> Family Services Division, Virginia
> Department of Social Services

You're doing everything you can to keep children safe and families together. You need a solution that works as hard as you do and the way that you do.

mCase is a unique and purpose-built human services platform completely configured for child welfare. It lets you support clients in the office and out in the field, using mobile devices and the web, with an easy-to-use, flexible, and comprehensive case management solution. mCase supports even the most complex of scenarios and works with diverse practice models.

mCase for Child Welfare
Created by experienced social workers and leading engineers as passionate as you are about children and families.

An entirely new approach

mCase empowers you to go beyond managing cases.

Prevention Emphasis. Plan, implement, manage, and track evidence-based programs.

Strong Families

Family Focus. Map family structures, discover and locate relatives, and obtain case insight to strengthen the family and identify opportunities for kinship care.

Informed Decisions to Enhance Well-Being. Make critical decisions faster based on proven models to minimize additional trauma.

Support Youth in Transition. Manage foster care extensions for young adults and perform real case planning to help transitioning youth thrive.

Creating and supporting a healthy and stable child welfare workforce

Child welfare work is demanding. Other child welfare software programs are designed one way – to fit the needs of their creators. mCase is designed around you, so you can spend more time improving the lives of children, families, and others in need. Others focus on data capture and workflow. mCase is tailored to you, your policies and practices, and how you work because each organization is unique.

The result is a solution that provides you with the information and capabilities you need to excel. You will finally have a tool that supports you, in the office and in the field, doing what you do best.

Valuable, comprehensive features

A rare breed.

mCase is backed by the deep expertise of RedMane, a company with two decades of experience implementing systems that keep children safe, strengthen families, and help those in need. And RedMane does it by working side-by-side each client so each solution fully meets their unique needs and is well received by their entire workforce.

RedMane has moved us forward in many areas and is a great partner to have as part of your team."

Pat Cason**,** Program Manager
Louisiana Department of Children and Family Services (DCFS)

"We are partnering with RedMane Technology to bring our caseworkers state-of-the-art capabilities so we can better serve mothers and children."

Tara Petti**,** CEO of the Southern Network
Manitoba

"We appreciate the partnership that we have with RedMane. They stood with us at a very difficult time and used their expertise to provide a solution that we desperately needed."

Felecia L. Blyden**,** Commissioner
Department of Human Services, US Virgin Islands
