BEHIND A FINGERPRINT
THERE IS A WORLD
OF MANAGEMENT AND INTEGRATION

www.geovictoria.com

What do we offer to our clients?

Time and Attendance Tracking Management for your enterprise.

- 100% online software.
- Legal notifications. Different ways to register attendance.
- Alternatives without initial investment.
- Track your employees time and attendance in real time.
- Integrable with HR and ERP softwares.

We have several ways to register your attendance information:

USB

Marking through fingerprint reader

BOX

Biometric clock with fingerprint reader and printer

APP

Smartphone app for field workers

CALL

Marking through a telephone call

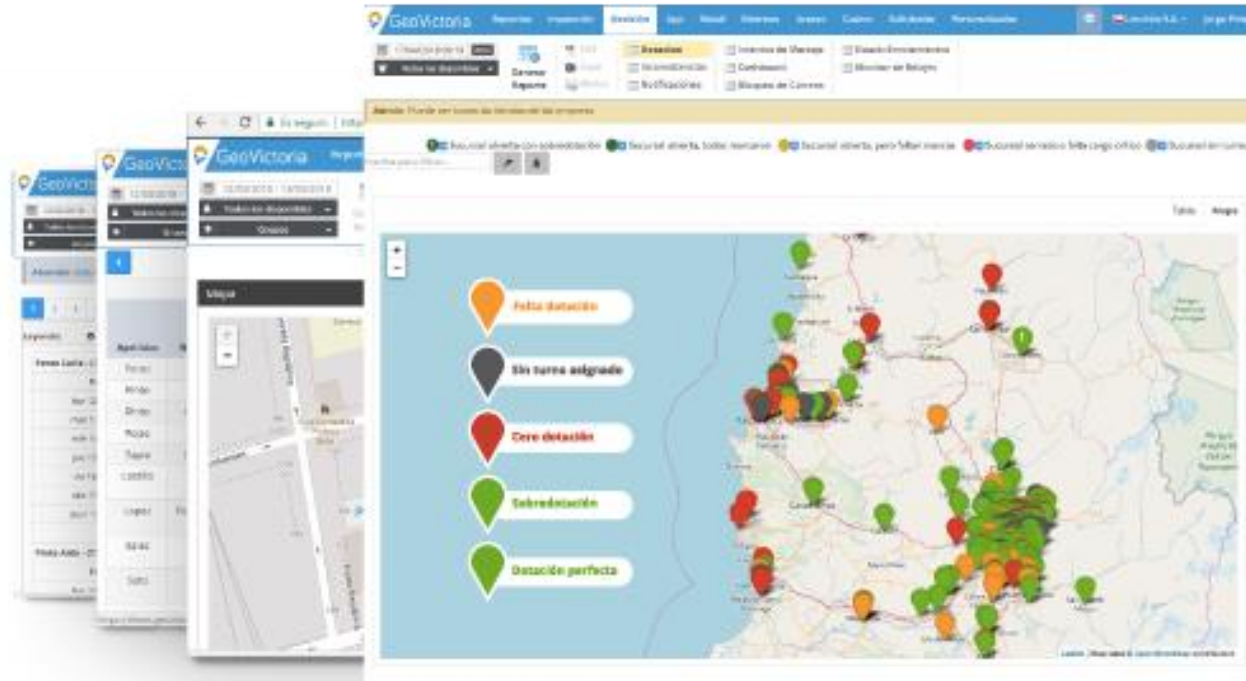

TRACKING USE OF BIOMETRY

Thanks to our different ways to marking, which adapt to your budget and needs, you can not only track attendance, delays and overtime at different levels, but you can also collect information about your workers and their habits, in a completely automated way, helping you to control the risks of non-compliance, while improving the productivity of your staff.

We use the equipment with the highest standards of safety and quality, which not only deliver information in real time (with statistics and indicators), but also help to prevent fraud and alterations, thanks to the reliability of biometric systems.

Over 25 reports

Anytime, anywhere

Always alert
