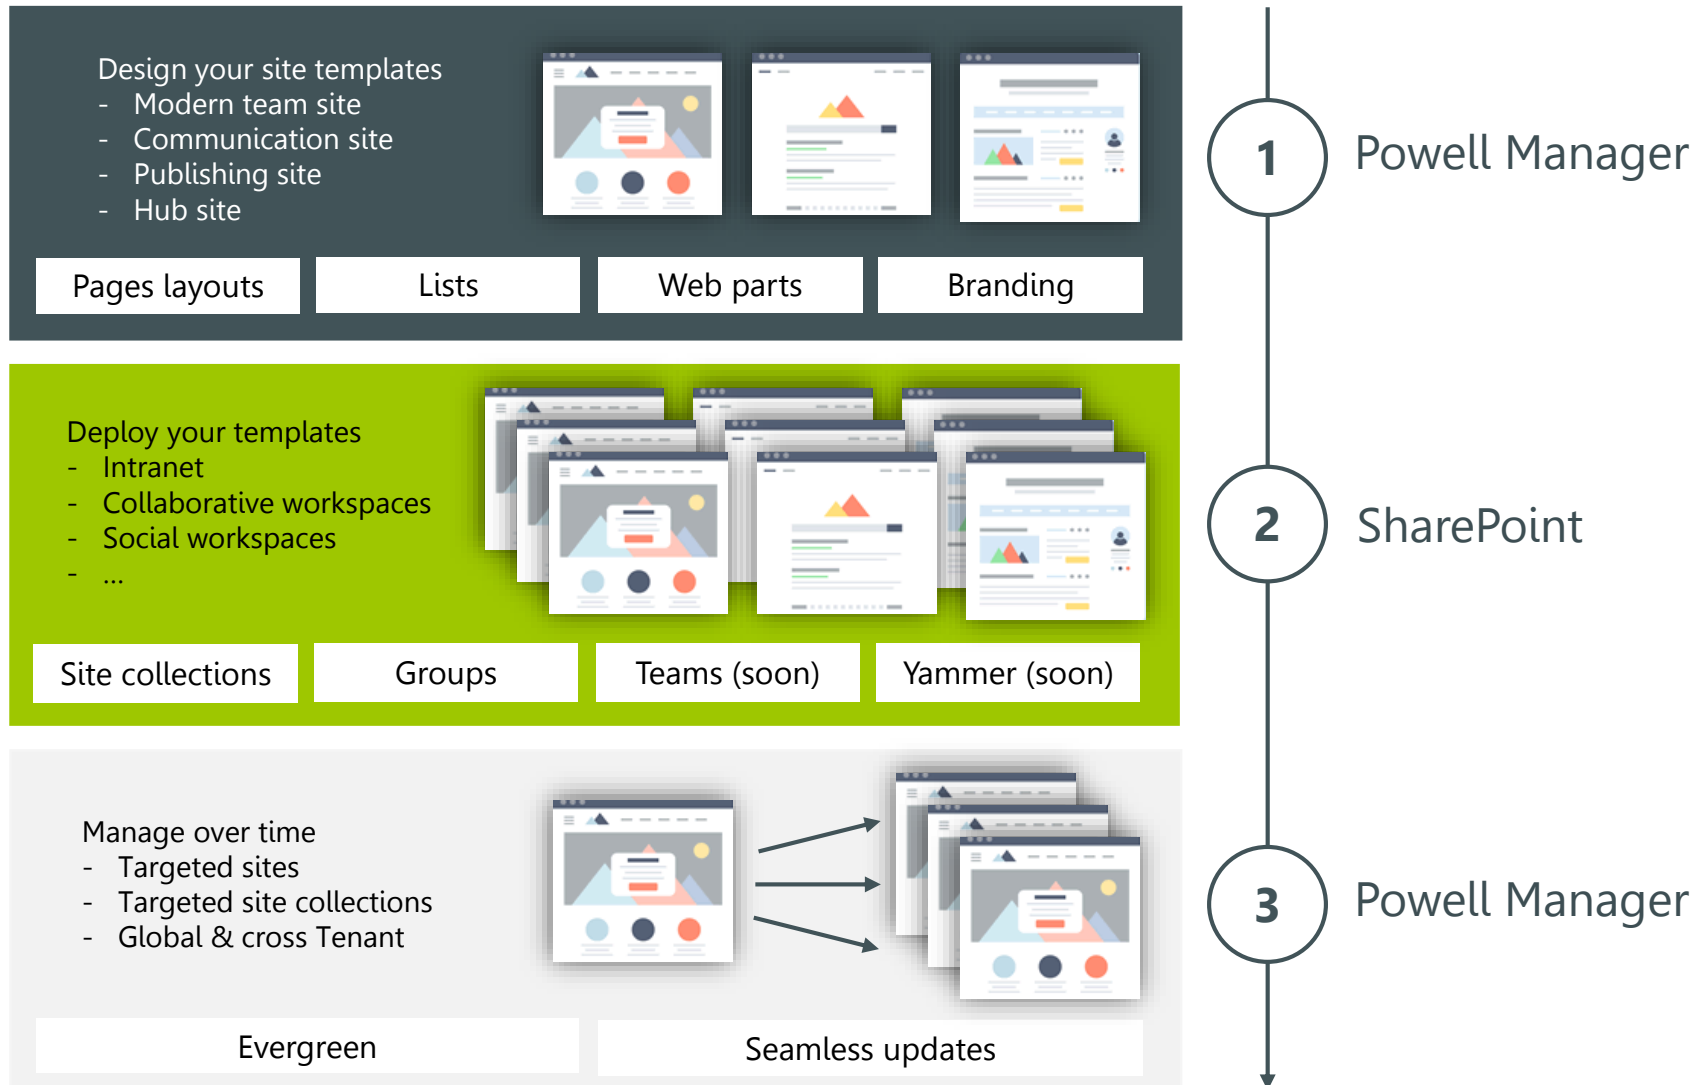

Technical Overview

Design, Deploy, Collaborate.
It's simple.

