for health care

Patient Journey Optimized

IMPROVE PATIENT EXPERIENCE

Self-service and interaction tools to engage and empower your patients

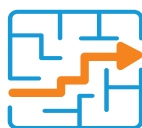

REDUCE OPERATIONAL WASTE

Streamline and harmonize resources, processes and workflows with our optimization tools

SHORTER TIME TO PAYMENT

Minimize delays and idle time for quicker care delivery

MANAGE PATIENT THROUGHPUT

Control and direct patient flow

COMPLEMENTING YOUR EHR

Full interoperability with incumbent EHR

Q-Flow® is offered in different packages per target use as following:

ENTERPRISE SUITE

Q-nomy's Q-Flow® is a track proven, robust and flexible platform for planning and handling in real time any kind of patient related visit, task or workflow and for optimizing them with regulations, procedures, resources, staff and SLA's.

EMERGENCY DEPARTMENT

Q-Flow® for ED integrates key features like pre check-in and check-in options as well as automatic workflows to perform an optimized patient flow, while keeping all your patients informed throughout their journey.

OPERATING ROOM

Q-Flow® OR Management empowers your OR operations to optimize planning of surgery scheduling with resource and staff utilization, and to manage in real time the execution of your plan with a full 'Day of surgery' management and patient flow control.

DAY CARE

Q-Flow® customized solution facilitates the patient journey from pre-scheduling to discharge, with a significant reduction in waiting time and increased patient satisfaction. Q-Flow's treatment plan scheduling and care path automation enable the day care facility to excel in patient throughput while enhancing staff control and focusing them on taking care instead of being care takers.
