

Windows Server and SQL 2008/R2 end of support

Extended support for SQL Server and Windows Server 2008 and 2008 R2 is coming soon. Microsoft will no longer release security updates, which may expose you to security attacks or make you out of compliance with industry regulations such as GDPR. Avoid business disruptions and use this as an opportunity to modernize your environment in Azure.

SQL Server 2008 and 2008 R2

Extended Support
Ends July 9, 2019

Windows Server 2008 and 2008 R2

Extended Support
Ends January 14, 2020

WHAT THIS MEANS FOR YOU

No security
updates

Compliance
concerns

Innovation
opportunity

Move to an intelligent Azure cloud with few or no code changes

Save up to 55%

with Azure Hybrid Benefit when running Windows and SQL Server in Azure
