PROS Guidance
Strike that perfect balance between sales growth and profitability

Deliver sustainable, profitable growth:

• Quickly model the potential uplift of a new segmentation-based price strategy.
• See the science behind every price recommendation.
• Refine the precision of dynamic, personalized price recommendations through machine learning algorithms.
• Integrate with quoting systems to deliver pre-approved prices to partners and sales.
• Easily adapt price strategy to go-to-market strategy changes or company reorganizations.

Your pricing strategy might change, but one thing remains the same: Finding that perfect balance between sales and profitability is key. The challenge is how.

PROS can help. To deliver sales growth without sacrificing profitability, PROS Guidance prescribes winning negotiation recommendations tailored to every customer interaction and need. These recommendations incorporate your customer’s willingness-to-pay and your strategic objectives to ensure you’re optimizing win rates while maximizing value.

Armed with PROS Guidance, your sales teams and partners now have the pre-approved prices they need to accelerate win rates and reduce sales cycle times. And your pricing teams have the solution they need to continually refine their price strategy. Now they can simply initiate that analysis right from the software whenever they need to—or whenever they’re just curious to see the potential of a new price strategy. It’s that easy.

82% of businesses complain of increasing price pressure
4/10 companies have stagnant or declining margins
60% expect cost increases but most cannot increase prices to compensate
70bp of margin is the estimated cost of price weakness
Dynamic Pricing Science is the New Competitive Lever Essential for Modern Commerce

Instantly Identify the Revenue Leaks and Recovery Potential

See the Science for Yourself

Gain instant visibility into the revenue potential that can be attained through improving your precision in pricing. Science-based segmentation enables you to take a data-driven approach to recovering the revenue leaks lost through an undisciplined approach to pricing. Now you can justify new price recommendations with simple, easy-to-access views of the peer prices that support your recommendations.

Price recommendations can be explained with simple and easy-to-access views of the peer prices that supported that recommendation. What’s different about PROS Guidance is that this isn’t fragile science developed in a back office and delivered to you in a black box with a “Do Not Touch” label. This is science purpose-built for business and delivered to you with controls and windows that allow you to interact with the underlying science and optimize the output.

— Start recovering revenue in 50 days! —
Improve Sales Productivity and Profitability

Once you create your pricing segmentation structure with help from PROS patented science, then algorithmic machine learning takes over. PROS Guidance delivers price envelope recommendations for the unique attributes of every potential sale so that your sales teams can confidently balance maximized value with customer willingness-to-pay every time. With pre-approved prices for your partners and sellers, you can eliminate one-sixth of the sales cycle time spent seeking approvals—which is critical when customers value immediacy in pricing over negotiation.

Continuously Adapt and Improve – At Your Pace

Now that you can move easily from segmentation analysis and evaluation to price guidance delivery, refining your price strategy is as easy as asking “when?” And with PROS Guidance, you don’t have to sacrifice your price strategy through the norms of business change, such as mergers, acquisitions or reorganization of your product lines. PROS Guidance is built to adapt to your changing business and help you to achieve sustainable, profitable growth regardless of what comes your way.

Deliver Up to 100-300 bp of Margin Improvement by Closing Deals with Speed, Precision and Consistency
