

Want to Boost Growth?

Revolutionize the way you compete now

Majority of companies worldwide want to manage their field teams' efficiency. Ability to control how business is done in the field and reacting fast to changes in the market is crucial.

What is Repzone?

Repzone is a cloud based mobility platform offering increased agility, visibility, profitability and manageability in sales and data collection processes in the field.

Why customers use Repzone?

- Increased order volume and quality
- Increased team efficiency and collaboration
- Fast reaction to changes in marketplace

Be Predictive and Sell More

- Boost performance with real time business insights
- Increase sales volume with planned routes and prioritized products
- Get order suggestions that best fits to each customer

14% increase in number of issued orders

Connect and Collaborate

- Monitor all activities in the field over the map instantly
- Display your digital content (product catalogs, ads etc) to your target customers
- Communicate face to face to your teams and customers

Digitally connected customers and team members

React Fast

- See what your competitors are doing
- Design, customize and execute promotions on the fly
- Get any data through mobile forms designed for your needs

24/7 online with 99,5% uptime in the cloud.

Thanks to Repzone, we can now visualize our real time field performance through categorized instore photos and smart dashboards. With the customizable graphical reports, we can now set and monitor smart KPI's for our merchandising activities. Having a dynamic benchmark of our visibility in stores enables us to take better decisions and act faster.

- Levent Ertoğlu, Channel Development Manager, Hasbro Turkey
