PowerSchool

Unified Classroom™
Assessment

ACCELERATE STUDENT GROWTH

Part of the **award-winning** PowerSchool Unified Classroom™ solution, **Unified Classroom Assessment is a secure, integrated** online assessment **application** that gives teachers and administrators real-time insights into student mastery through formative assessments, interim benchmarks, exit tickets, and more.

Build Assessments More Easily

Choose from a bank of pre-written items or author your own to build rigorous, standards-aligned assessments that **gauge student comprehension in minutes**.
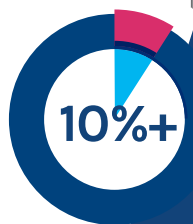

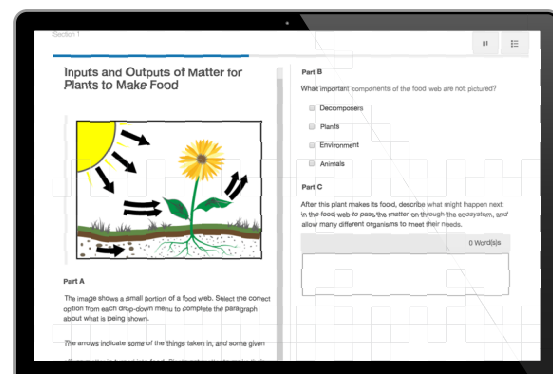

Deliver Assessments Your Way

Whether online or paper-based, **teachers save time** with automated quiz scoring, unit assessments, district benchmark assessments, daily exit tickets, or progress monitoring.

Access Student Mastery Insights

Use insights into student mastery to **identify performance trends** that can be used to immediately adjust digital lessons and assignments for your students or class.

10%+

Teachers interviewed reported reduced time spent creating, administering, and scoring student learning **by significantly more than 10%.**

Source: Driving ROI: The Case for a Unified Education Technology Platform, 2017
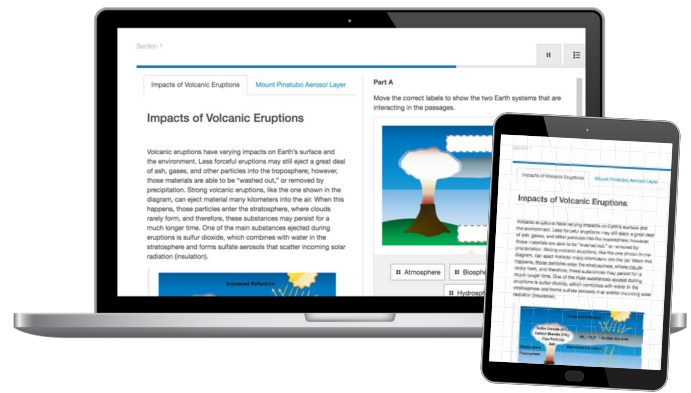

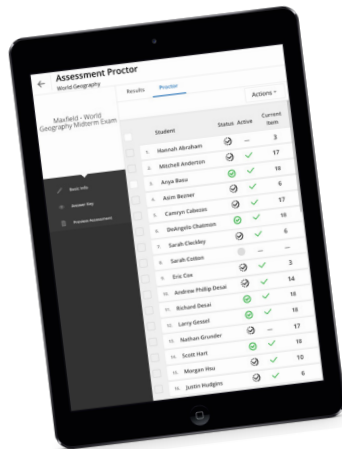

" Having the gradebook, class pages, and assessment all in one program, **efforts aren't duplicated**, and **monitoring the progress of the student is fluid.** "

REINETTE CHENARD
Data Manager, Regional School Unit 10, Maine

Robust Assessment Library

With unlimited item bank access to nearly 100,000 items and 60+ technology-enhanced item types like matching, drag and drop, essay, and math formulas, teachers have everything they need to build engaging and visual assessments.
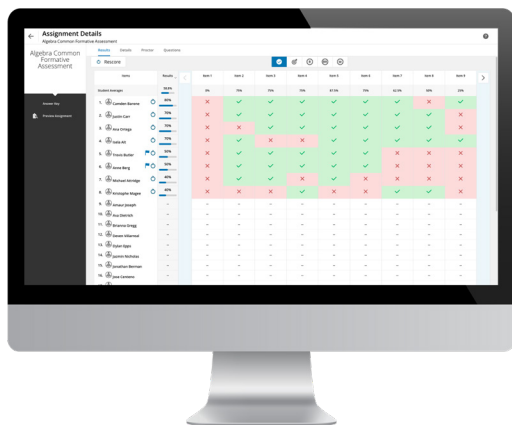

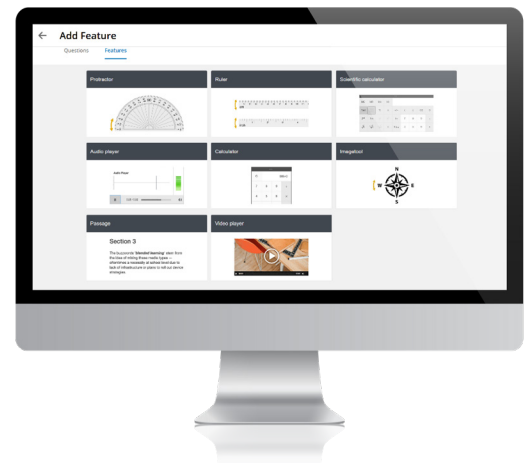

Secured Test Proctor

Give teachers the ability to administer assessments with secured access. Administrators can control when assessments are released so that items can be reserved for district benchmarks.

Student Test-Taking Tools

Students can use the convenient highlighter tool, review flag, calculator, selector, ruler, and protractor to complete online assessments.

Robust Reporting

Get instant results and detailed feedback on student assessments. Automatically score responses from math equations, visual questions, graph plots, and more. With gradebook syncing, assessments that are scored are automatically recorded in the gradebook.
