OUR PRODUCTS

CAP/POS

Credit Application Processing/
Point of Sale

A highly agile, easy-to-use, web-based application – also accessible through mobile devices – Ascent’s Credit Application Processing (CAP) delivers an intuitive user experience, with features that enable rapid data capture.

CMS

Contract Management
System

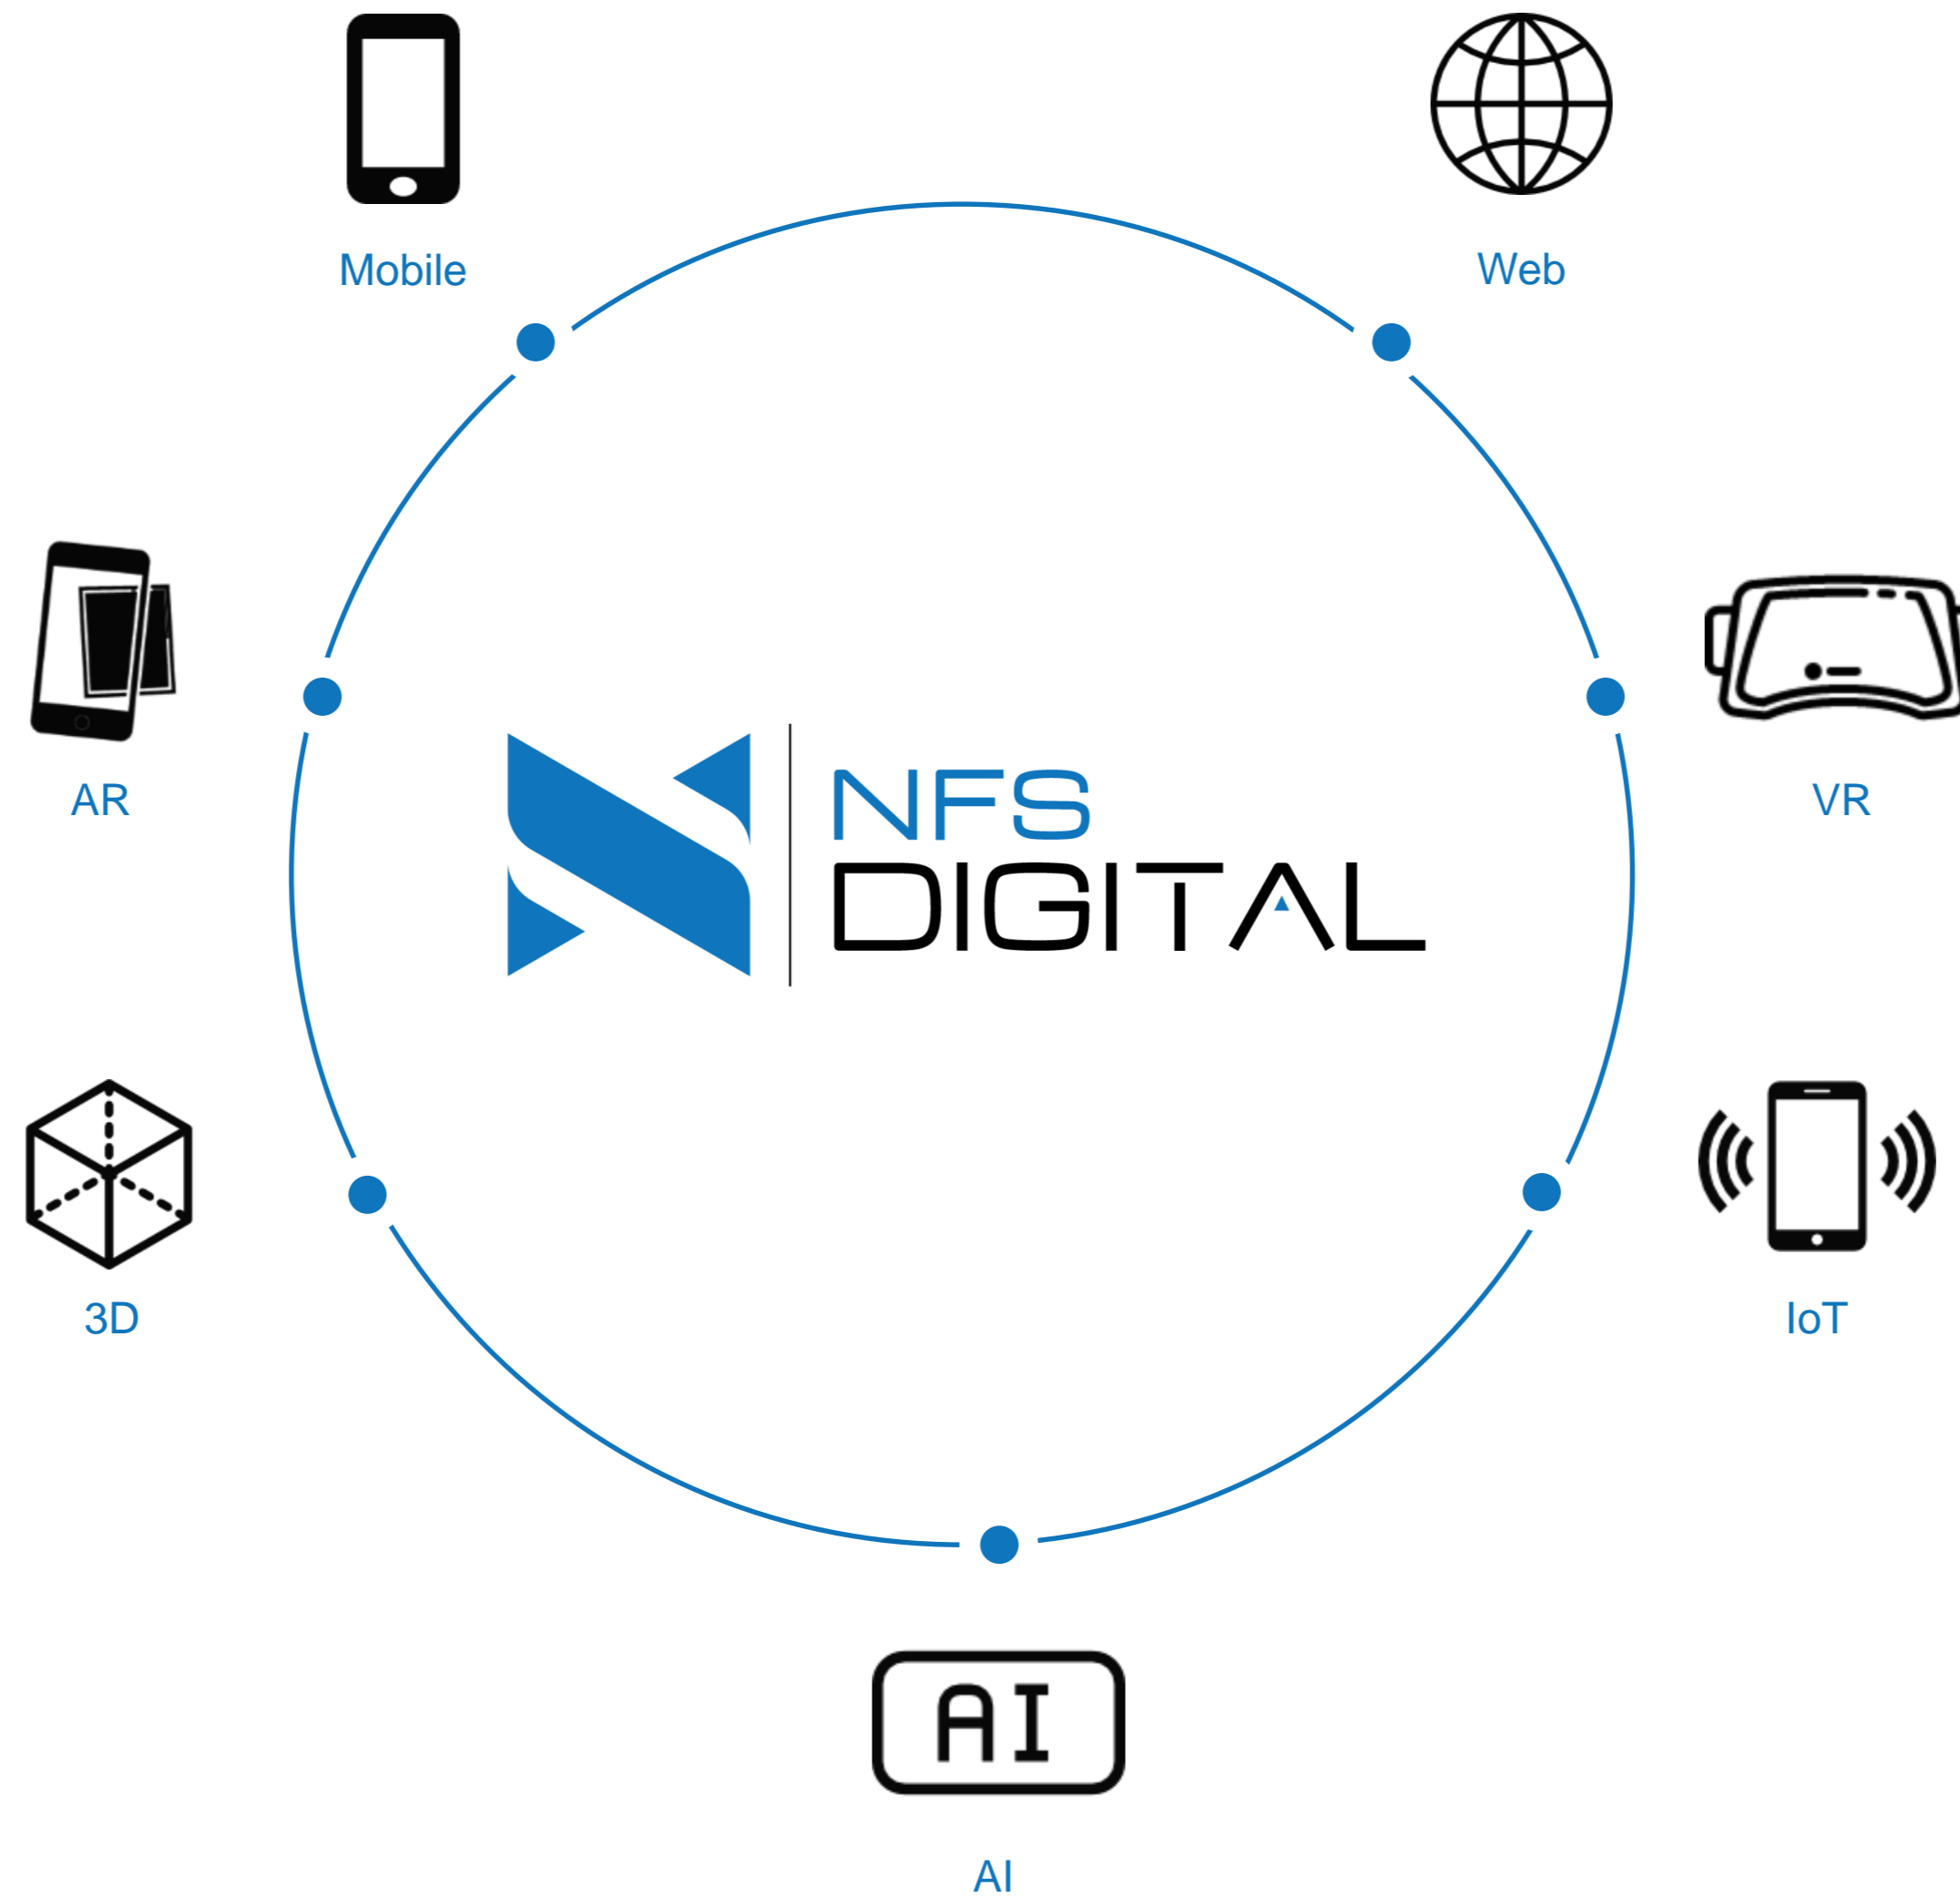

Ascent’s Contract Management System (CMS) is a powerful, highly agile, functionally rich application for managing and maintaining detailed credit contracts throughout their lifecycle – from pre-activation and activation to maturity.

