

OUT-OF-THE-BOX

Pre-Configured with 10,000+ Keywords, Conditions, Regular Expressions, and More

Aware by Wiretap’s pre-configured capabilities help your organization start gaining valuable insights on Day One. Launch quickly with out-of-the-box policies, and refine as you go to meet your organization’s needs and standards.

6 Custom Policies

Tackle compliance issues like PCI, PII and PHI right out of the box. Use additional starter templates for common HR, Security, and Confidential Information related topics.

19 Specific Rules

Each policy has a tested combination of specific rules, fine-tuned with a high signal-to-noise ratio – making your first day with Aware as simple as can be.

100+ Conditions

Start off with over 100 reusable conditions that can apply to any rule. Create, edit, and delete them as you see fit.

What’s Inside a Condition?

Conditions are created using tens of thousands keywords, regular expressions, & common file types.
