

Your problem of syncing public folder contacts to smartphones is solved.

Enterprise Edition shown

The screenshot shows the CiraSync web interface with several key sections and callouts:

- Summary:** A bar chart titled 'Tenant Coverage' showing metrics for the last 30 days. A legend indicates: 1875 Phone Number(s) updated, 18872 Text Field(s) updated, 3679 Address Field(s) updated, 2878 Contact(s) were added, 9269 Contact(s) were modified, and 522 Contact(s) were deleted. A pie chart shows 'Up to date' (green) and 'Never updated' (black) contact counts.
- Sync Status:** Shows 'Last Update: Jul 28, 07:30 AM' and 'Next Update: Jul 28, 04:10 PM'. The current task is 'Currently not running'.
- Schedule:** Set to 'Daily, Time: 04:10 PM' with an 'Automation' callout.
- Auto-License:** Set to 'Enabled' with a callout.
- Contact Lists:** Lists folders like 'test PF', 'AOLTest6@itrezzo.net\PF\_testPF', 'Salesforce', 'merg\_folder1', and 'merg\_folder2'.
- Contact Collections:** Lists 'All Mailboxes' (168), 'DL in collection' (18), 'Solo2+Max\_mailboxes' (2), 'Sub-collections' (18), 'Collection 1' (13), 'Collection 2' (13), and 'Solo Demo2 only collection!' (1).
- Licensing:** Shows 3 IN USE, 17 AVAILABLE, 9 NOT LICENSED, and a RENEWAL date of SEP 1 2016.
- Reporting:** Shows 'Enabled' and 'Recipients: Solo Demo2'.
- History:** Shows a list of sync events with a 'Flexible, Complete' callout.
- Mailboxes Table:**

NAME	EMAIL	UPDATED ↓	ELAPSED	CONTACTS	LICENSE
Solo Demo6	SoloDemo6@itrezzoHQ.onmicrosoft.com	07:32 am 28 Jul 2016	00:02:27	201	✖
Solo Demo2	SoloDemo2@itrezzoHQ.onmicrosoft.com	01:25 am 28 Jul 2016	00:04:56	847	✔

“CiraSync is completely transparent to Office 365 users. The ease of use is tops, setup is very quick, and we love the accuracy.”

Brian Schultz, System Engineer, TeamLogic IT

Sync contacts from the Office 365 GAL, Public Folders, and CRM systems to smartphones. A trial of CiraSync Personal Edition takes two minutes to deploy.

“CiraSync is new technology, with a rich interface, very quick and easy to maintain.”

Joe Jerebic, Kismet Solutions

Scales to thousands of users

## Transparent to users, designed to simplify life for IT professionals.

- ✓ **Automation.** With CiraSync, there's no need to push a button to sync when a new employee joins the company. Just "set it and forget it."
- ✓ **Granular control.** Most companies don't want to provide every user with access to every contact, nor to every field. CiraSync selectively filters out fields and targets specific lists to specific contacts.
- ✓ **Sync subfolders.** Not all smartphones can sync subfolders. But for those that do, CiraSync can leverage them to segregate mobile users' personal contacts from their company contact lists.
- ✓ **Flexible targeting.** CiraSync's contact collections leverage existing GAL distribution groups, so you can just "point and pick."
- ✓ **Incremental updates.** Minimize cellphone data costs by syncing only changed contacts. Incremental updates take less time and reduce the possibility of sync errors, too.
- ✓ **No server. No desktop. No client. No configuration.** One great advantage of a cloud solution is eliminating the need to install, configure, and maintain software.
