

# The World's Smartest Integrated Learning Placement Solution for Universities

InPlace is a web-based solution that connects students with the workplace through easy-to-use and flexible management software.

Improve the student experience with better outcomes through a more tailored and involved solution

Save time by simplifying the placement process for students, universities, and workplaces

Control costs by optimizing resources to avoid wasting time and money

Gain full visibility and control of actions for accurate reporting and output

## Smart Functionality

- Rules-based allocation
- Opportunity-based selection
- Student self-selection
- Self-arranged allocation

## Smart Interface

- Integration with existing university systems
- Web-based solution
- Responsive design optimised for widescreen, tablet, smartphone

## Smart Flexibility

- Customization solution for all disciplines
- Extensive one-touch reporting options
- Cloud or local hosting

## Excellent flexibility

"The flexibility of InPlace enables it to handle multiple placement models. This was a key factor in the selection, and was proven by the efficiency of the rollout and the functionality available in the product."

*Mark Westerman, WPL Systems Manager, Office of the Deputy Vice-Chancellor, Charles Sturt University*

## Smart choice

"Quantum's willingness to invest in the product and the speed with which it has improved in the last two years confirms that InPlace is a sound choice for our university in the long term."

*Marlene Pitman, Director, Student Administration and Systems, Flinders University*

## Save 1,000's of hours

"The automated allocation tool alone will save us hundreds of hours every year whilst helping get an optimum match between students and placements."

*Joanne Cameron, Faculty of Health Sciences, National Clinical Co-Ordinator, ACU*

InPlace has won every public tender for a university integrated learning placement system in Australia since entering the market in 2010.

RMIT is the largest tertiary education provider in Australia, and is a big advocate of work integrated learning. InPlace is being rolled out university wide across 24 schools in the 2014 calendar year.

Kings College London (KCL) is a QS ranked top 20 university in the World. InPlace is deployed into several Health schools including the prestigious Florence Nightingale School of Nursing and Midwifery.

Nottingham Trent University (UK) has a strong employability focus for its students and maintains one of the UK's best university employability records. InPlace is deployed university wide in an advanced placement program.

Flinders University is a highly regarded university in South Australia, and has established a reputation as a leading research institution with a devotion to innovation. InPlace has been deployed university wide.

La Trobe University in Victoria helped start the InPlace journey being our first client. InPlace is used enterprise wide across metropolitan and regional campuses.

QUT has been ranked as Australia's best university under 50 years of age by the Times Higher Education Top 100, and ranks 26th globally in that category. QUT prides itself on its delivery of 'real world learning' which is integrated into all courses throughout the university and managed by InPlace.

Deakin University is a much awarded Victorian University, including winner of 'Outstanding Technology in Education'. InPlace is deployed university wide and in the interests of student equal opportunity uses the Self Select placement model.

Charles Sturt University is a multi-campus university located throughout regional New South Wales. Due to the challenging spread of campus's CSU is very innovative in their use of collaborative technology and has deployed InPlace University wide (30 disciplines across 8 Campuses) as part of their workplace learning initiative.

InPlace is deployed through several Faculties including Health where post deployment UoC have restructured the placement team to be a centrally organised unit, reducing size and removing the workload from academics.

JCU is located in northern Queensland, and has deployed InPlace university wide for all work integrated learning. The School of Medicine deployment is currently underway.

The University of Hull acquired InPlace to assist with the management of trainee teacher placements following identification of problems with monitoring and assessment of student performance in placements. Following successful deployment in the Education faculty the university moved quickly to extend use of the system to Health and other areas of the University.

A very highly regarded university in Northern Ireland, boasting a top 10 rating in popularity by student applications and post degree student employability. InPlace is deployed through several well awarded schools within the Health faculty.

ACU Faculty of Health includes Australia's largest Nursing school amongst its five disciplines with campuses in Melbourne, Sydney and Brisbane. InPlace is deployed through all schools within the Faculty of Health and the School of Education managing in excess of 20,000 placements per annum.

Highly rated in the UK for student satisfaction, the University bought InPlace to support its comprehensive work integrated learning program across all schools.

The Leeds Metropolitan deployment was a coordinated roll out into 5 universities in the York and North Humber Trust, of which placements in the region are shared and centrally managed by Leeds Metropolitan University. LMU are now in the process of deploying InPlace university wide.
