

# CONTROL YOUR CLOUD WITH 4WARD365

The most advanced Office 365 management suite

## END-TO-END VISIBILITY FOR OFFICE 365

The allure of migrating to the cloud is undeniable. Many modern enterprises have made investments toward their transition to Microsoft Office 365 and find themselves unprepared for the day-to-day management. Questions like, "how can I get the most out of Office 365?" leave organizations in a continuous search for a better way to control and manage user licenses and experience.

4ward365 helps organizations make the most of their Office 365 investment. 4ward365 is the only product capable of managing, controlling, and obtaining unique and valuable information across the entire Office 365 stack – even in a hybrid environment. Enterprises can tap into this single pane of glass view that allows for action-enabled reporting to increase control through user adoption campaigns, license utilization capabilities, and role based access control.

Manage the entire Office 365 stack – even in a hybrid environment
