

INTRODUCING

The next generation of MIG's delivering the latest in cybersecurity, responsiveness and affordability.

What is Firewall as a Service?

Firewall as a Service (FWaaS) is a next-generation secure internet gateway delivered via Azure or TPN. Providing customers with a secure internet connection for their private network, FWaaS offers businesses a significantly more cost-effective alternative to access market leading protection. Hosted in Microsoft's Azure data centres or TPN VNF farms and featuring Sinefa to provide real-time visibility to improve application performance and control, FWaaS is a scalable solution capable of servicing a broad range of businesses regardless of size or requirements and without compromising on availability.

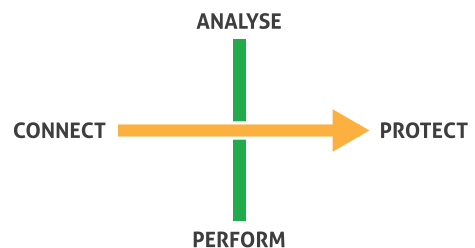

Why does my business need it?

Cyber security is necessary for a business to prevent and defend against fraud, hacking, theft and many other serious threats that can damage and cripple business activity. These hostile organisations continue to evolve and are fast requiring stronger and smarter tools to guard against attack.

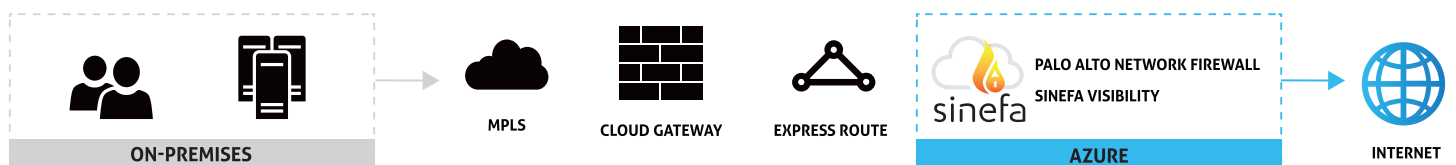

Azured's Firewall as a Service offers businesses a solution for secure internet access over Telstra's next generation network. Delivering peace of mind, Azured deploys and manages its Firewall service; offering a complete end-to-end solution protecting your business from the ever-evolving cyber threats and predators.

Features & Benefits

- Market leading Firewall protection (Palo Alto Networks)
- Instant insights. Real-time - One-second, Layer 7, deep packet inspection
- Greater service availability
- Improve application performance and site based internet bandwidth control and prioritisation, through easy traffic shaping by Active Directory [AD] groups, VLANs and more.
- QoS to the Edge
- Custom dashboards for easy reporting
- Benchmark the performance and health of applications to industry and geographic performance indexes

What can FWaaS + S offer?

Starting from as low as \$1,884 per month, FWaaS + S delivers a NextGen Managed Internet Gateway from Microsoft Azure or TPN including Visibility, 24/7 support, self-service, prioritised network traffic and unlimited changes by our security engineers.

	FWaaS + S	MIG	IPVAS	GPA
Theoretical Maximum	1 Gbps	100 Mbps	100 Mbps	600 Mbps
SLA	Up to 99.9%	99.9%	99.9%	99.9%
Support	24/7	24/7	24/7	24/7
Self Service Portal	Yes	Yes	Yes	Yes
Moves, Adds, Changes,	2-5 days, unlimited guided updates	IBM, 5 days, 2-8 per month	FNC, 5 days	FNC, 5 days
SSI VPN	0-500	N/A	0-100	0-30
Site to Site VPN	1000, 700 Mbps	N/A	0-15	0-30
Threat prevention	Yes	No	No	Enhanced +
URL Filtering	Yes	Yes	Yes*	Enhanced +
Zero Day Protection	Yes	No	No	Premium +
Real-time visibility	Yes	No	No	No
Application performance monitoring	Yes	No	No	No
Site based bandwidth allocation and shaping	Yes	No	No	No

FWaaS + S options

Hosting Grade	DR Coverage	Platform H/A	Application on H/A	SLA	Monitoring Dashboard	Support	Request Turnaround	Request Window	Rapid Response
FWaaS+S Enterprise+	Standard	Standard	Standard	99.95%	Ultra (PowerBi + PRTG)	24/7, 20-minute response	1 Day	90 Minutes	3 Escalation x 2 hour response
FWaaS+S Enterprise	Optional	Standard	Standard	99.95%	Ultra (PowerBi + PRTG)	24/7, 30-minute response	1 Day	75 Minutes	2 Escalation x 2 hour response
FWaaS+S Enhanced+	Optional	Standard	Standard	99.95%	Ultra (PowerBi + PRTG)	24x7	2 Days	60 Minutes	1 Escalation x 2 hour response
FWaaS+S Enhanced	Optional	Standard	n/a	99.90%	Standard	24x7	2 days	45 Minutes	1 Escalation x 2 hour response
FWaaS+S Core	Optional	Standard	n/a	99.50%	Standard	8x6	4 days	30 Minutes	n/a
FWaaS+S Basic	Optional	Standard	n/a	99.00%	n/a	9x5	5 days	1 Major, 2 Minor Change*	n/a

FREE Service Consultation!

Make your business truly disaster-proof and down-time resistant.

For a limited time only, Azured is offering a complimentary DRaaS consultation and report when you upgrade your environment to FWaaS+S.

Contact us to learn more about what DRaaS can do for your business at info@azured.com.au.

Offer valid until 31st March 2019.
