

## Safely Open files, emails and web sites you don't trust

Are you worried about:

- Ransomware or other malware attacks destroying your digital life or business?
- Clicking on links or opening files that might be malicious?
- Opening items you don't trust on your computer?

Are you curious about new places on the web and want to be safe while you explore?

With a Safely Open subscription you can open digital content you don't trust.

Easily upload emails, files and links you don't trust onto our quarantine computers running in the cloud and take a look without any risk of compromising your system.

### How our service works

You choose what you want to Safely Open. We do the rest.

A brand new, isolated computing environment is created each time that is nowhere near your system. You can see and view these items in the Safely Open service without risking your computer or data.

Once you have viewed the item with Safely Open you can work out what to do with the content on your computer.

*There is no software to install – get started right away*

### Forward emails that you don't trust to a private Safely Open email address.

Forward the emails with links and attachments in to your private Safely Open email address.

The emails you send are held in your Safely Open inbox. Open them in a Safely Open session when you are ready.

## Copy and paste a link you don't trust into Safely Open.

A Safely Open session will be started and a browser in the isolated environment will take you to visit the site.

Once you have visited the site on Safely Open you can decide whether it is safe.

## Upload files you don't trust.

Drag and drop files or select files to upload. The files are immediately available in a Safely Open session.

Supported file types include: Microsoft Office formats, Zip files, PDFs, Media files.

## Individual pricing plans

Individuals can choose between three different pricing plans. Payments are made online.

USD per month	Individual user
Usage credits for 20 sessions (Top up)	5.00
1 month plan	20.00
12 month plan	10.00

## Corporate pricing plans

Corporate pricing plans are available. Payments are typically made via invoice.

USD per month per active user	5 to 10 active users	10 to 100 active users	100 to 500 active users	Over 500 active users
6 month plan	15.00	12.00	8.00	7.00
12 month plan	9.00	7.00	6.00	5.00

Corporate rollouts are supported by our active user billing. Our plans enable Safely Open to be offered broadly within your user community.

Corporate plan renewals are based on the average total number of monthly active users measured over three months.

As an example, the table below illustrates a rollout that grows the total number of registered users to 120. The total number of active users in months 3 to 5 averages 65. This would be the active user count for the renewal period commencing in month 7.

Monthly reporting	Month				
	1	2	3	4	5
Total registered users	60	80	100	110	120
Total active users	30	50	70	60	65
			Total active users averages 65
