Integrate Organize Analyze

BIAdvantage™

Spend YOUR TIME ANALYZING Data,
NOT
COLLECTING IT

BIAdvantage™ is a cloud-based SaaS BI Solution that integrates critical data to enhance data-based business decisions.

- Azure-based multi-tenant setup, not a point-to-point solution
- Flexible and driven by business rules set by you, not dictated by the software
- Integrates data with other line of business systems and performs quality assurance and data validation
- Provides outputs in customer-specified formats
- Scalable to enable additional integrations:
    - ERP
    - CRM
    - Agile
    - ITSM
    - And any other

What you get!

- Integration hub rather than a portfolio of point-to-point interfaces
- Azure-based security
- Azure scalability and latency
- Supports "single source of truth" application architecture
- Proactively monitors data for process compliance and abnormal conditions
