

# Aware Data Management Module for GDPR

Built on the innovative Aware platform, Wiretap's latest **Aware Data Management Module** gives Data Protection Officers around the world a solution for GDPR compliance within enterprise collaboration platforms, such as Microsoft Teams, Microsoft Yammer® and Workplace by Facebook.

The **Aware Data Management Module** provides tools to help organizations address the following GDPR provisions for your company's collaboration platform(s):

## **ARTICLE 5**

### **Principles Relating to Processing of Personal Data**

Processing of the personal data should follow the principles of:

- Lawfulness, fairness & transparency
- Accuracy
- Purpose limitation
- Storage limitation
- Data minimization
- Integrity & confidentiality

## **ARTICLE 12**

### **Transparent Information, Communication and Modalities for the Exercise of the Rights of the Data Subject**

- The controller must take appropriate measures to provide communication to people in a concise, transparent, intelligible and easily accessible form
- Information should be provided in writing, or by other means, such as electronically

## **ARTICLE 15**

### **Right of Access by the Data Subject**

People have the right to obtain:

- Confirmation that their data is being processed
- Access to their personal data
- Other supplementary information — generally the information provided in a privacy notice

## **ARTICLE 17**

### **Right to Erasure**

- People have the 'right to be forgotten' when there is no compelling reason to continue processing their personal data
- The controller is obligated to erase personal data without undue delay

## **Did You Know?**

**The most significant change in data privacy in two decades goes into effect May 25, 2018.**

The General Data Protection Regulation (GDPR) impacts all organizations, in all industries and in all regions — any organization that markets to or processes the information of EU Data Subjects, including end users, customers and employees. Failure to comply with GDPR provisions could result in fines of €20 million or more.

*Under GDPR, content on a collaboration platform can fall into the category of personal data.*

**Visibility. Compliance. Culture.**

*"GDPR is on the minds of every multi-national company and the looming fines are driving all buying decisions. **Aware** addresses those concerns directly, and while not a solution to the problem in total, help shore up the defenses of these companies."*

**Michael Hughes**

Senior Vice President of Worldwide Sales  
Barracuda