WFS

Wholesale Finance
System

The system provides a powerful, seamless and efficient system for automating and managing the entire life cycle of wholesale finance. With floor planning, dealer and inventory financing, it is ideal for a culture of collaboration.

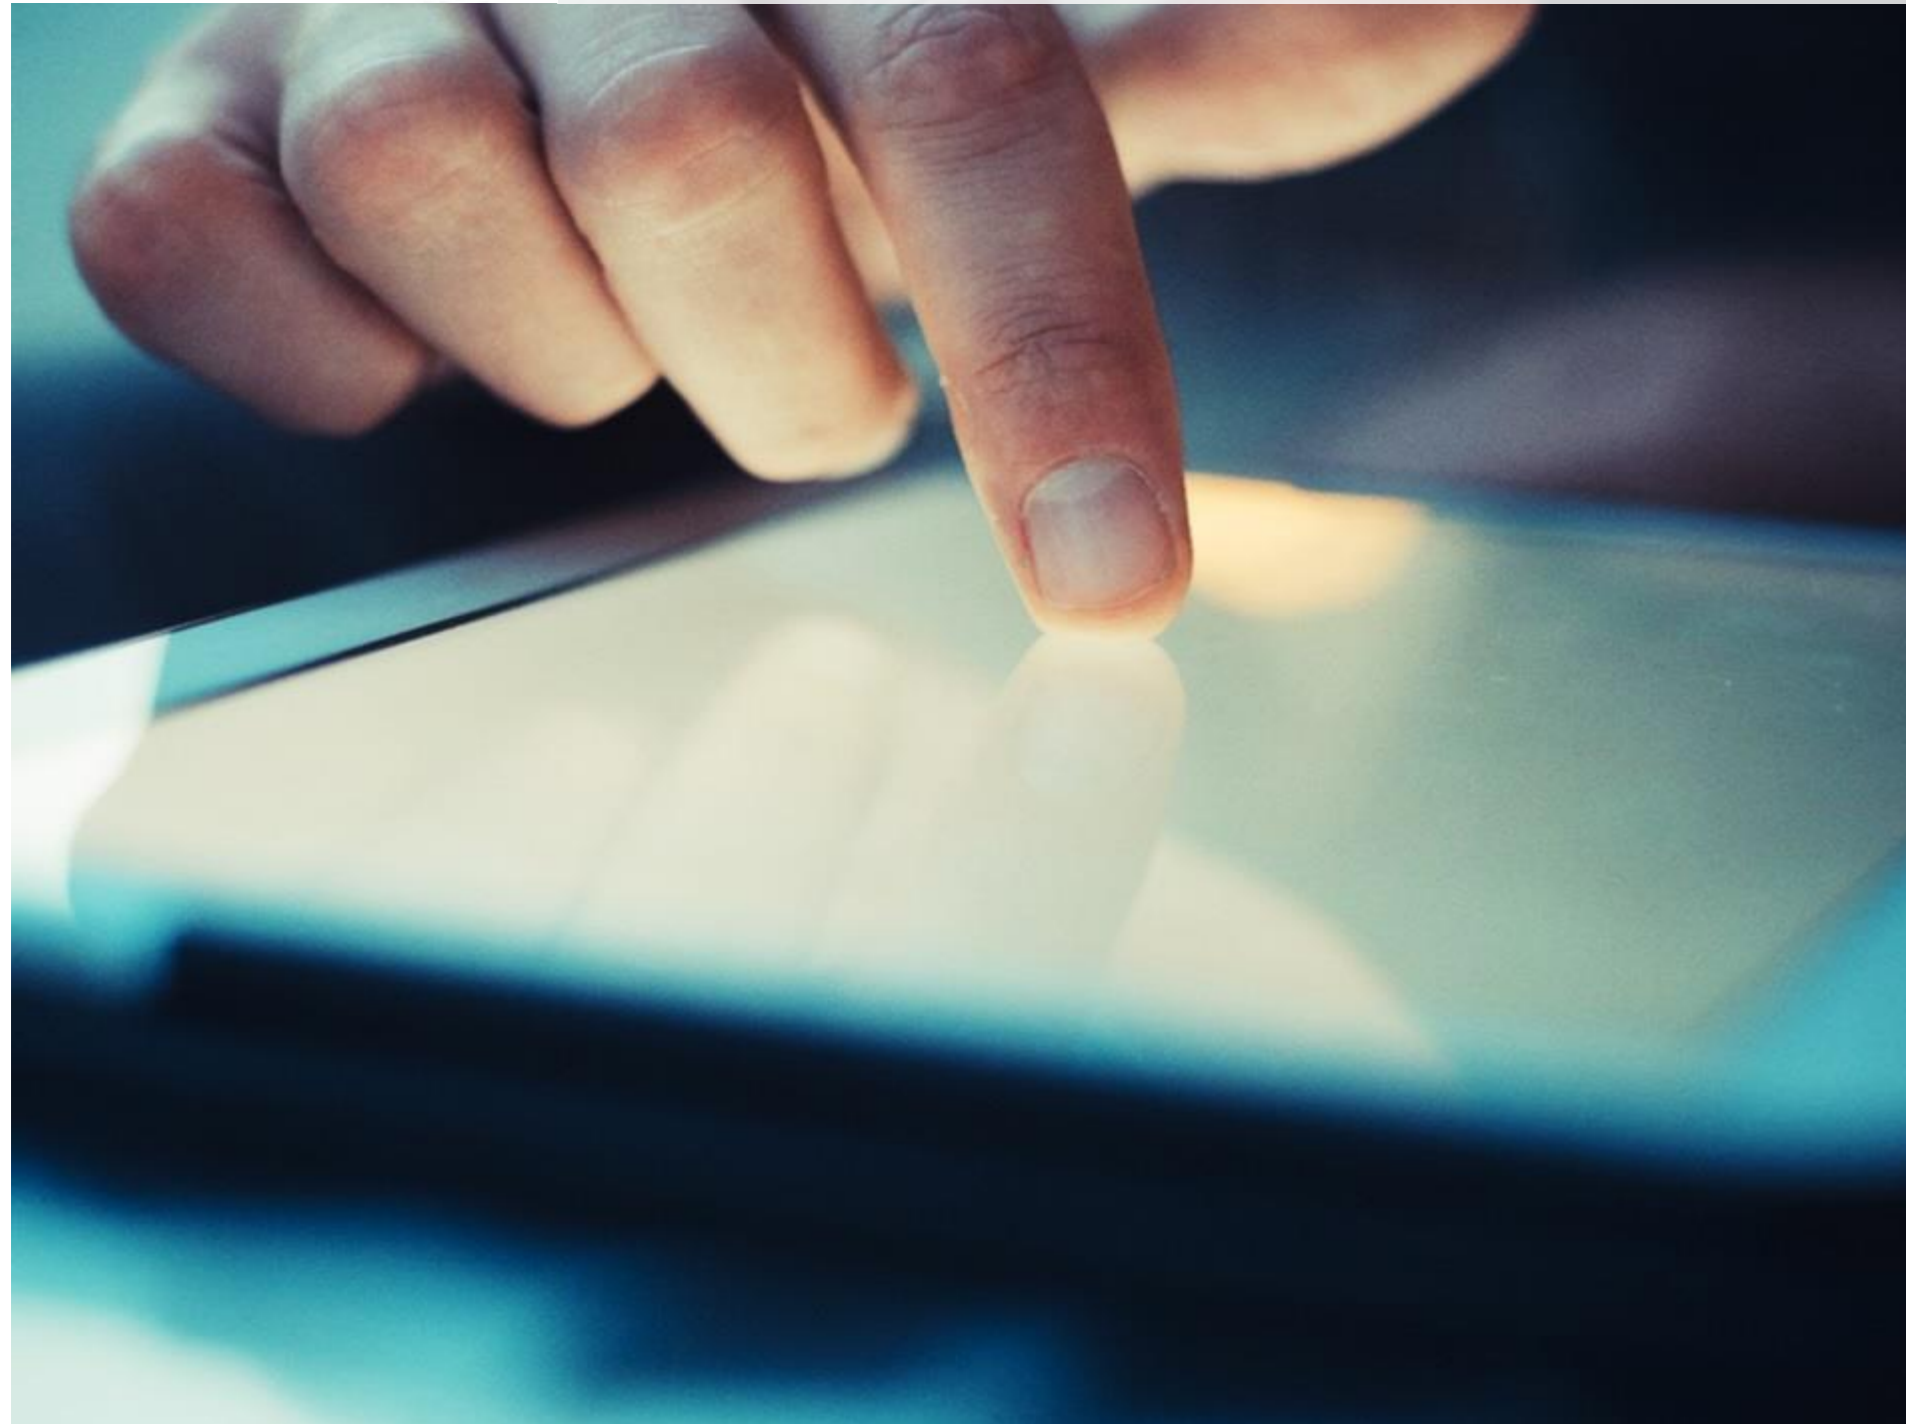

DIGITAL ECOSYSTEM

OUR PRODUCTS

WEB & MOBILE READY APPLICATIONS

Mobile Account
mAccount gives your customers complete visibility of their credit/lease contracts.

Mobile Point of Sale
The Point of Sale application simplifies the business origination process for financial products such as financial lease, operating lease and hire purchase.

Mobile Dealer
mDealer empowers your business partner with a mobile platform that delivers more visibility and control over their inventories – with minimal effort.

Mobile Auditor
mAuditor empowers your business partner to schedule visits, record audit exceptions and track assets for higher levels of transparency, in real time.

