Hello work!

Unlocking labor market potential for everyone!

There is a shortage in the job market. Employers are having trouble filling their vacancies. Meanwhile there are still many unemployed people dependent on welfare. These people are mostly invisible to employers.

What is HalloWerk?

HalloWerk! is a matching platform for municipalities that directly connects people with a distance to the labor market with employers.

Why customers use HalloWerk

- More people finding work

- More self-service, less need for time of professionals

- Matches better suited to the interests of the jobseeker and the employer

- Compliant with privacy regulations

- Easy to roll out, scale up and modify to your needs

Secure and Private

- Safe and encrypted communication and collaboration in the Microsoft Azure Cloud.

- Manage who sees what through granular rights and roles management.

World class cyber-security in the Azure Cloud

Scalable

- Easily scale up or down depending on your organizational needs

- Involve external companies, apps and services through our API interfaces.

Pay what you use, no overhead

Productivity

- Possibility to connect with Microsoft Offfice 365 apps such as Microsoft Teams, Power BI, Excel, and many more

- Allow your employees to collaborate across organizations from wherever they want, based on your own policy restrictions

Enable employees to get the most out of their work

"Results have been positive, including people with a bigger gap to the labor market. Because everyone has talents, the challenge is to discover and nourish that. HalloWerk! contributes to that aspect."

Richard Moti, City Council Member of Rotterdam
