

EVEREST

Benefits Guide

MIS Benefits for Teachers:

- ✓ Modern and efficient User Interface for the SIMS MIS system
- ✓ Using Everest teachers can efficiently perform daily classroom tasks such as taking attendance, setting Behaviour, Achievements and Communications
- ✓ Reduce classroom administration time by up to 60%
- ✓ Your teachers will have more time to spend on teaching and learning activities.
- ✓ Rapid access to all important student MIS and LMS data such as grades, timetable, contact information, and attendance history.
- ✓ Timetable and any updates (including cover) from the SIMS MIS system are automatically reflected
- ✓ Communicate with parents, students, sports teams or clubs via e-mail or in-app notifications that automatically appear as an alert on the phones home screen – no need for SMS!!
- ✓ Enterprise Search capabilities across the entire school and MIS and LMS platforms

LMS Benefits for Teachers:

- ✓ New LMS features are provided to the teacher in an efficient, easy to use application
- ✓ LMS features include gradebook, curriculum management and homework delivery
- ✓ Virtually no training required with this highly intuitive interface
- ✓ Gradebook module allows teachers the flexibility to enter grades as they mark the homework, whether this is at home or in the school
- ✓ Gradebook marks and results are written back to the SIMS MIS system
- ✓ Video on-demand Training is available for the Gradebook module
- ✓ Curriculum Management features include Lesson planning and bulk scheduling
- ✓ Homework features include electronic delivery of material including documents, instructions, web links and this can also be bulk scheduled
- ✓ Everest fosters collaboration between teachers by allowing the creation and re-use of Lesson Plans, Homework, and File and Web Link Resources within the school

Benefits for Parents:

- ✓ View your child's Homework – including subjects, due dates and all supporting material
- ✓ View your child's Achievements – merits, house points and other awards
- ✓ View your child's Behaviour issues – feedback from teachers 'real-time'
- ✓ View your child's Attendance for the week, month, term or entire year
- ✓ View your child's Timetable – including extra curriculum and sports activities
- ✓ View your child's subject grades – real-time awareness of marks or effort
- ✓ View your child's school reports – present and historical
- ✓ Everest works with multiple schools so that you can easily switch between children

Benefits for Students:

- ✓ View your Homework – including subjects, due dates and all supporting material
- ✓ View your Achievements – merits, house points and other awards
- ✓ View your Behaviour issues – feedback from teachers ‘real-time’
- ✓ View your Attendance for the week, month, term or entire year
- ✓ View your Timetable – including extra curriculum and sports activities
- ✓ View your subject grades – real-time awareness of marks or effort
- ✓ View your school reports – present and historical

Infrastructure Benefits:

- ✓ Low cost remote access solution for staff thus eliminating the need for expensive Microsoft & Citrix licenses
- ✓ All data is synchronized (two-way) in a highly efficient and secure manner so all MIS data is retained in the SIMS database
- ✓ Everest replaces multiple niche applications thus reducing the number of 3rd party applications that need to be managed and supported
- ✓ Leverages Azure and Office 365 for authentication providing a single sign-on experience
- ✓ Supports Facebook and Google authentication for Parent registration which offloads user creation and management – no need to reset Parent’s passwords!!
- ✓ Everest is supported on a wide range of Apple, Android and Windows platforms including tablets, smartphones, laptops and PCs making it a truly multi-platform application

Infrastructure Benefits:

- ✓ Everest utilizes both push notification and emails to help your staff engage with Parents and Students regardless of the devices used
- ✓ Everest holds metadata for non-critical LMS data but all critical MIS data is written back to the SIMS database
- ✓ Everest implementation is very straightforward and just requires a new Windows 'service' to be installed on the SIMS platform
- ✓ Implementation is typically achieved within 4 hours or less and the entire on-boarding of Everest can be done in less than week
- ✓ Everest is secure and highly available and runs in the Microsoft Azure Public Cloud