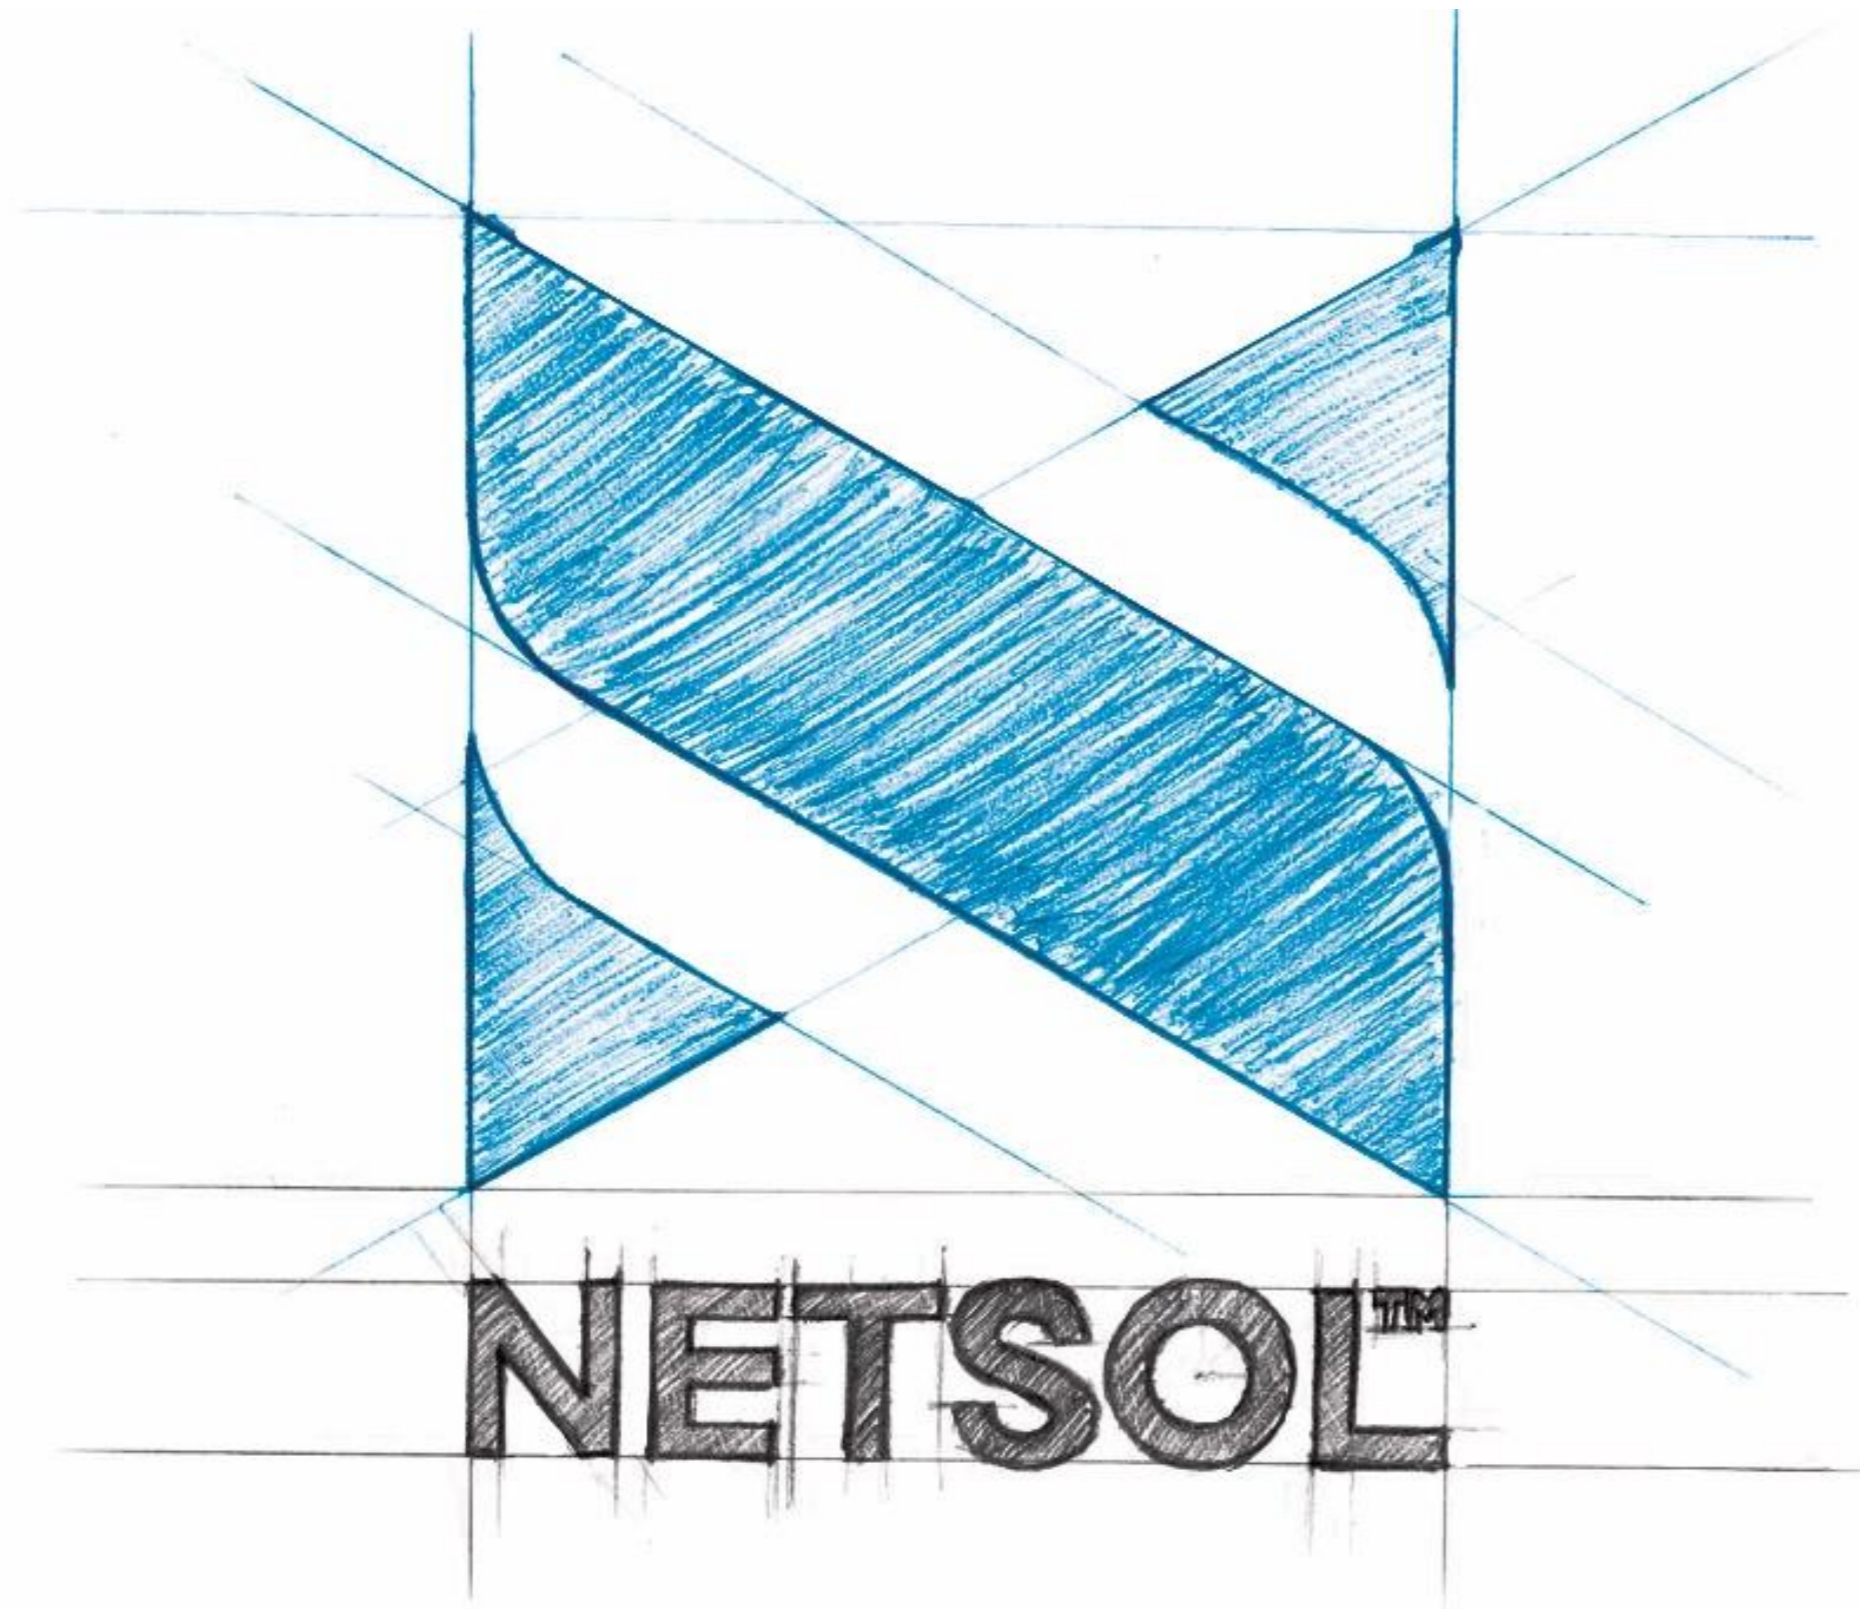

Mobile Field Investigator
Mobile Field Investigator includes powerful features that enable your field teams to perform applicant details verification on the go.

Mobile Collector
mCollector empowers your collections teams to do more, with easy to use interface and intelligent architecture.