Functional overview

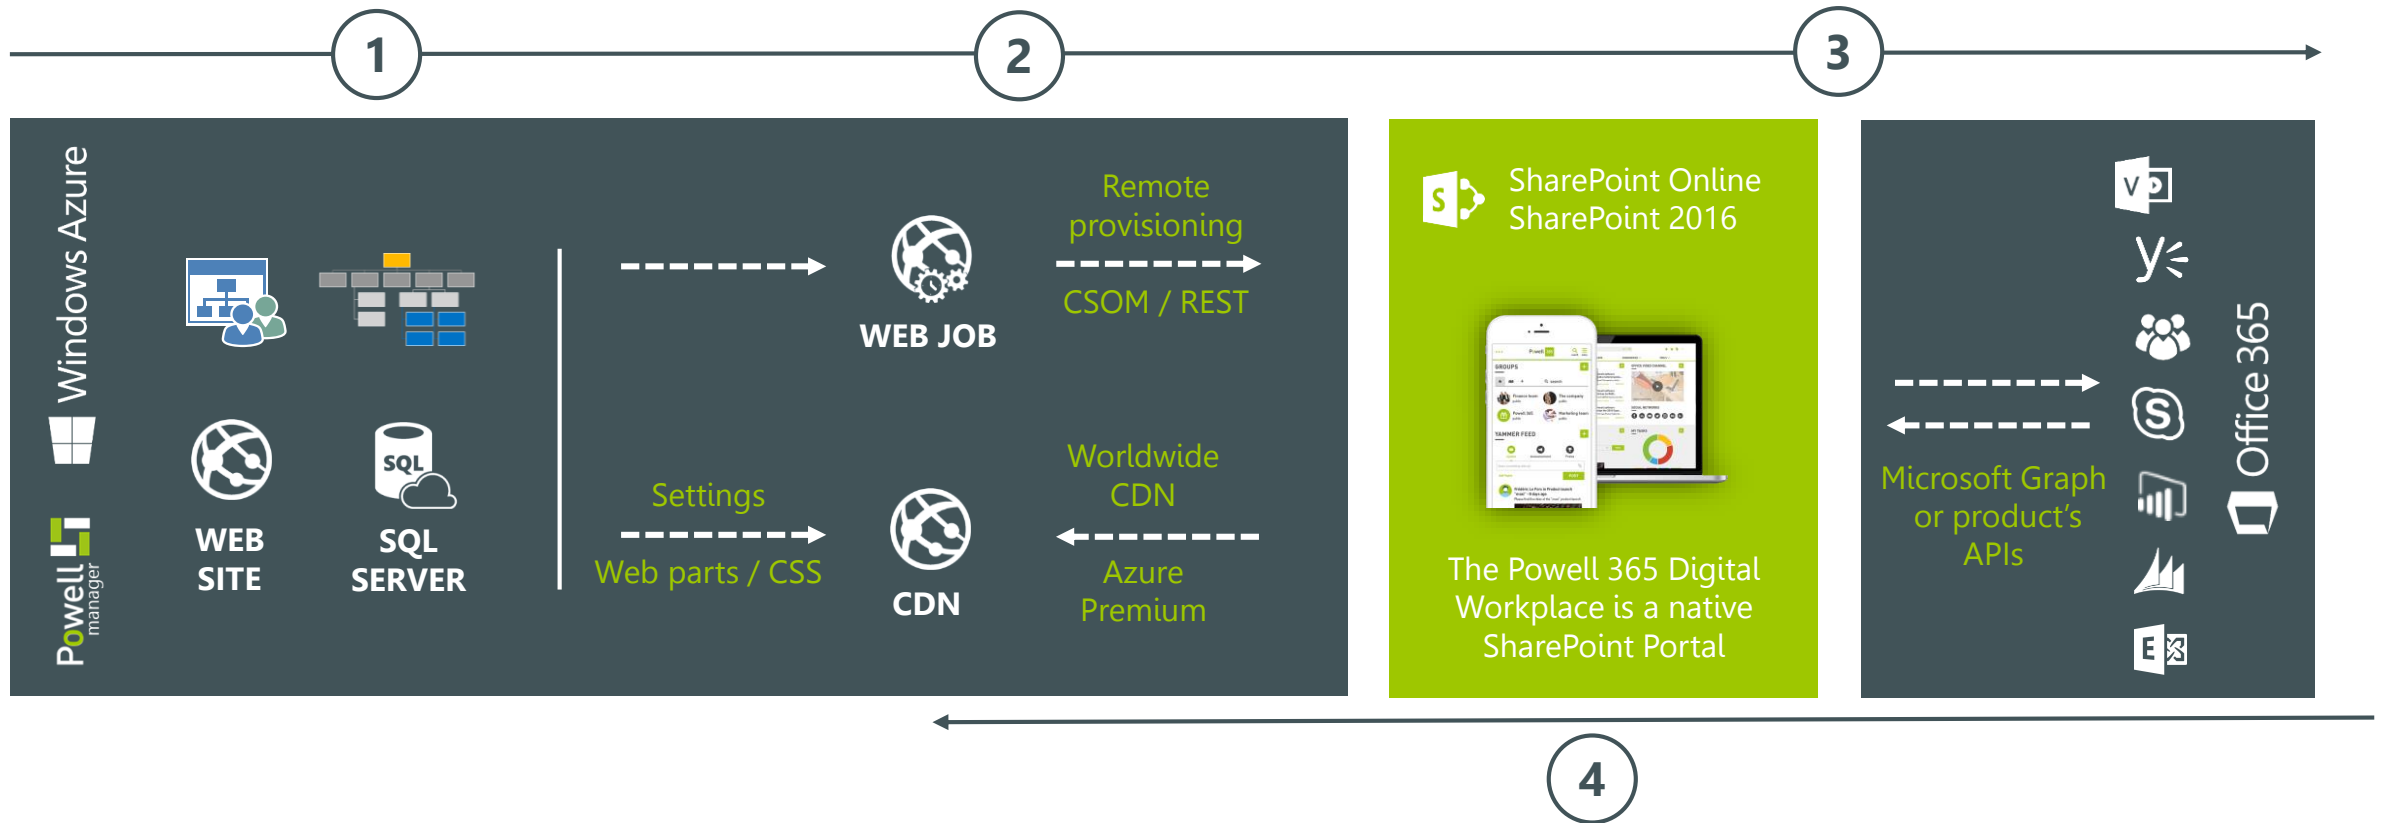

Architecture overview

Customer's administrators
build their SharePoint portals
in Powell Manager

The SharePoint portal structure
are deployed on the customer's
Office 365 tenant

Users access the portal
in SharePoint online
on the Office 365 tenant

Platform Environment

HOSTING

The Powell Manager suite is hosted in the Amsterdam Azure data center.

The Powell CDN uses Azure CDN Premium and is replicated worldwide for redundancy and high availability.

SLA

Powell Manager & job : 98,5% uptime

- Maintenance is announced one week before
- Standard downtime is 30min.

Powell CDN : 99,9% uptime

- If the CDN is unavailable, SharePoint Online is still running with empty web parts for Powell features.
- Powell Manager maintenance has no incidence on the CDN availability.

Data, security, updates & reversibility

1

All your data stays in SharePoint and Office 365

You can benefit from all features provided by the **Microsoft Compliance and Security Center**

2

Powell 365 uses **Office 365 authentication** for maximum security

Powell Manager benefits from all security features provided by Azure

3

Powell Software provides regular updates (twice per month) to follow **SharePoint and Office 365 evolutions**

You don't need to re-deploy your portal

4

If you stop using Powell 365, **you keep all your content**, security settings, SharePoint site structure and design

You stop benefiting from Powell web parts and specific features

Benefits & ROI

Design, Deploy, Collaborate.
It's simple.

Drive your projects **SIMPLY**

No wireframe, no detailed specifications, no tunnel effect.
Users have always **the portal live with the latest changes**

POWELL SITES key functional benefits

Key features	Powell sites	SharePoint Publishing	SharePoint Modern Exp.
