Cortex Augmented Intelligence Platform

Cortex is the world's first industry-optimized augmented intelligence platform. Augmented intelligence technology delivers systems of intelligent engagement that replicate human-like cognitive abilities in software, such as memory, sequencing, perception, anticipation, problem solving, and decision making.

Cortex AI platform radically simplifies design, development, deployment, and management of enterprise-grade AI solutions across its lifecycle for each industry—from the design and composition of intelligent agents, to the orchestration and dynamic optimization of rich domain models and the curation of industry data that feeds into the models.

Learn, Build, And Deploy Faster Than The Speed Of Business

Deploy Augmented Intelligence systems that learn, adapt, and scale your enterprise in real time to constantly changing data, conditions, and events. Explore Industry optimized Cortex AI Systems that are ready to be deployed, or build yours using CognitiveScale Cortex Augmented Intelligence platform.

CognitiveScale's 10-10-10 method helps businesses configure and visualize their first AI System in 10 days, have it live and learning in 10 weeks, and pay for itself in 10 months.
