

Easy PDF markup on any Windows 10 device

Drawboard PDF is designed to replace pen and paper in document-heavy industries. Get PDF reviews done quickly and wherever you are with easily customizable tools and an intuitive interface. Drawboard PDF replicates the handwriting experience by combining precise digital inking with fast rendering technology for any PDF.

Drawboard PDF is relied upon by teams across legal, finance, education, construction, health, aviation and other industries inundated with paper.

Key Features

Feels like real ink

Pressure sensitivity and customizable properties provide the best paper-like experience available.

Text review tools

Highlight, underline, squiggly, strikeouts, and add notes to each annotation.

Discovery

Bookmarks, markup history and keyword search in the Discovery panel.

Pin tools + folders

Add most-used tools to the favourites bar and pin folders to Start.

Insert objects

Editable clouds, lines, shapes, polygons, arrows, as well as images, notes and text boxes.

Intuitive layout

Find and customize all tools in the radial menu, work with multiple Tabs and choose your layout style.

Much more

Rotate and insert pages, flatten annotations, night mode, XFDF and more.