Unified navigation across site collections	●		
Personalized Search center	●	●	
Cross-site content presentation	●	●	
Multi device	●		●
Advanced branding	●		
Content notification	●		
Page translation	●		
Manage favorites	●		
Simplified content contribution & contribution dashboard	●		
Advanced O365 features integration: Delve, Groups, Planner, Outlook, Dynamics, ...	●		
Out-of-the-box site templates	30+	1	2
Additional business web parts to third-party solutions and services	30+		

POWELL MANAGER functional benefits

Let your **SHAREPOINT EXPERTS** focus on what matters,
not all the repetitive tasks required by SharePoint

Key features	Powell Manager	Custom development
Site template	Drag & drop	Office Dev PnP template
Site template classification	Configuration	Not available
Page template and page layout template	Drag & drop	Office Dev PnP template
Navigation template	Configuration	SPFx extensions
List & content type templates	Configuration	Office Dev PnP template
Office Groups template	Configuration	Not available
Standard Branding	Configuration	HTML+CSS
Site Design templates	Configuration	Powershell + Office Dev PnP template
Office 365 updates	Automatic	Manual reactive maintenance
Portal updates and deployment	Configuration	PowerShell
Development environments (dev / test / prod)	Configuration	Not available
Unique platform to manage On-Line and On-Premises	Configuration	Not available

POWELL 365 ROI

Powell 365 project versus a standard project

	Time	Cost *
Design	Divide by 3	Divide by 2
Build	Divide by 10	Divide by 3
Run (evolution + maintenance)	Divide by 5	Divide by 2

*Costs are calculated for a single project including Powell 365 licenses.

By using Powell 365 across multiple projects, ROI will further increase as Powell 365 license costs will be spread across these different projects
