

# simplify your spend

Automate and simplify the way you request items, authorise costs and pay for goods. Each transaction is approved, within budget and recorded.

# *Fraxion Spend Management is a cloud-based solution that equips your business with the tools to control and optimise the way it spends money.*

**Manage operational costs** by configuring your company spending policies.

Ensure that all **suppliers are authorised** and channel funds to service providers that offer the best value.

**Fraxion enforces compliance** and automates the entire requisition and approval workflow.

**Drive efficiency and productivity** by empowering your employees to get more done in less time. Fraxion is accessible from any location, using any mobile device.

**Analyse how your employees spend money** and manage the risk of overspending; the technology provides real-time visibility of expenditure, budgets and committed spend.

Simplify the way your company **operates by automating processes.**

1.

### **save time**

*and promote productivity.  
Work from any location,  
on any device while still  
maintaining financial control*

2.

### **see your expenditure**

*Fraxion provides visibility  
of how business funds are  
spent*

3.

### **boost profitability**

*by reducing operational  
expenditure*

4.

### **simplify processes**

*and drive efficiency through  
automation*

5.

### **scale**

*your business and protect  
your data in a secure cloud-  
based environment*

6.

### **control**

*your cash flow by managing  
who your suppliers are  
and enforcing policies and  
approval processes before  
costs are incurred*

7.

### **analyse**

*forecast and identify trends  
with detailed reporting  
functionality*

8.

### **manage risk**

*through escalating approval  
levels and real-time budget  
views at decision points*

9.

### **broad user adoption**

*achieved through simple,  
user-friendly technology and  
a multilingual user interface,  
which enables each user to  
select their preferred  
display language.*

# optimise your time

*Enjoy the benefits of faster, mobile processes that deliver results. Savings in time promote efficiency and enhance productivity levels.*

### **buy**

*Automate and simplify purchasing. Fraxion electronically manages request creation, quoting, approvals, purchase order generation and the processing of invoices.*

### **claim**

*Streamline the submission of expense claims and ensure compliance with company policies while simplifying and speeding up reimbursement processes. Fraxion provides visibility of expenses and replaces paper-based requests with electronic documents and an efficient workflow.*

### **pay**

*Automate and control the entire accounts payable process, linking invoices to both orders and requests in order to easily approve invoices and eliminate overpayments and duplicate invoices.*

### **travel & expenses**

*Automate and control the entire process for local and international travel: from request creation through to the processing of invoices, the generation of travel itineraries, acknowledgement of travel expenses incurred and the matching of invoices against travel costs.*

### **informed decisions**

*Analyse spend across all expense types, suppliers and users, view budgets and gauge the impact of expenditure before it is incurred. Fraxion's user-friendly business intelligence tools help you to manage risk and track expenditure at a granular level and identify savings opportunities.*

### **supplier approval**

*Manage risk and reduce costs by effectively controlling supplier take-on. Fraxion enforces policies and assists you in establishing a centrally managed supplier directory by controlling supplier take-on and qualification steps.*

### **document management**

*Upload unlimited electronic documents associated with any transaction. From photos of receipts, specifications, delivery notes, tax invoices and supplier documents to copies of B-BBEE and Vat certificates, Fraxion enables a paperless business environment.*

### **b-bbee management**

*Improve your B-BBEE rating by easily managing, recording, tracking and reporting on all B-BBEE requirements.*

### **leave**

*Request or approve leave on-the-go using Fraxion's cloud solution.*

# *improve* *your financial control*

*Take control of your cash flow by authorising expenditure before it is incurred. Configure your spend policies to provide rigid financial control.*
