# CAS Modules

---

Our CAS software is modular and consists of the following elements, which you can combine to suit your needs:

## Master Data Management

Clean up your existing database, streamline input and share information

## Declarations Management

Automate formalities to avoid waiting time for your shipments

## Special Procedures

Implement complex inventory-managed customs procedures to save on duty costs

## Origin Management

Manage Free Trade Agreements to optimize your trade lanes

## AEO Management

Eliminate spreadsheets with our online collaboration tool

## Dual Use Classification

Our online questionnaires will save you hours sifting through legislation

# Your partner for innovative customs

Enabling the customs manager to deliver better insights in trade and compliance patterns

As Compliance should not stop with fulfilling legal requirements, the opportunity is also to support strategic goals!
