# Gaia Smart Feedback Solution

# Gaia Smart Feedback – Enabling Optimization & Automation at Sites

Data Acquisition
<b>Collection:</b> Ingest data from IOT devices or digital channels
<b>Attribution:</b> Multi-parameter data source attribution
<b>Fusion:</b> Add custom secondary data, on custom request

Data Insights
<b>Analytics:</b> Real Time, Time Series, Comparative Analytics
<b>Visualization:</b> GIS, Drill Down, Multi Parameter Charts
<b>Action Engine:</b> Custom Rules Engine, Auto Alerts, Multi Tier

Data Foresight
<b>Integration:</b> API Based, Link to Client ERP or CRM Systems
<b>Enhanced Analytics:</b> custom AI/ML algorithms for prediction
<b>Custom Cognitive Automation:</b> Custom Modules on request

## SaaS Platform & Dashboard

## Benefits to Enterprises & Smart Sites

Enhance  
Customer  
Journey

Measure  
NPS, CSAT,  
Experience

Improve  
Service &  
Operations

Understand  
Pain Points &  
Happiness

Interpret  
Reasons for  
Satisfaction

Monitor  
3<sup>rd</sup> Party  
Services

Boost  
Employee  
Motivation

Increase  
Brand  
Engagement

Impact  
Loyalty &  
Revenue

**Collect** Data From Multiple Channels at Points of Interaction along the Customer Journey

**Analyze** Data to Generate Real Time, Time Series & Comparative Analytics, and Manage Rules and AI Driven Action Engine

**Impact** Business Metrics and Improve Customer Experience through Real Time and Systemic Insights; Integrate into CRM or Ops Systems

# Intelligent Site Management at Smart Sites

## Site Feedback from Users or Sensors

Multiple Sensors  
Connected to IOT Gateway

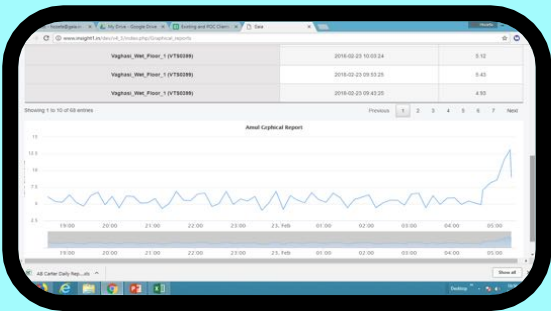

Apps or Interactive Web  
Surveys Via Tab or QR

Voice Data with Cloud  
NLP or Edge ML

**Collect** Data From Multiple  
Sensors or Channels from  
Multiple Locations

## SaaS Platform & Dashboard

A screenshot of a SaaS dashboard showing a 'STANDARD REPORT' table. The table has columns for 'Site Name (Device ID)', 'Data Time', 'Status', and 'Value'. It lists several sites with their respective data times, status (Open or Closed), and values.

Site Name (Device ID)	Data Time	Status	Value
Aurangabad_Wat_Flow_1 (V780280)	2019-02-23 10:23:00	Open	4.57
Combarone_Wat_Flow_1 (V780280)	2019-02-23 10:23:00	Open	-
Kandake_Deep_Flow_1 (V780280)	2019-02-23 10:23:00	Closed	-16.00
Kandake_Wat_Flow_1 (V780280)	2019-02-23 10:23:00	Closed	4.57
Kandake_Wat_Flow_1 (V780280)	2019-02-23 10:23:00	Closed	4.56
Kandake_Deep_Flow_1 (V780280)	2019-02-23 10:23:00	Open	-16.00

**Analyze** Data to Generate Real Time, Time  
Series & Comparative Analytics, and  
Manage Rules and AI Driven Action Engine

## Benefits to Enterprises & Smart Sites

**Monitor**  
Real Time  
Site Parameters

**Collect**  
Data from  
Sensors & Users

**Understand**  
Actionable Data  
Driven Insights

**Escalate**  
Alerts on Breaches  
for Response

**Reduce**  
Unplanned  
Downtime &  
Disruptions

**Improve**  
Asset Tracking &  
Maintenance

**Manage**  
Staff & 3rd Party  
Schedules

**Enhance**  
Site Operations  
Reduce Cost

**Impact**  
Energy & Water  
Consumption

**Impact** Business Metrics and Improve Site  
Operations through Real Time and Systemic  
Insights; Integrate into enterprise systems

# Site Management

Monitor sites and process parameters.

Manage distributed site operations through integrated insights and reports to gather site intelligence and improve site operations.

Manage Cold Chains, Warehouses, Buildings & Urban Spaces

## Measure:

Temperature .  
Humidity.  
Door Lock .  
Current .  
Power .  
Lux .  
Footfall .  
Fuel Level .  
Gases .  
Location

## Benefits:

Single View  
Management  
of Multiple  
Sites

Remote  
Monitoring of  
Site  
Parameters

Optimize Site  
Operations &  
Manage  
Issues

Analyze  
Patterns to  
Predict Site  
Issues & Faults

Enabled by Smart Feedback Platform

# Asset Management

Monitor and maintain assets registry, inventory, maintenance, and performance.

Detect real time faults and breaches. Raise alerts and create feedback action engine to improve sites and facilities operations.

