# Launch a Digital Asset Exchange

Built on Solid Ground

Built by a team of veteran developers from DirectEdge, BATS, NYSE, and CME brokerages, AlphaPoint's platform leverages enterprise-grade security and can be taken live in under a month.

Secure, Trusted Platform

- Exchange data is safeguarded by layered architecture, insulating all customer assets and exchange internals
- Complete hosting solution secured by biometrics
- Robust risk management, real-time errorchecking, and support for KYC, AML, and 2FA
- Failover servers maintain full audit capabilities
- Trusted by the world's largest BTC/USD exchanges

Gateway	OMS	Asset Mgr.
