Introducing the Ultimate in Microsoft Office 365 Management & Productivity

Efficient Office 365 management depends on having access to the right information, at the right time and in the right context, through a single pane of glass.

From Office 365 reporting to onboarding, audit and compliance, and driving proactive management actions, insight from data is key to success.

This is where you need TransVault InFlight.

With AI, anomaly detection and workflow at its core, the InFlight platform will revolutionize the way you manage your Office 365 and hybrid environment with:

- Office 365 mailbox, file and archive onboarding
- Free Office 365 reporting
- Auditing and compliance
- Monitoring and alerts that leverage machine learning
- Service desk integration
- Overall operational management and automation

Contact TransVault today to arrange a demo or to access Free InFlight Reporting and other InFlight modules.
