

# Upgrade Your Drop Ship Technology

*Grow, manage, and simplify your drop ship program*

Logicbroker provides a modern drop ship alternative, trusted by retailers including Kroger, Rite Aid, Sears, Coca-Cola, Dollar General, Rural King, and Fossil. Enjoy a high level of supply chain data automation, including inventory, acknowledgments, shipments/advanced shipment notices (ASNs) and invoices. Expand your product offering by opening up an endless aisle of inventory while eliminating the headaches associated with bringing products into a warehouse or third-party logistics (3PL).

- Modern, scalable cloud technology platform
- Flexible vendor integration options
- Secure, highly scalable, & hosted in Microsoft Azure
- Fast onboarding and implementation
- Predictable cost with no transactional fees
- Dedicated resources for onboarding and support
- Robust vendor performance management and reporting

## Challenges

*Before Logicbroker*

- Loss of drop ship vendors due to high ongoing monthly costs
- Lack of new features and connectivity for vendors
- Complex and highly manual operational support

*"Utilizing Logicbroker allows us to offer our vendors a cost effective, technologically flexible approach to the drop ship business, addressing key issues for both Sears and our vendor community."*

*-Beth Ligenza, Sr. Director, Online Operations, Sears*

## Benefits

*After Logicbroker*

- Migration of close to 1,000 drop ship vendors in less than six months
- Offer more connectivity options such as RESTful API and native connectors to vendors' systems
- Eliminate provider cost to vendors
