The Mobile Diary for Construction

The Awesome Digital Job Diary!

Empower your foremen, contract managers and building site staff by connecting them digitally with Lanes, the surprisingly smart mobile diary

Create Job Diaries

With the Lanes app, foremen, contract managers and building site staff can create job diaries to keep track of the work being done.

Capture Information

Capture construction activities in the form of pictures, videos, documents, measures and more at the palm of your hand.

Share job diaries

Share your job diaries with all the job actors such as work supervisor, foreman, and dispatchers from the Lanes app so that they are aware of the job's progress and completed tasks.

Lists and reminders

You can create a to-do list and add reminders for your job teams so that you can get things done easily!

“Intuitive, stylish and effective: create smart job diaries and more!”
