

Si-Net Srl

**KURO
PORTAL**

Si-Net

Customers are moving to the Cloud and require a proper solution to manage and access documents in a secure way

Challenges

Si-Net customers usually work with large sets of documents and data that are organized in old-fashioned on-premises file systems. This is creating a number of issues and is seriously impacting their productivity

The number of problems being generated by this situation is very high: from the vulnerability to viruses and threats to the high difficulty of accessing documents from outside the office to the need of data backup that is usually not present or not always

Ideal Solution

Customers in the market of Si-Net were looking for an integrated and fully secure solution providing organization and security to their data, independently from their on-premises systems

Some customers were already abandoning their on-premises systems and were looking for an integrated solution when Kuro Document Portal was launched

Desired Outcomes

Customers want a solution where their documents could be secure and accessible at all times from any device

We are starting to introduce the product and customers feel reassured on their needs

Access from any time from any device is by a long time on top of all customers requests and security became very important as well especially after recent episodes related to cyberthreats

Si-Net Srl – KURO DOCUMENT PORTAL

Your documents will always be available, secure and easy to access

The Best File Manager

- Kuro Document Portal is the best way to access clients file from the Internet with no time latency and with a proper organization of all company documents
- Kuro Document Portal is available in two versions: Web and App-assisted

Accessible and secured

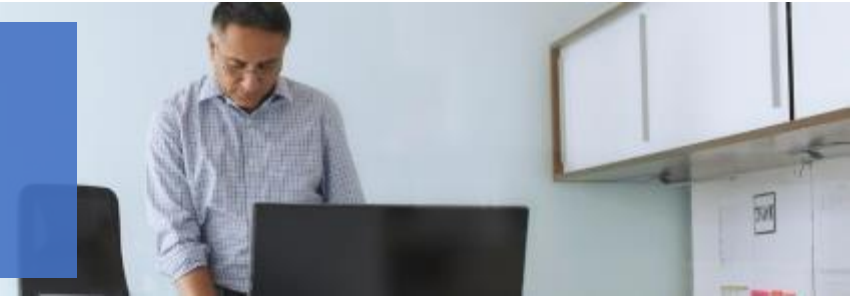

- All documents can be accessed by a maximum of 5 devices included in the basic price
- All documents are stored in a secure place and defended against security threats

The Portal to the World

- Kuro Document Portal can be upgraded to the Business Portal version that gives access to a real Intranet and to an Extranet for internal users and customers or suppliers
- Access to documents is managed via access control systems

KURO Document Portal and KURO Business Portal are two fundamental tools for any company wanting to do business in a modern and productive way

Si-Net – KURO DOCUMENT PORTAL – SharePoint

Kuro Document Portal and Kuro Business Portal are 100% based on the unique value propositions of Office 365

Solution Alignment

With Kuro Document Portal documents are securely stored in OneDrive

Kuro Document Portal exploits the technology of One Drive in order to provide security and cloud storage in a unique place

Productivity is ensured by a full integration with Office 365 applications

Kuro Document Portal and Kuro Business Portal are fully integrated with Office 365 applications and with Kuro 365

The “Portal to the World” concept is ensured by Microsoft Share Point

Microsoft Share Point empowers Kuro Business Portal by creating an infrastructure dedicated to share documents outside the company or with employees based on advanced business functions

Customer Success Story

Customer testimonial: "Kuro Document Portal has been the second great improvement of our systems after Kuro365 since it has enabled a seamless management of our huge documents library. We can now access our documents from everywhere and the library is organized as we wished and it is managed according to our rules".

Win Results

Creating a shared library of 4Plays documents:

We now use in full cloud mode our library of documents and everybody is referring to pieces of this library as if we were all working in the same room, while we are all split in several working groups at clients sites

No fear of documents duplication:

Documents are available for anybody at any time and we can share our work in a seamless way, without any fear of duplicating documents

Increase of our agility and productivity:

With Kuro Document Portal we are free to work at the same time on the same customer deliverables and we can face the most challenging deadlines by working in teams
