

SMARTER MATERIALS TRACKING

Fabrication Progress

Reduce cost of expediting and improve your schedule management.

Materials Transport

Maintain material traceability from supplier to site and everywhere in between.

Over Damaged & Short Items

Provide immediate visibility and take action on any delivery discrepancies about over, damaged & short items.

Lay down Yard Management

Digitise stock takes and lay-down yard management to reduce administration costs and materials loss.

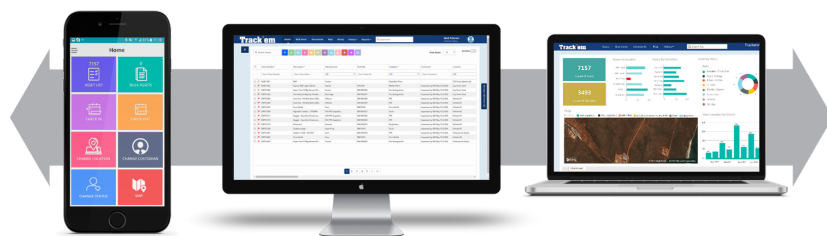

Materials Requisitions & Issuing

Avoid wastage of time looking for unavailable materials and keep track of requisitioned & issued materials.
