

M-FILES FOR PROJECT DOCUMENT MANAGEMENT

Supporting the entire project lifecycle from initiation to closeout

Benefits

Enabling organizations with:

Competitive Market Positioning and Reputation

Optimize project planning, execution and delivery with improved document management. Customers will be happy having what they want delivered on time and to specs, thereby boosting reputation.

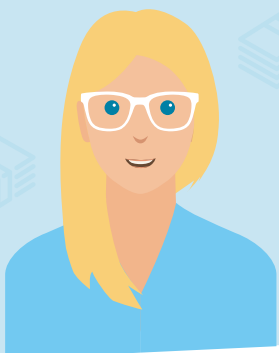

Increased Quality and Decreased Risk

Automated features ensure that business processes run more efficiently and with less human error; thereby increasing quality and consistency throughout the organization.

Expedited Project Lifecycles

No more delays or penalties due to poor document management. Processes like setting up project documents, compiling information about documentation statuses, and closing out projects can be easily automated with M-Files for better efficiency.

"M-Files has become a true enterprise-class solution for us. We have saved the equivalent of 900 trees and \$1.5 million to date." - thyssenkrupp

"With M-Files, we've increased our on-time delivery rate of our projects by 25%."
- Open Range Engineering Services
