SHIELDOX

OFFICE 365 & SHIELDOX AUTONOMOUS INSIGHTS

Work on the cloud needs solutions that are smart, simple, and fast enough to keep up. The modern workplace has given organizations the power to grow and move business forward faster than ever before. Office 365 has made it possible for employees to collaborate and work anywhere they are, and innovative security solutions have brought unprecedented visibility to cloud sharing.

THE MODERN WORKPLACE HAS NEVER BEEN MORE SECURE

Office 365 and Shieldox Autonomous Insights gives organizations a unique cloud security solution to automate and simplify security. Autonomous Insights make sense of cloud sharing to tell threats apart from collaboration, driven by AI that understands information context.

BENEFITS

Understands the context of all business information to make sense of visibility

Works and learns out of the box to save time and work

Accurately pinpoint threats in Office 365 without disrupting work

Stay ahead of critical exposures, even beyond your walls

Collaborate smoothly by protecting just what needs protection

See better, act faster

Office 365 & Shieldox Autonomous Insights understands information motion, then maps exposures and risks on the Radar. Motion is defined by who's sharing and receiving the information and what kind of information is moving. Organizations will see risky exposures pinpointed in one simple place, with zero changes to how anyone works.
