

IMPROVE YOUR CULTURE. ENGAGE YOUR EMPLOYEES.

When employees are disengaged, they checkout and when organizations don't improve, they stagnate.

Our solution:

Teamgage is **culture improvement software** that regularly **engages employees** to **own and drive the improvement process**.

Employees provide feedback on **metrics important to the organization**, generating **real-time results** that allow the ELT, leaders and teams to discuss and record actions leading to **improvements**.

It is trusted by **Fortune 500** and **ASX 100 companies**, along with the **Australian Government**.

Clients can be **rolled out in as little as 4 weeks**, with over **96% renewing** or **expanding** their subscription.

Why customers use Teamgage

- Quick, ongoing, current insights, compared to a slow annual survey
- Drives change and embeds your values with employees
- Gives employees a voice, particularly those in remote locations
- Aids engagement and retention
- Identifies teams working well/not so well, encouraging best practice

Easy to implement and use

- 20 seconds to submit
- Clear, actionable reporting
- Teams manage their own improvement process
- No consultants required

Motivate teams to improve from the bottom up

Built to get results

- Bias towards educated actions
- Uses an agile, continuous improvement model
- Focus on results that are important to your organization

Start improving from day 1, iteratively and with lower risk

Ready for enterprise

- Built on enterprise-grade infrastructure and security with **Microsoft Azure**
- Can integrate with enterprise HRIS
- Export to **Power BI, API** available

Made to fit with your organization

"Teamgage has proven itself as a powerful platform to empower teams and give everyone sight of how they can further collaborate, improve and live the OZ Mineral values every day. Management also now have an increased ability to temperature check and respond quickly to address any emerging issues."

Mark Rankmore, Head of HR and Services, OZ Minerals
