SNAP SCHEDULE 365

ABOUT BUSINESS MANAGEMENT SYSTEMS

The engineering and software development professionals now running Business Management Systems rocked the small-business software world by winning five Microsoft awards for software excellence over four years of constant product enhancement.

This team's software line spread over five continents through a network of VARs. Intuit, IBM and Compaq became business partners and allies. A CNN Town Meeting broadcast described how their software and the Internet empowered small businesses to succeed against giants. The team's SMB solutions were acquired by the world's largest software company, and continue to expand to small businesses around the world.

From this heritage of development excellence Snap Schedule and Business Appointment Manager were born. No other company before or since has achieved those recognitions for the development of practical and useful business software.

PRODUCT HIGHLIGHTS

QUICK TO LEARN. EASY TO USE!

- Modern, responsive user interface reduces complexity and speeds up learning.
- Context sensitive menus make it easy to add, edit, and delete data records.
- Color coded shifts, time off reasons, and staff positions make it easy to organize assignments and identify shift patterns.
- One click dialing and e-mailing of work schedules put you in touch with your employees instantly.
- Multi-view schedule planner provides you with easy drag and drop scheduling and visual conflict alerts.

POWERFUL, FLEXIBLE, THOROUGH!

- Schedule virtually an unlimited number of employees, shifts, time off requests, positions, and locations. Create rolling work schedules - from days to years.
- Easily specify when employees are available to work, desired work hours, and labor law constraints.
- Find the right employees based on position, skills, availability, labor cost, work hour limits, seniority, and other criteria.
- See any over/under staff condition by position, skill, or assignment reason.
- Adjust the shift's scheduled start and end time to reflect the actual time worked and automatically report the hours and costs. Add notes and reasons to record or explain deviations.
- Schedule breaks and tasks in each shift.
- Specify how overtime pay is computed for work hours in excess of certain hours per workday, certain hours per work period, or a combination of both.
- Specify shift premium pay as a fixed amount per shift, a fixed amount per hour, a percentage of the employee's regular rate, or any combination.

EXTENSIVE REPORTING FEATURES

- View comprehensive reports in multiple categories. Customize standard reports to fit your needs and save them for future use.
- Filter, sort, and group report data in thousands of ways. Preview reports before printing.
- Drill-down on embedded hyperlinks for more details and make changes to the underlying data.

CLOUD-BASED INFRASTRUCTURE

- Built on Microsoft Azure cloud computing platform for reliability, security, and scalability.

With Snap Schedule 365's mobile accessibility, your employees have instant access to their schedules and a new tool on their mobile devices. Your employees can access their schedules, request time off, bid on open shifts, trade and pick up shifts, punch in/out, update availability, find information, catch up with coworkers, and more, no matter where they are.

You and your employees always know what's going on. It's simpler than ever.
