

# Document Classification and Data Extraction Solutions

Advanced Artificial Intelligence and Machine Learning Architecture

- **Loan & Financial document processing is slow and error prone**
- **Axis-AI - reduces manual labor and increases turnaround**
- **Handle a higher volume of loan applications in less time while processing them at a lower cost**

## Axis AI – Document Classification and Data Extraction Solutions

A system that learns and improves using advanced AI and machine learning.

Avoids traditional scripting solutions that outdated and challenging to maintain.

LOB integration increases data quality and improves approval workflow automation.

## Azure Secure and Seamless Deployments

Build solutions quickly and cost effectively

- Pay for what you use
- Subscription based services
- Optimized for individual clients unique demands
- Designed and deployed to utilize the Microsoft technology stack

## Streamline Processing

- Utilizes large scale compute capacity
- Subscriptions are optimized for maximum ROI
- Isolates and protects client data

### Cost Effective

## Scale on Demand

- Axis Advanced AI Document & Data Factory is deployed to dedicated client-specific subscriptions
- Pay for only what they use, when they use it.

### Faster Deployments

## Decades of Document Processing Experience

- 1000's of Document Types already trained in the system
- Financial document processing subject matter experts
- No document too difficult to manage

### Greater Client Satisfaction

*"I have been waiting twenty-five years for this technology to arrive! This is really going to drive down our operational costs by allowing us to use fewer people at the data entry level and ultimately at the verification level too."*

- CEO – Major National Title Company

# Process More Documents with Higher Accuracy Cheaper, Faster and More Effectively

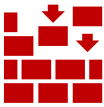

## Eliminate Manual Sorting of Pages

- Document Classification Automation
- Organize and identify document types 10x Faster
- Process more documents with same headcount

## Reduce Startup Time and Cost

- Hosting in Azure flexible and predictable
- Turn on service subscriptions on demand
- Reduce software operating costs – pay only for what you use

## Expand On Your Schedule and Budget

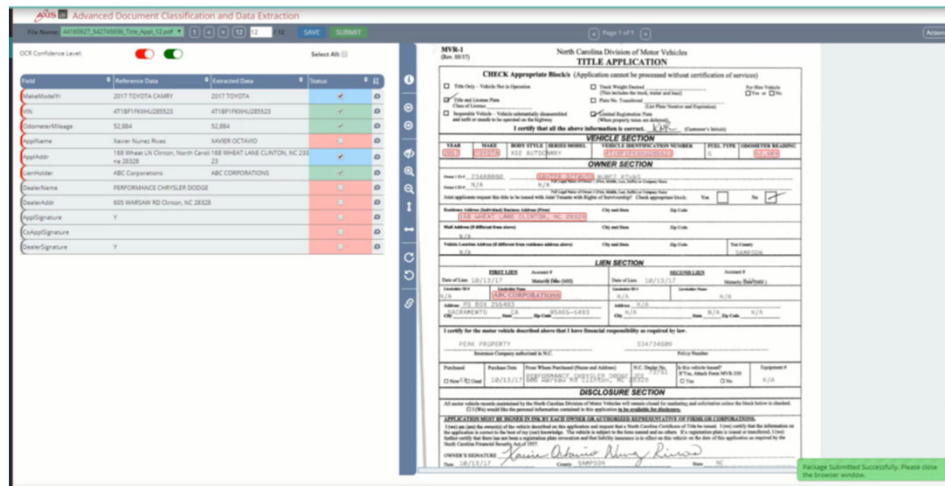

- Enable services when you are ready
- Start with only the services your comfortable and prepared for
- Scale and build on the platform on your terms, not the vendors

## Faster, Cheaper, Reliable Microsoft Azure Hosted

Trusted and Proven Performance

## Show Us Your Documents

- Developed against 1000's of document types and styles
- Forms, contracts, structured, semi-structured and un-structured document formats
- Built in the Cloud for the Cloud
- Artificial Intelligence – Real Results

## Have an Edge on your Competition

- By processing a loan applications, mortgages, credit applications faster, offers greater chance of winning the contract
- Reduce cost of processing the classification and extraction with greater accuracy
- Put your subject matter experts on challenging tasks, not mundane and costly operations that can be automated.

## Axis Technical Group – Decades of Experience

Offering a robust technology in an elegant, easy-to-use solution. Built on multiple sets of proprietary algorithms, including those used to conduct Natural Language Processing (NLP), Axis AI reads and derives meaning from sentences written in natural English. Orchestrated to work together with Microsoft Azure – producing unparalleled results.

While many companies use a "one size fits all" approach, Axis customizes services and solutions to the specific goals and needs of every client.
