

ANZY

ANZY AI-INSIGHT

Many companies have data, but how do you make it valuable?

Challenges

The world's most valuable resource is data.

How do you extract value from your data, while saving time and resources?

How do you reduce millions of words to valuable insight?

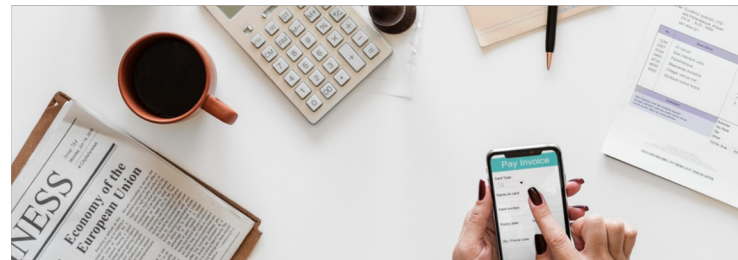

- **How can I get concrete and valuable information from my company's multiple data sources?**
- **How can I obtain a concrete system to understand my company's data?**
- **How can I use my company's data to make better business decisions and ultimately grow my business?**

Ideal Solution

- We help you analyze your data.
- We help you create value for your business.
- We help you grow.

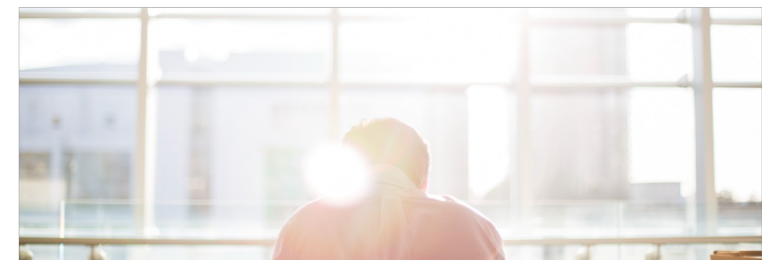

- **ANZY AI-INSIGHT analyzes any written data source in my company.**
- **As a customer, I will get a concrete and systematic overview of past, present and future trends of my company – all in one dashboard.**
- **Not only will I get answers to my questions, I will also be able to ask smarter questions.**

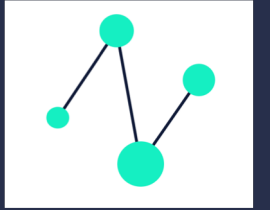

Desired Outcomes

- Save time and cost
- Solve your challenges, and start asking smarter questions
- Streamline your business and get a competitive advantage

- **ANZY AI-INSIGHT helps my company work more efficiently, by focusing on the things that really matter.**
- **ANZY AI-INSIGHT helps me get to the core of my company's challenges.**
- **It gives me the power to take action and go after new, exciting opportunities!**

The solution – ANYZ AI-INSIGHT

Analyze data with self-learning AI to uncover and extract value.

Key values

- Language neutrality
- Fast
- Accurate

What we do

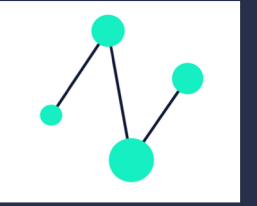

- Understand all languages, dialects and misspelling.
- Analyze data in seconds.
- Accuracy rate higher than 92%.

Customer value

- Easy access and structured overview of my company's data - in real-time.
- Understanding the past, present and future – all in one dashboard.
- I am able to utilize my data, solve my challenges and grow my business.
- "Plug and play"

"A thorough understanding of a company, its employees, its customers and products and its culture is a great help when it comes to shaping the future."
HANS VAN BYLEN CEO of Henkel
