

## CHECKVENTORY FOR FLOORPLAN FINANCE PROVIDERS

### SMART Robust Vehicle Inventory Audits

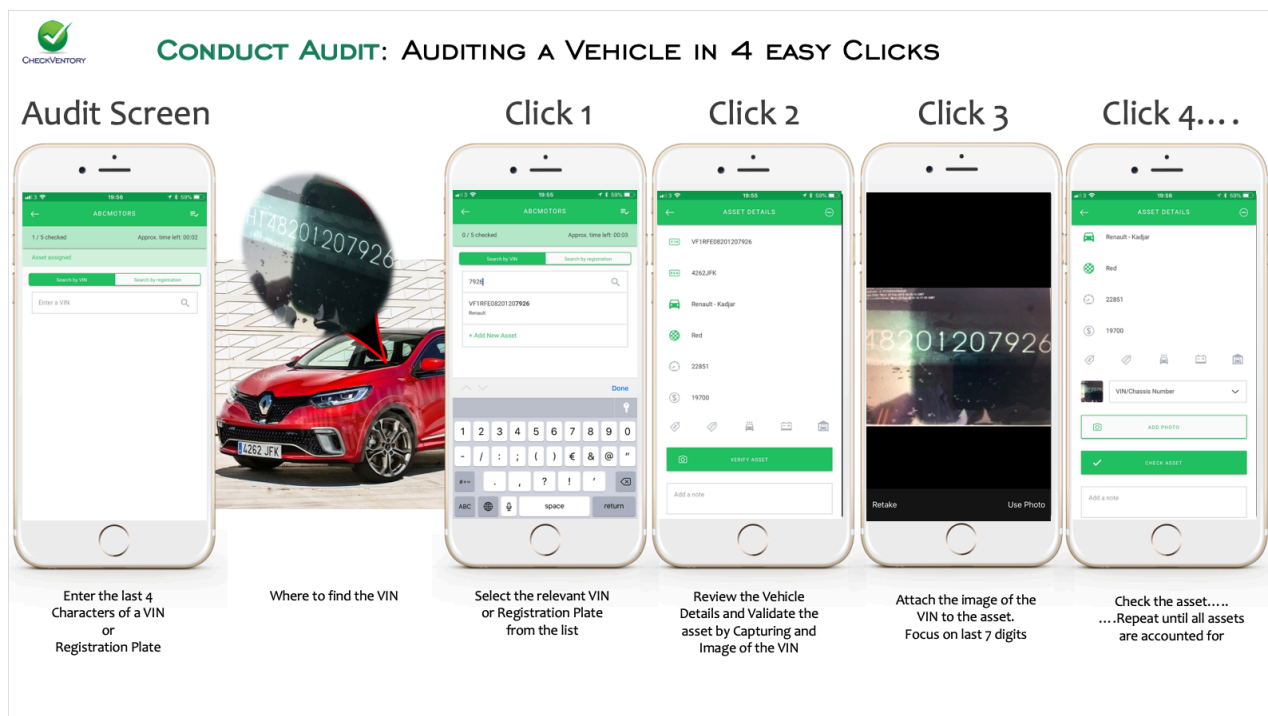

conducted by anyone, anywhere anytime.

CheckVentory is an integrated cloud based management platform to eliminate collateral and operational risk on vehicle inventory by validating each and every asset in stock lists.

#### Process

**Step 1:** Audits are created on the CheckVentory cloud based platform

**Step 2:** Inventory is checked (image/s taken) in each location using our mobile app.

Every asset is accounted for and analysed by our AI Powered validation platform

Assets that are not available for physical audit can be excluded with supporting images/s of documents and backup

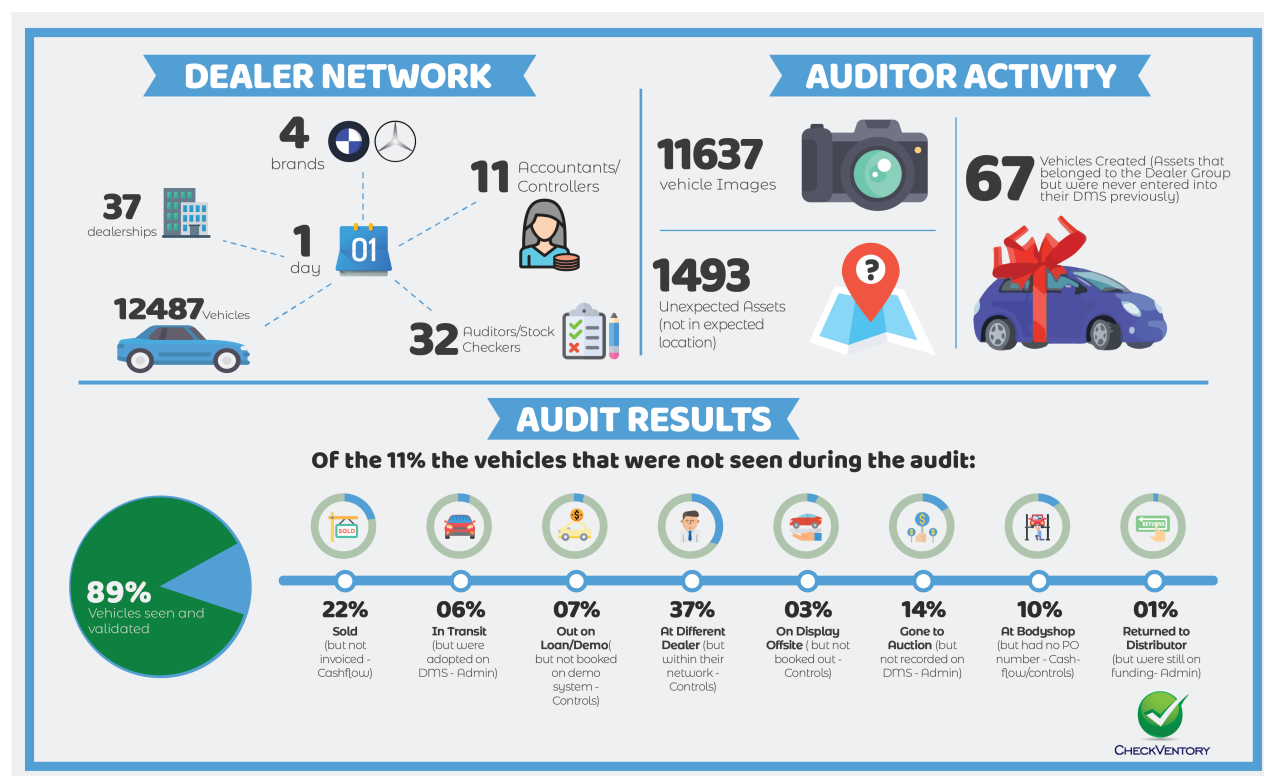

## CHECKVENTORY: VEHICLE INVENTORY AUDITING PLATFORM

Step 3: Reconcile, Validate, Approve and Report the audit on the platform.
