Software as a Service

GLOBAL CLIENTS

+ And Many More...

“ We’ve tried many different indoor positioning products.
The precision and smoothness of Pointr Labs’ solution really stood out for us ”

Colin Mair, Head of Innovation and IT Strategy at Heathrow.

GLOBAL PARTNERS

ARUP

“

ARUP looks for small innovative companies to help develop product specifically tailored to the unique problems that it's scale presents. Pointrlabs is the embodiment of such innovation and the solution is already operating beyond the original specifications helping us drive more from our everyday operations for us.

Stuart Hawkins, Associate Director at Arup, Dubai (On behalf of Dubai Airports)

”

USP

WHY POINTR?

- High performance
- Complete platform
 - iOS + Android + Web + Kiosk
 - Analytics, Marketing, CMS, Map
 - Cloud / On-premise
- Minimal setup, minimal maintenance
- Designed for integration
- Track record of success

INDOOR POSITIONING

*Patent pending, world-class,
real time positioning.*

Our core offering:

- Accurate positioning
- Automatic Floor Change
- No latency
- User Orientation* (Hugging man)
- Multiplatform (iOS & Android)

Awarded international tenders based on performance:

YOUR LONDON AIRPORT
Gatwick

**Without using the compass*

WAYFINDING

Not everyone navigates the same, that's why we have all areas covered.

2D Maps, 3D Maps, Augmented Reality, Voice Based Navigation

Not limited by predefined paths, true dynamic navigation.

Functionalities:

- Journey planning (direction & time)
- Turn-by-turn navigation
- Multi-level automatic routing
- Customisable (predefined, free navigation...)
- Accessibility Focused (Wheelchair users...)
- Multilingual
- Works Offline (only bluetooth switched on)

LOCATION BASED ENGAGEMENT

Seamlessly push the right content, to the right person, at the right time and location.

Our core offering:

- Remote Push
- Slide-to-open
- In-app push
- Survey Mode
- Media Support
- Traceability
- Works in Background

DATA ANALYTICS

Every second and data point matters.

Accurate location means better data quality to make decisions

Data Analytics Cover:

Heatmaps

Completed Path Analytics

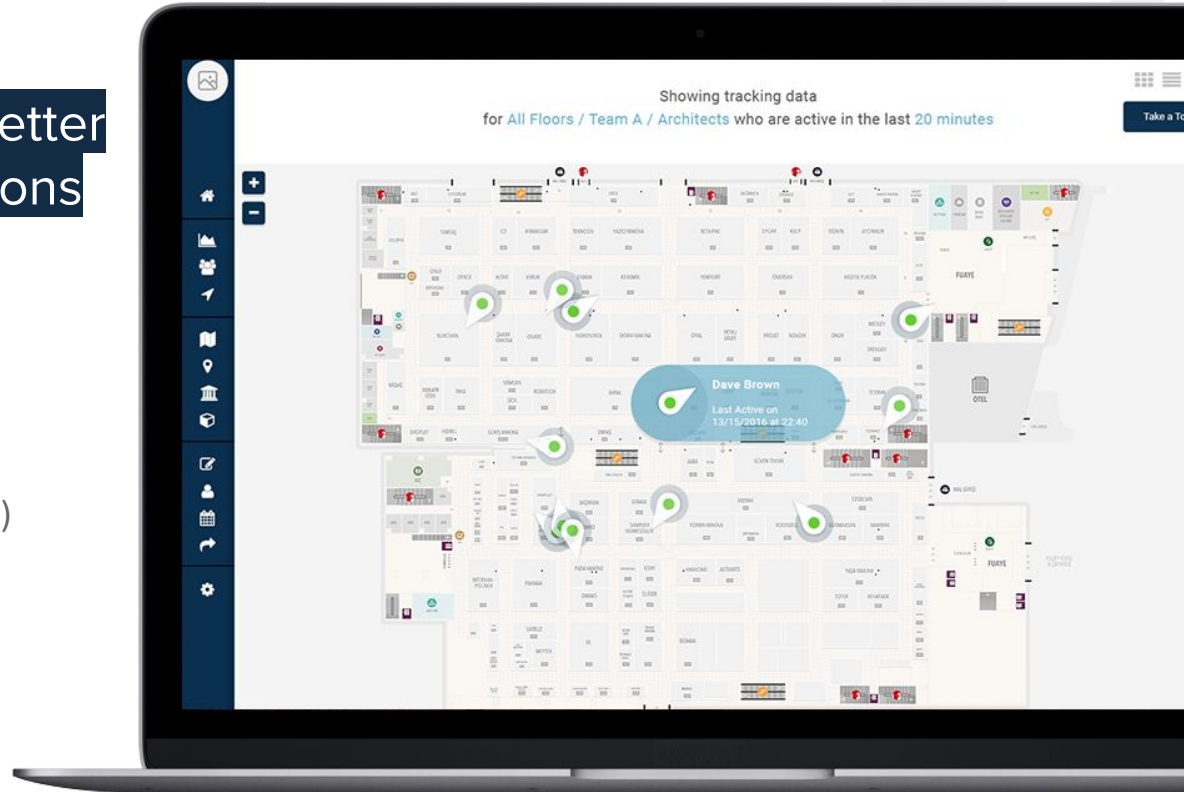

Real-time tracking (assets and people)