## Measure:

Temperature .  
Current . Power .  
Fuel Level .  
Proximity .  
Location .  
Asset Registry .  
Maintenance Check Sheet .  
Asset Efficiency .  
Inspection List .  
Renewals & Contracts Check Sheets

## Benefits:

**Monitor Asset Productivity & Performance**

**Detect & Repair Anomalies & Breaches**

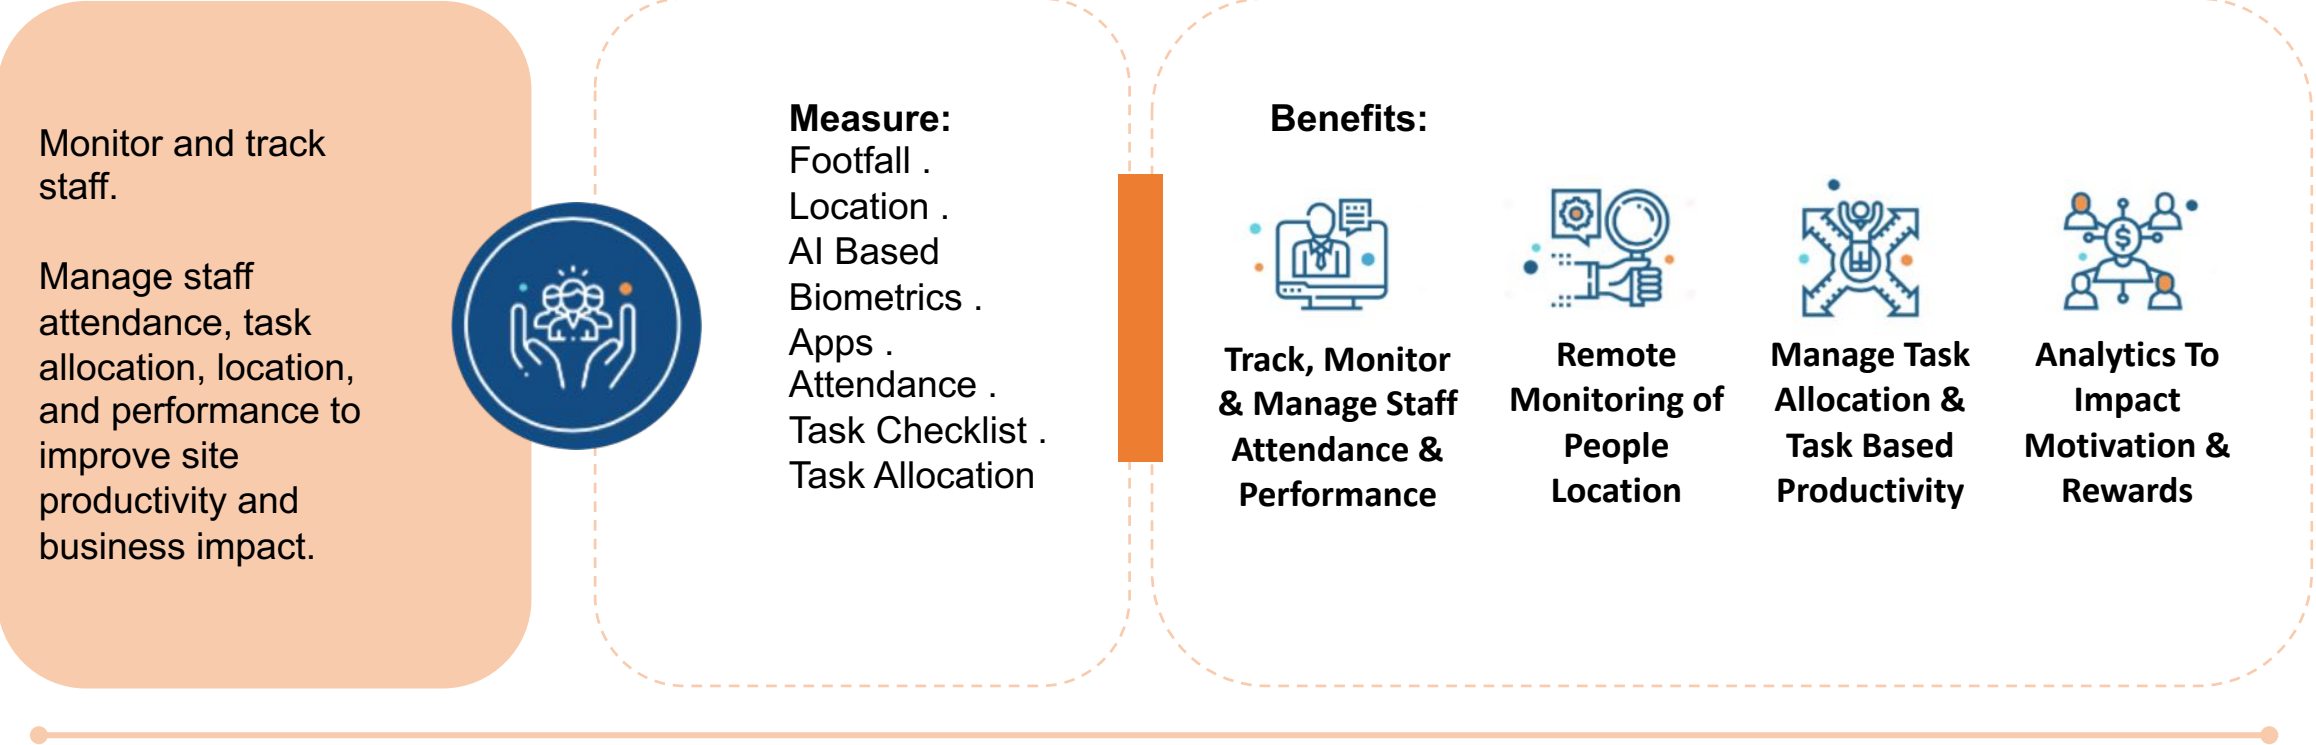

**Predict Faults for Proactive Maintenance**

**Create Unified Enterprise View of All Assets**
