AI FOR CITIES AND CITIZENS

NATURAL LANGUAGE UNDERSTANDING FOR CITY COUNCIL DATA

1. MORE EFFICIENT INTERNAL OPERATIONS

Local authorities' data mountains are growing exponentially. So, search by meaning instead of by keywords.

By using AI to search intuitively, you will find the needle in the haystack faster.

2. BECOME AN OPEN DATA LEADER

Give your citizens smooth and easy access to your local authority's many administrative documents.

Open government stimulates not only economic growth but also innovation and social inclusion.

3. READY-MADE AI PRODUCT

With CityNet you can get down to work fast – with no need for installation or data processing.

Just register, upload your data and you are ready to start. Artificial intelligence in all simplicity.