Engagement Analytics

Path Simulation

Zonal Footfall

Search Sentiment Analytics

CASE STUDY

IKEA

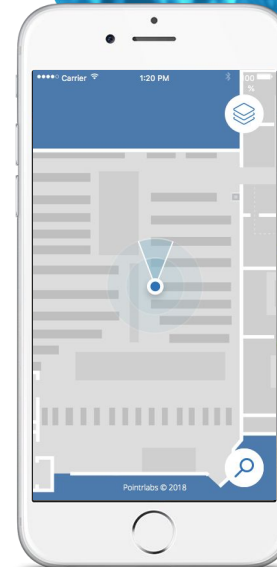

Project Description:

IKEA has been investing in LBS (Location Based Systems) and LBM (Location Based Marketing) for over 6+ years. IKEA tested a range of solutions, ranging from WiFi to camera based and bluetooth beacon solutions. After their unsuccessful pilot with Cisco (for 18 months), they switched to Pointr.

Pointr delivered:

- Bluetooth Beacon Infrastructure deployed in IKEA's in the following countries: USA, Canada, Japan, Germany, Sweden, UAE, Spain, and Italy.
- iOS/Android SDK which is integrated into the official IKEA mobile application.
- Features provided by Pointr:
 - Indoor Positioning / Blue-dot
 - Device orientation (without using compass)
 - Indoor Navigation with Product Search seamless integration
 - Location Based Messaging
 - POI search
 - High resolution, memory optimised maps

CASE STUDY

HARRODS

Project Description:

With over 1 million sqft of retail space, Harrods is the largest department store in Europe. Pointr has been working with Harrods since 2014

Pointr delivered:

- Bluetooth Beacon Infrastructure (500) deployed throughout entire estate
- iOS/Android SDK which is integrated into the official Harrods mobile application.
- Features provided by Pointr:
 - Indoor Positioning / Blue-dot
 - Device orientation (without using compass)
 - Indoor Navigation with Product Search seamless integration
 - Location Based Messaging
 - POI search

The Harrods logo, featuring the word "Harrods" in a stylized, black, cursive script font.

Ratings and Reviews

4.2 out of 5

22 Ratings

Love it

5 Mar 2018

★★★★★

melissa3007

This app has everything! The monthly digital magazine has amazing content - from recipes and travel to fashion... (and the photoshoots are beautiful!) The mobile store guide is incredibly handy to have for any trips to the store - it's not hard to get lost in Harrods [more](#)

A google maps for Harrods

★★★★★

ambro_

Being able to search through the brands list and generate routes is so handy for when I'm shopping in Harrods. Content in the mag is great too with lots of videos.

A great 'go-to' app for all needs 2 Mar 2018

★★★★★

Samantha__x

The mobile store maps is a godsend! Super helpful when shopping in th Knightsbridge store so I don't get lost but there's also an events page, online shopping and a magazine.

DUBAI INTERNATIONAL AIRPORT

Project Description:

Dubai International Airport is the world's second busiest airport. In 2016, DXB handled **83.6 million** passengers.

Won through global tender: The procurement and maintenance of a fully functional indoor location system.

Pointn delivered:

- Location infrastructure through tracking)
- iOS/Android SDK for Dubai Airport
 - Indoor Positioning / Bluetooth
 - Device orientation (walking)
 - Indoor Navigation (including shuttle journey)
 - Location Based Messaging
 - Augmented Reality Navigation
 - Voice Activated Control
 - POI search
 - High resolution, memory optimised maps
- Enterprise Level Digital Maps - Pointn built a completely new map for Dubai Airport, both airside and landside.

TECHNOLOGY IS THE ANSWER TO IMPROVING PAX EXPERIENCE.

POINTN IS THE EMBODIMENT OF SUCH INNOVATION AND THE SOLUTION IS ALREADY OPERATING BEYOND THE ORIGINAL SPECIFICATIONS AND HELPING US DRIVE OUR EVERYDAY OPERATIONS

STUART HAWKINS, DUBAI INTERNATIONAL AIRPORT, 2018

TO CONCLUDE - WHY POINTR?

We are computer scientists. Have built a platform that provides a robust technology with minimal maintenance requirements.

We have the quality. We deliver the quality level consumers expect in positioning as well as the fine grain data venues need to excel.

We have delivered. Track record of delivery with international/domestic clients both in Aviation and also other sectors touching +1 billion visitors.

We have the know-how. The only company globally to have this much diverse, deployed and functioning clients .

We are agile and future proof. Constantly investing in R&D to provide the best possible service. In this sector for the long run.

By working with us you acquire an in-house team that you can rely on for the long run, working to deliver what the future of indoor location holds.

“Really impressed with Pointr’s accuracy of positioning and user experience” - Kathryn Malloch, Group Product Innovation Manager **Hammerson PLC**

“This is the future” - Daniel Young, Head of Digital, **easyJet**

“We were really impressed with the technology and how quickly we were able to see the results” - Navid Tehrani, **United Airlines**

Thank you!
