Consulting

Optimize and accelerate your sales processes through increased standardization and automation with CPQ for Dynamics 365

## Our Managed Solution CPQ for Dynamics 365 offers the following core functions:

- Intuitive Product and Quote Configurator
- Complex pricing or price calculation
- Bidirectional interfaces to leading ERP systems
- Full integration in Dynamics CRM with its standard entities (opportunity, quote, order, product, price, units of measure)
- Usable in the Cloud, private Cloud or on-premise
- The solution can be set up for specific industries

Our solution offers the following added value to your customers, employees and your company:

- Reduce ordering and processing errors
- Reduced configuration, quotation and ordering times
- Shortened training and introduction period for new employees
- Time saving for sales staff
- Simplification of the creation of an individualized product
- Improved tailoring of products to the needs of customers
